Polish National Rail System Adopts DataDotDNA

The Directors of DataDot Technology Limited (ASX:DDT) are pleased to advise that DNA Program Polska Sp z o.o., distributor of DataDotDNA in Poland, has won a public tender to supply DataDotDNA to the Polish National Rail System (PKP PLK S.A.).

PKP PLK S.A. has decided to implement DataDotDNA nationwide following a trial of DataDotDNA application to rail system property in several regions over the last 12 months. As a result of this trial theft of rail system property fell by 30% to 70% across the trial regions.

The Chief Executive Officer of DataDot, Mr Ian Allen said: "The decision by Polish Rail to adopt DataDotDNA across its entire network is significant, both commercially for the company and as an example of the versatility of our product to deter theft across a wide range of assets."

About DataDot Technology Limited (DDT)

DDT is a leading asset identification company, with expanding global operations. DDT has invented, patented and commercialised an asset identification technology that provides greater asset security, proves authenticity of product, assists in proving ownership, and acts as a deterrent to thieves.

The DataDotDNA technology has gained acceptance around the world and is currently sold in Australia, UK/Europe, USA, Canada, South Africa, Indonesia, Taiwan, Thailand, Hong Kong, China, New Zealand, Russia, Romania and Poland. DataDotDNA customers include a number of major vehicle suppliers in various regions including Audi, Nissan, BMW, Subaru, Ford Performance Vehicles, Porsche, Holden Special Vehicles, Lotus, Mitsubishi, Toyota, VW and Yamaha.
