We are also pleased to confirm that net cash as at the end of the first half FY21 will be approximately \$33.5 million.

Commenting on the results, dusk CEO, Peter King said; "The results delivered across the first half of FY21 are well ahead of the results delivered in the prior corresponding period despite a significant period of disrupted trade in Melbourne. They build on the strong results delivered across the past three years and further demonstrate the success of our focused strategy and the ability of our team to execute, including in a volatile environment where agility has been key."
