25 July 2012

### **CORRECTION TO EXPLORATION ACTIVITIES REPORT FOR QUARTER ENDED 30 JUNE 2012**

We refer to the Exploration Activities Report for the Quarter ended 30 June 2012 released to market on 24 July 2012 in which a graph referred to "in-situ" resource values for potential new mineral sand developments, including the Company's own Cyclone Deposit.

It was not the intention of the Company to imply economic viability of the Cyclone resource. The Company is mindful of JORC Code reporting requirements and hereby retracts statements and graph which relate to in-situ value.

Yours Faithfully  
**DIATREME RESOURCES LIMITED**

**TONY FAWDON**  
Executive Chairman/CEO

#### **Competent Person Statement**

The information in this report, insofar as it relates to Exploration Results and Mineral Resources is based on information compiled by company personnel under the supervision of Mr David Jelley, who is a full time employee of Diatreme Resources Limited and a Member of the Australasian Institute of Mining and Metallurgy. Mr Jelley has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he has undertaken to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Jelley consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.
