Tomlinson Energy Service wins \$1.6M Victorian Contract

The Board of The Environmental Group Limited (ASX: EGL), is pleased to announce that its wholly owned subsidiary Tomlinson Energy Service, has been awarded a \$1.6M contract by a joint venture between CPB Contractors and John Holland, for boiler works and the installation of concrete curing facilities at a manufacturing plant in Benalla. The facility is supplying precast concrete items for one of the large infrastructure projects underway in Victoria. This is the largest single value contract won by Tomlinson Energy Services since it was purchased by EGL from RCR Tomlinson administrators in January 2019, and marks the next stage of growth for the business. Tomlinson Energy Service has performed strongly since the EGL acquisition under an experienced leadership team.

The Environmental Group Limited

About EGL

EGL has four business units, all committed to the protection of the environment by improving air quality, reducing carbon emissions, enhancing waste to energy production and lifting water quality.

- **Total Air Pollution Control** has a range of technologies which reduce dust, odours and harmful gasses from the environment.
- **Baltec IES** produces inlet and exhaust systems for gas turbines, which are used to complement and augment solar and wind energy production, without the use of rare mineral battery resources.
- **Tomlinson Energy Service** division is an essential link in our strategy to build a bio/waste to energy platform.
- **EGL Water** division continues to develop our patented technologies in conjunction with Victoria University. EGL recognises that one of the world's most valuable assets is water and will persist in our vision to reduce water pollution, leading to an improved environment, through low cost technology solutions.
