

DOTZ NANO SIGNS MARKETING AND SALES AGREEMENT WITH STREM CHEMICALS INC. AND ACHIEVES FIRST SALES

- **Dotz Nano signs marketing and sales agreement with Strem Chemicals Inc. a privately held chemical distribution company that sells through its online and printed catalogues.**
- **Strem's clients include academic, industrial and government research and development laboratories as well as commercial scale businesses in the pharmaceutical, microelectronic and chemical / petrochemical industries.**
- **Dotz Nano's achieves first sales with the receipt of Strem Chemicals purchase order for GQDs for resale.**

Perth, Australia – Dotz Nano Limited (“Dotz Nano” or the “Company”), a nano-technology company focusing on the development, manufacture and commercialisation of graphene quantum dots (GQDs), is pleased to announce that it has signed a non-exclusive marketing and sales agreement with Strem Chemicals Inc. a privately held manufacturer and distributor of high quality specialty chemicals headquartered in Newburyport near Boston, Massachusetts, USA.

Strem Chemicals will facilitate sales of Dotz's GQDs to academic, industrial and government research and development laboratories as well as commercial businesses that generally use GQDs for research purposes. Strem Chemicals will hold Dotz Nano's products in inventory for resale to its clients through its online and printed catalogues. Strem's clients number several hundred organizations.

Dotz Nano has also achieved first sales with the receipt from Strem Chemicals, its purchase order for GQDs.

Commenting on the new development, Dotz Nano's CEO Dr. Moti Gross, stated: *“We are extremely pleased to have signed a marketing and sales agreement with Strem Chemicals which will allow us to supply and service a large group of consumers that usually use graphene quantum dots in either research or pilot production activities.”*

“The research market is a substantial one, with a high profit margin, therefore it makes good business sense to ally us with an established chemical distributor with a proven network, and logistics capability, to support these sales.”

“We bring to the market the next generation of nanoparticles producing inexpensive, non-toxic graphene quantum dots and at ten times the production yield compared to conventional quantum dots. Graphene quantum dots allow superior benefits to products and applications, and we look forward to the imminent commercialization of our technology”.

“With the receipt of Strem Chemicals purchase order, Dotz Nano has achieved first sales of its GQDs and is on its way to full commercialization of GQDs”

About Strem Chemicals Inc.

Strem Chemicals, Inc. established in 1964, is a privately-held company that manufactures and markets specialty chemicals of high purity. Its clients include academic, industrial and government

research and development laboratories as well as commercial scale businesses in the pharmaceutical, microelectronic and chemical / petrochemical industries. Strem also provides custom synthesis (including high pressure synthesis) and cGMP manufacturing services.

Strem's corporate headquarters is in Newburyport 38 miles (60km) north of Boston, Massachusetts, USA. This facility covers 48,000 sq. ft (4,460 m²). Its cGMP facility is FDA inspected. The European headquarters and warehouse are in Bischheim, France. Strem also has offices in Germany and the UK. Strem's large inventory of research chemicals and diverse warehouse locations, allows most orders to be shipped the same day they are received.
