ASX Announcement

MLG AWARDED ~A$70.0m INTEGRATED MINING AND CRUSHING CONTRACT AT DEVELOP GLOBAL'S PIONEER DOME LITHIUM PROJECT

Key Highlights:

- Award of an integrated open pit mining and crushing services contract with ASX-listed Develop Global Limited at the Pioneer Dome Lithium Project, located in the Eastern Goldfields in Western Australia.
- Initial 12-month campaign expected to commence in July 2026.
- Estimated total contract revenue of approximately A$70.0 million, contracted in full within the 2027 financial year.
- Civil and Crushing scope includes open pit mining and crushing services supporting the establishment of the Cade Pit within the Pioneer Dome Lithium project. Work includes drill and blast, ore and waste mining, load and haul, ROM stockpile management, ore rehandle, and the supply, operation and maintenance of the crushing circuit.
- Establishes MLG's services presence at one of Western Australia's emerging lithium projects.

MLG Oz Limited (ASX: MLG) (**MLG** or **the Company**) is pleased to announce the award of a fully integrated open pit mining and crushing services contract with Develop Global Limited (ASX: DVP) (**Develop**) at the Cade Pit, the inaugural mining stage of Develop's Pioneer Dome Lithium Project in Western Australia.

The Pioneer Dome Lithium Project is located approximately 130 km south of Kalgoorlie in Western Australia, with sealed road access and well-established regional infrastructure. The Cade Pit is the inaugural open pit mining stage of the Project, with Develop targeting first direct shipping ore production in the December quarter 2026.

Under the contract, MLG will provide a comprehensive suite of services supporting operations at Pioneer Dome, including drill and blast, ore and waste mining, load and haul, ROM stockpile management, ore rehandle, and the supply, operation and maintenance of the crushing circuit.

The contract is expected to generate approximately A$70.0 million in revenue across its 12-month term and represents a material revenue contribution to MLG's mining services and crushing portfolio through FY27. MLG anticipates that the crushing scope may extend as Develop progresses subsequent phases of work at Pioneer Dome. Any extension will be subject to future commercial arrangements between MLG and Develop.

Operations will be supported by MLG-owned crushing assets and core production fleet, providing meaningful operational control and asset utilisation across the campaign.

MLG Chief Executive Officer, Mark Hatfield, said: "The award of the Pioneer Dome contract is a strategically important step for MLG. It positions us alongside one of the most credible emerging mineral producers on the ASX and draws on MLG's prior experience in the lithium services market.

"This integrated scope of work, spanning drill and blast, load and haul, crushing and site services under a single accountable framework, showcases the depth of MLG's self-perform capability and reinforces the value of its integrated service model for clients seeking a trusted, end-to-end services partner.

"We look forward to working closely with Develop to deliver this initial stage of activity safely and efficiently, and to building a strong relationship as Develop progresses its broader plans for Pioneer Dome," Mark concluded.

Authorised for release by the Board of Directors.

About MLG Oz Limited

MLG Oz Limited (ASX: MLG) is a Kalgoorlie-based integrated mining services and resource asset management company, founded by Executive Chair, Murray Leahy. MLG delivers tailored solutions to mining operations, primarily focused on supporting its clients' ore processing facilities across gold, iron ore and other base metals in Western Australia and the Northern Territory.

MLG offers a comprehensive range of services under an integrated business model, often within a single contractual framework. These include Civil & Construction, Crushing & Screening, Bulk Haulage & Site Services, and the supply of Open Pit Mining & Construction Materials from MLG's strategically located regional quarries.

The Company's key capabilities include build, own, and operate models, contract crushing and screening services, as well as crusher feed and material management.

Services extend to include construction, road maintenance, rehabilitation work, vehicle maintenance, and machinery and labour hire.
