ASX Release

1 October 2021

Appointment of CFO

DUG Technology Ltd (ASX: DUG) (**“DUG”** or the **“Company”**) is pleased to announce the appointment of Greg Haskis as CFO of the DUG Technology Group effective as at 1 October 2021.

Greg is a Chartered Accountant with extensive experience as a finance executive across a broad range of companies and jurisdictions. He was the CFO of ASX-listed financial services provider Plan B Group for eight years through its successful IPO to the sale of the business to the IOOF Group in 2011. He subsequently provided financial and management consulting services to a number of listed and unlisted entities and has been the CFO of a boutique property development and fund management business for the last six years.

The Board is delighted that Greg has accepted the position of CFO and looks forward to working with him.

Commenting on the appointment, DUG Managing Director Dr Matthew Lamont said: “We are fortunate to welcome Greg as DUG’s CFO. His proven leadership, financial and commercial capabilities make Greg an ideal addition to DUG’s executive team”.

Authorised for release by the Board of DUG Technology Ltd.

About DUG

DUG is an ASX listed technology company, headquartered in Australia, that specialises in analytical software development and reliable, green, high-performance computing (HPC). The company is built on a strong foundation of applied science and a history of converting research into practical, real-world solutions. DUG delivers innovative software products and cost-effective, cloud-based HPC as a service backed by bespoke support for technology onboarding. DUG’s expertise in algorithm development and code optimisation enables clients to leverage big data and solve complex problems.

DUG is a global company with offices in Perth, London, Houston and Kuala Lumpur, supporting a diverse industrial client-base that includes radio-astronomy, biomedicine and meteorology, as well as the resource, government and education sectors. DUG designs, owns, and operates a network of some of the largest and greenest supercomputers on Earth. The company continues to invest and innovate at the forefront of software and HPC, working towards a climate-positive future.
