

ASX release

IXUP Appointment of Chief Financial Officer

27 November 2017: Data collaboration company IXUP (ASX: IXU) is pleased to announce the appointment of David Bonham as Chief Financial Officer (CFO).

David Bonham will join IXUP in early 2018 after ten years at Bupa Dental Corporation where he is Managing Director Australia having joined as Chief Financial Officer in 2007. Before that, he served as Chief Financial Officer and then General Manager at the Lynch Group Australia and Group Finance Manager at Tyco Safety Products.

David is the statutory director for a number of Bupa owned subsidiaries and is a member of the External Advisory Committee for the School of Business at Western Sydney University.

David is a qualified accountant and brings extensive experience in financial management, business development, strategic planning and project management. He is also a member of CPA Australia and holds a Bachelor of Business in Accounting from Western Sydney University, and an MBA from Deakin University.

As part of his remuneration, David will be granted options under the IXUP Share Option Plan, consistent with the company's focus on aligning executive interests with the shareholders of the Company.

IXUP Executive Chairman Tim Ebbeck said:

"Following our recent ASX listing, I am delighted to welcome David as CFO of IXUP.

David is a highly experienced finance leader with a track record of delivering excellent results. His strong governance background, combined with extensive experience in M&A, business development and growth, will enable David to play a crucial part in IXUP's progress as a public company.

IXUP's technology has the potential to become the global standard in data collaboration and we look forward to David joining the team as we drive the successful commercialisation of the business."

About IXUP

Founded in 2011, IXUP is next generation software that allows two or more organisations to connect data without necessarily sharing all their information. The company's disruptive data collaboration platform is equipped with a proprietary patent protected, multi-layer encryption process. The technology helps organisations gain a significant time and cost advantage by eliminating complex challenges around securely connecting and matching data. The platform's unique approach to matching data enables organisations to create deeper insights to inform strategy and gain a significant competitive advantage. IXUP is headquartered in Sydney, Australia.
