28 February 2014

Expiry of Unlisted Options

DGR Global advises of 7,000,000 unlisted Employment Options at 28 cents expiring today.

On behalf of the Board
Karl Schlobohm
Company Secretary

About DGR Global Limited

DGR Global Limited is focused on generating exploration and development companies in a wide array of minerals.

Projects are conceived directly through the skills and experience of DGR Global's accomplished team of exploration geoscientists (with an enviable track record), not by the costly purchase of properties. Each project or exploration strategy is held in a separate subsidiary.

Investors can choose to invest specifically in a particular project/commodity, or by investing in DGR Global, invest in the resource company generating business which retains a significant carried interest in each project.

DGR Global projects tend to be very large, targeting new provinces with the potential to make world-class discoveries. The exploration concepts are often novel. While increased metal prices and advances in technology can turn former sub-economic deposits into viable projects, DGR Global subsidiary projects frequently emerge from detailed reassessment and reinterpretation of large databases – looking at things from a new angle and with a different focus using state of the art techniques. The DGR Global Directors and Managers have in the past applied new exploration models to extensive tenement areas which have led to identification of new mineral provinces and the discovery of nationally significant resources (eg. Arrow Energy, Bow Energy, Waratah Coal). These efforts are now being dedicated to DGR Global.

DGR Global currently holds 75 million shares (25%) in Armour Energy Limited (ASX: AJQ) currently focused on the discovery and development of world class gas resources in northern Australia, 39 million shares (16%) in Orbis Gold Limited (ASX: OBS) currently exploring for gold in Burkina Faso, 54 million shares (9%) in SolGold plc (LSE: SOLG) currently exploring for gold and copper in the Solomons, Ecuador and Queensland, 84 million shares (14%) in Aus Tin Mining Limited (ASX: ANW) owner of the prospective Taronga Tin Project, and 60 million shares (22%) in Navaho Gold Limited (ASX: NVG) owner of the NavGas Project in South Australia, and several Carlin style gold projects in Nevada and New Mexico (USA).
