JORC and Competent Person Statement

Information herein relating to Exploration Results is based on information compiled by Nicholas Mather B.Sc (Hons), who is a Fellow of The Australasian Institute of Mining and Metallurgy. Mr Mather is employed by DGR Global Limited, as Chief Executive Officer.

Mr Mather has more than five years experience relevant to the style of mineralisation and type of deposit being reported and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Minerals Resources and Ore Reserves' (the JORC Code). This report is issued with the prior written consent of the Competent Person as to the form and context in which it appears.

Hydrocarbons

The prospective resource estimates used in this presentation were, where indicated, compiled by MBA Petroleum Consultants, and detailed in the Independent Expert's Report, Replacement Prospectus dated 20 March 2012 for Armour Energy (Chapter 9). Raymond L Johnson Jr., General Manager Exploration and Production for Armour Energy Ltd, is qualified in accordance with the requirements of ASX listing rule 5.11 and has consented to the use of the resource figures in the form and context in which they appear in this announcement.

FOR THE SCEPTICS

They Said it Couldn't be Done

- In 2000 the sceptics said “Coal Seam Gas will not be viable in Queensland”.
 - Arrow Energy was taken over by Shell for \$3.5 billion cash and foreign assets returned as Dart Energy.
- In 1999 the sceptics said “you could not find, let alone develop, a minerals sands project in the northern Murray Basin”.
 - Bemax has now developed its second operation after being taken over by Saudi Arabian company Cristal.
- In 2006 the sceptics said “you will never develop a coal mine in the Galilee Basin”.
 - Waratah Coal taken over in 2009 for \$130 million and later the subject of an \$8.5 billion finance proposal.
