### About DEXUS

DEXUS Property Group (DEXUS) is one of Australia's leading real estate groups, investing directly in high quality Australian office and industrial properties. With \$14 billion of assets under management, DEXUS also actively manages office, industrial and retail properties located in key Australian markets on behalf of third party capital partners. DEXUS manages an office portfolio of 900,000 square metres across Sydney, Melbourne, Brisbane and Perth and is one of the largest institutional owners of office buildings in the Sydney CBD, Australia's largest office market. DEXUS is a Top 50 entity by market capitalisation listed on the Australian Securities Exchange under the stock market trading code 'DXS' and is supported by more than 19,000 investors from 22 countries. With over 25 years of experience in commercial property investment, development and asset management, DEXUS has a proven track record in capital and risk management, providing service excellence to tenants and delivering superior risk-adjusted returns to investors. ## GROUP HIGHLIGHTS

### Financial results

|                              |                           | 31 Dec 2013 | 31 Dec 2012 | Change |
|------------------------------|---------------------------|-------------|-------------|--------|
| <b>Key financial metrics</b> | Statutory net profit      | \$277.2m    | \$267.0m    | +3.8%  |
|                              | FFO <sup>1</sup>          | \$189.8m    | \$182.2m    | +4.2%  |
|                              | FFO per security          | 4.08c       | 3.85c       | +6.0%  |
|                              | Distribution per security | 3.07c       | 2.89c       | +6.2%  |

|                          |                  | 31 Dec 2013 | 30 Jun 2013 | Change |
|--------------------------|------------------|-------------|-------------|--------|
| <b>Other key metrics</b> | Gearing          | 30.6%       | 29.0%       | +1.6%  |
|                          | NTA per security | \$1.08      | \$1.05      | +2.9%  |

1. DEXUS's FFO comprises net profit/loss after tax attributable to stapled security holders calculated in accordance with Australian Accounting Standards and adjusted for: property revaluations, impairments, derivative and FX mark to market impacts, fair value movements of interest bearing liabilities, amortisation of certain tenant incentives, gain/loss on sale of certain assets, straight line rent adjustments, deferred tax expense/benefit, rental guarantees, coupon income and distribution income net of funding costs. Refer to the glossary for the detailed explanation of FFO and Slide 9 for a reconciliation to net profit.

## TAKEOVER OF COMMONWEALTH PROPERTY OFFICE FUND (CPA)

# TRANSACTIONS

## Takeover of Commonwealth Property Office Fund (CPA)

- Secured support from the Commonwealth Bank of Australia and large institutional investors
- Offer closes 14 February 2014
- Staged transition planning well progressed
- No obligation to sell the properties that form the agreement with GPT Wholesale Office Fund (GWOF) until the Consortium acquires 100% of CPA units

### Combined DXS/CPA lease expiry profile by income<sup>1</sup>

1. Excluding 5 Martin Place, Sydney.

2. Excluding properties sold to GWOF and including 5 Martin Place, Sydney on completion.

| Portfolio metrics <sup>2</sup> | CPA portfolio | Combined DXS/CPA |
|--------------------------------|---------------|------------------|
| Number of properties           | 21            | 45               |
| Total value                    | \$3.6bn       | \$7.5bn          |

| Weighted average lease expiry  | 4.4 years     | 5.0 years        |
| Capitalisation rate            | 7.2%          | 7.1%             |
| Prime grade %                  | 93%           | 92%              |

# MARKET OUTLOOK

## Why office demand will improve from FY15

- Demand to improve in FY15 due to
  - Economy responding to easing monetary policy and lower AUD
  - Improving business conditions and confidence
  - Recovery in employment to be led by business services, accounting, legal, IT, education and pharmaceuticals
  - Tenant migration into CBD areas
- Sydney and Melbourne to lead improvement with Brisbane and Perth to follow

### DEXUS Office Demand Barometer points to improvement

### Office demand in the four main CBDs vs employment growth

Source: Jones Lang LaSalle, Bloomberg, NAB, DEXUS Research.  
DEXUS Office Barometer includes five variables: S&P/ASX 200 Index, NAB Business Confidence Index, ANZ job ads, US ISM Manufacturing Index and short-term business travel departures.

## MARKET OUTLOOK

### Industrial markets relatively stable

- Lead indicators for demand now improving (business confidence, consumer confidence)
- Demand to be driven by tenants consolidating and seeking efficiencies eg. logistics and retail
- Limited availability of prime space
- Rents flat in FY14, then upside in medium term
- Melbourne very competitive
- Sydney subdued but stable
- Brisbane has paused but could recover quickly

#### Consumption - to drive rental growth

#### National prime vacancy remains low

Source: Jones Lang LaSalle, Savills, Deloitte Access Economics, DEXUS Research.

DEXUS Property Group 2014 Half Year Results Presentation

Slide 33

## MARKET OUTLOOK

### Investment demand

- Markets nearing low point of rent cycle - growth anticipated medium/long term
- Further declines in capitalisation rates should lead to firming of capital values
- Strong investment demand for quality stock due to solid income yield
- Wide spread in pricing of assets depending on risk, based on
  - duration of leases
  - prime vs secondary assets
  - CBD vs fringe/metropolitan
- Pricing spreads expected to narrow in the medium term for quality properties, but likely to remain uneven

#### Capitalisation rates - prime and secondary (Sydney CBD)

#### Capital values - office and industrial (Sydney)

Source: Jones Lang LaSalle, DEXUS Research.

DEXUS Property Group 2014 Half Year Results Presentation

Slide 34

## SUMMARY

## SUMMARY

- Delivered a solid result in a challenging market
- Expect office market conditions to improve in FY15
- Focus moving forward:
  - Ensure CPA portfolio is successfully integrated
  - Continue to drive earnings from existing business
- Market guidance for FY14<sup>1</sup>
  - FFO per security 8.29 cents, representing 7.0% growth
  - Distribution per security 6.24 cents

1. Barring unforeseen circumstances. Assumptions include: 75% payout ratio, delivering 2.5-3.5% like-for-like income growth across the office and industrial portfolios, \$4-5m in trading profits, circa 5.7% cost of debt and excluding impact of CPA transaction.

Foyer, Australia Square, 264 George Street, Sydney NSW

1. Based on payout ratio of 75% of FFO.

2. Includes rent straight-lining.

3. Primarily includes fair value movements of derivatives and interest bearing liabilities, deferred tax and gain/(loss) on sale of assets and includes property revaluations of discontinued operations.

## FINANCIAL RESULTS

### FFO reconciliation — current and Property Council of Australia (PCA)

- From 1 July 2014, DXS will adopt a new definition for calculating FFO, in accordance with the PCA white paper "Voluntary best practice guidelines for disclosing FFO and AFFO". The table below shows how DEXUS's FFO for the six months ended 31 December 2013 would have been reported under the PCA definition

| Reference                                   | Item                                                     | DXS FFO<br>\$m | PCA FFO<br>\$m |
|---------------------------------------------|----------------------------------------------------------|----------------|----------------|
| <b>Statutory AIFRS net profit after tax</b> |                                                          | <b>277.2</b>   | <b>277.2</b>   |
| <b>A Investment property and inventory</b>  |                                                          |                |                |

| <b>Distribution payout policy:</b>           | Between 70-80% of Funds From Operations (FFO), in line with free cash flow.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Funds From Operations (FFO):</b>          | FFO is often used as a measure of real estate operating performance after finance costs and taxes. DEXUS's FFO comprises net profit/loss after tax attributable to stapled security holders calculated in accordance with Australian Accounting Standards and adjusted for: property revaluations, impairments, derivative and FX mark to market impacts, fair value movements of interest bearing liabilities, amortisation of certain tenant incentives, gain/loss on sale of certain assets, straight line rent adjustments, deferred tax expense/benefit, rental guarantees, coupon income and distribution income net of funding costs. |
| <b>Gearing:</b>                              | Gearing is represented by Interest Bearing Liabilities (excluding deferred borrowing costs and including the fair value of cross currency swaps) less cash divided by Total Tangible Assets (excluding derivatives and deferred tax assets) less cash. Covenant gearing is the same definition but not adjusted for cash.                                                                                                                                                                                                                                                                                                                    |
| <b>Non-cash items:</b>                       | Includes property revaluations, impairment of goodwill, derivative MTM, gain/loss on sale and deferred tax.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Operating EBIT:</b>                       | Comprises net operating income, management EBIT and other income less Responsible Entity fees and other expenses paid.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Portfolio value:</b>                      | Unless otherwise stated, portfolio value is represented by investment properties, inventories and investments accounted for using the equity method, and excludes cash and other assets.                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Responsible Entity fees:</b>              | In this presentation Responsible Entity fees are shown at cost following internalisation in Feb 08. This Responsible Entity fee expense and the corresponding management fee revenue are eliminated in the statutory financial statements as the management business is a wholly owned consolidated entity.                                                                                                                                                                                                                                                                                                                                  |
| <b>Securities on issue:</b>                  | FFO per security is based on the average weighted units on issue prior to the Theoretical Ex-Rights Price (TERP) adjustment. In accordance with AASB133 the weighted average number of securities for earnings (EPS) purposes is adjusted by a factor equal to the security price immediately prior to issue divided by the TERP.                                                                                                                                                                                                                                                                                                            |
| <b>Weighted Average Lease Expiry (WALE):</b> | A measure in years of the average term to expiry of in-place rent. Includes vacancies.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## IMPORTANT INFORMATION

- This presentation is issued by DEXUS Funds Management Limited (DXFM) in its capacity as responsible entity of DEXUS Property Group (ASX:DXS). It is not an offer of securities for subscription or sale and is not financial product advice.
- Information in this presentation including, without limitation, any forward looking statements or opinions (the Information) may be subject to change without notice. To the extent permitted by law, DXFM, DEXUS Property Group and their officers, employees and advisers do not make any representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of the Information and disclaim all responsibility and liability for it (including, without limitation, liability for negligence). Actual results may differ materially from those predicted or implied by any forward looking statements for a range of reasons outside the control of the relevant parties.
- The information contained in this presentation should not be considered to be comprehensive or to comprise all the information which a DEXUS Property Group security holder or potential investor may require in order to determine whether to deal in DEXUS Property Group stapled securities. This presentation does not take into account the financial situation, investment objectives and particular needs of any particular person.
- The repayment and performance of an investment in DEXUS Property Group is not guaranteed by DXFM, any of its related bodies corporate or any other person or organisation.
- This investment is subject to investment risk, including possible delays in repayment and loss of income and principal invested.
