About IXUP

IXUP Limited (ASX: IXU) (pronounced 'eyes up') is a pioneering technology company with a world class suite of software products that facilitate the secure sharing and analysis of sensitive information using advanced security technology. The Company's Secure Data Collaboration Suite of products represent the missing 'key' to organisations 'unlocking' their information assets previously unable to be shared or commercialised due to concerns around privacy, cyber security, and compliance considerations. These data collaboration products are being commercialised at a crucial junction when the need to share and drive revenue from sensitive data and dormant data assets is becoming more important, yet more difficult to achieve.

IXUP is also the developer and operator of the BetStop - the National Self Exclusion Register™, under an exclusive contract with the Commonwealth Government of Australia via the Australian Communications and Media Authority (**ACMA**). BetStop - the National Self Exclusion Register™ is an important initiative by the Australian Commonwealth Government. Once operational, it will allow all Australians to easily self-exclude from all licensed interactive wagering services for a minimum of 3 months and up to a lifetime.
