¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes "OR" at the end of the selection and you delete the other options, you can also, if you wish, delete the "OR" at the end of the selection.

See notes 4 and 5 below for further instructions on how to complete this form.

This Corporate Governance Statement discloses the extent to which the Company follows the recommendations set by the ASX Corporate Governance Council in its publication *Corporate Governance Principles and Recommendations 4th Edition* (Recommendations). The Recommendations are not mandatory, however where Recommendations have not been followed, reasons for not following them have been provided, along with what (if any) alternative governance practices have been adopted in lieu of the Recommendation.

The Company's Corporate Governance Policies are contained within the Corporate Governance Plan and available on the Company's website.

Principle 1: Lay solid foundations for management and oversight

Roles of the Board & Management

The role of the Board is to provide overall strategic guidance and effective oversight of management. The Board derives its authority to act from the Company's Constitution.

The Board is responsible for and has the authority to determine all matters relating to the strategic direction, policies, practices, establishing goals for management and the operation of the Company. The Board delegates responsibility for the day-to-day operations and administration of the Company to the Chief Executive Officer.

The role of management is to support the Chief Executive Officer and implement the running of the general operations and financial business of the Company, in accordance with the delegated authority of the Board.

In addition to matters it is expressly required by law to approve, the Board has reserved the following matters to itself:

- overseeing the Company, including its control and accountability systems;
- appointment, evaluation, rewarding and if necessary the removal of the Managing Director (or equivalent), the Company Secretary and senior management personnel;
- ratifying the appointment, and where appropriate, the removal, of senior executives;
- in conjunction with members of the senior management team, develop corporate objectives, strategies and operations plans and approve and appropriately monitor plans, new investments, major capital and operating expenditures, use of capital, acquisitions, divestitures and major funding activities;

ANNUAL REPORT 31 DECEMBER 2023
CORPORATE GOVERNANCE STATEMENT

Subject to the specific authorities reserved to the Board under the Board Charter, the Board delegates to the Chief Executive Officer responsibility for the management and operation of Elsight. The Chief Executive Officer is responsible for the day-to-day operations, financial performance and administration of Elsight within the powers authorised and delegated to him from time-to-time by the Board. The Chief Executive Officer may make further delegation within the delegations specified by the Board and will be accountable to the Board for the exercise of those delegated powers.

Further details of Board responsibilities, objectives and structure are set out in the Board Charter which is contained within the Corporate Governance Plan on the Elsight website.

Board Committees

The Board considers that the Company is not currently of a size, nor are its affairs of such complexity to justify the formation of separate committees at this time including audit and risk, remuneration or nomination committees, preferring at this stage of the Company's development, to manage the Company through the full Board of Directors. The Board assumes the responsibilities normally delegated to the audit and risk, remuneration and nomination Committees.

If the Company's activities increase, in size, scope and nature, the appointment of separate committees will be reviewed by the Board and implemented if considered appropriate.

Board Appointments

The Company undertakes comprehensive reference checks prior to appointing a director or putting that person forward as a candidate to ensure that person is competent, experienced, and would not be impaired in any way from undertaking the duties of director. The Company provides relevant information to shareholders for their consideration about the attributes of candidates together with whether the Board supports the appointment or re-election.

The terms of the appointment of a non-executive director, executive directors and senior executives are agreed upon and set out in writing at the time of appointment.

The Company Secretary

The Company Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board, including agendas, Board papers and minutes, advising the Board and its Committees (as applicable) on governance matters, monitoring that the Board and, when applicable, Committee policies and procedures are followed, communication with regulatory bodies and the ASX as well as statutory and other filings.

Diversity

The Board has adopted a Diversity Policy which provides a framework for the Company to establish and achieve measurable diversity objectives, including in respect to gender, age, ethnicity and cultural diversity. The Diversity Policy allows the Board to set measurable gender diversity objectives (if considered appropriate) and to assess annually both the objectives (if any have been set) and the Company's progress towards achieving them.

The Board considers that, due to the size, nature and stage of development of the Company, setting measurable objectives for the Diversity Policy at this time is not appropriate. The Board will consider setting measurable objectives as the Company increases in size and complexity.

The participation of women in the Company at the date of this report is as follows:

- Women employees in the Company 17%
- Women in senior management positions 22%
- Women on the Board 0%

The Company's Diversity Policy is available within the Corporate Governance Plan.

Board & Management Performance Review

On a periodic basis, the Board conducts a review of its structure, composition and performance.

The periodic review includes consideration of the following measures:

- comparison of the performance of the Board against the requirements of the Board Charter;
- assessment of the performance of the Board over the previous twelve months having regard to the corporate strategies, operating plans and the annual budget;
- review the Board's interaction with management;

- review the type and timing of information provided to the directors; and
- identification of any necessary or desirable improvements to Board or committee charters.

The method and scope of the performance evaluation will be set by the Board and may include a Board self-assessment checklist to be completed by each Director. The Board may also use an independent adviser to assist in the review.

The Chairman has primary responsibility for conducting performance appraisals of Non-Executive Directors, in conjunction with them, having particular regard to:

- contribution to Board discussion and function;
- degree of independence including relevance of any conflicts of interest;
- availability for and attendance at Board meetings and other relevant events;
- contribution to Company strategy;

A board performance evaluation and review of skills matrix were undertaken during the reporting period.

The Board conducts an annual performance assessment of the Chief Executive Officer against agreed key performance indicators.

The Chief Executive Officer conducts an annual performance assessment of senior executives against agreed key performance indicators.

Independent Advice

Directors have a right of access to all Company information and executives. Directors are entitled, in fulfilling their duties and responsibilities, to seek independent external professional advice as considered necessary at the expense of the Company, subject to prior consultation with the Chairman. A copy of any such advice received is made available to all members of the Board.

Principle 2: Structure the board to be effective and add value

Board Composition

During the financial year and as at the date of this report the Board was comprised of the following members:

Board regularly and at least once a year as part of the Board evaluation process.

The Board also conducts an annual review of the Company's Board Skills Matrix to ensure the Board maintains an appropriate balance of skills, experience, independence and knowledge to discharge its duties and responsibilities effectively.

The Board Skills Matrix includes the following areas of knowledge and expertise:

- strategic expertise;
- corporate governance skills
- specific industry knowledge;
- accounting and finance;
- risk management;
- experience with financial markets, mergers & acquisitions; and
- investor and public relations.

Induction of New Directors and Ongoing Development

New Directors are issued with a formal Letter of Appointment that sets out the key terms and conditions of their appointment, including Director's duties, rights and responsibilities, the time commitment envisaged, and the Board's expectations regarding involvement with any Committee work (if applicable).

An induction program is in place and new Directors are encouraged to engage in professional development activities to develop and maintain the skills and knowledge needed to perform their role as Directors effectively.

Principle 3: Instill a culture of acting lawfully, ethically and responsibly

The Company has implemented a Corporate Code of Conduct, which provides a framework for decisions and actions in relation to ethical conduct in employment. It underpins the Company's commitment to integrity and fair dealing in its business affairs and to a duty of care to all employees, clients and stakeholders.

All employees and Directors are expected to:

- respect the law and act in accordance with it;
- maintain high levels of professional conduct;
- respect confidentiality and not misuse Company information, assets or facilities;
- avoid real or perceived conflicts of interest;
- act in the best interests of shareholders;
- by their actions contribute to the Company's reputation as a good corporate citizen which seeks the respect of the community and environment in which it operates;
- perform their duties in ways that minimise environmental impacts and maximise workplace safety;
- exercise fairness, courtesy, respect, consideration and sensitivity in all dealings within their workplace and with customers, suppliers and the public generally; and
- act with honesty, integrity, decency and responsibility at all times.

An employee that breaches the Corporate Code of Conduct may face disciplinary action including, in the cases of serious breaches, dismissal. If an employee suspects that a breach of the Corporate Code of Conduct has occurred or will occur, they must report that breach to the Company Secretary, or in their absence, the Chairman. No employee will be disadvantaged or prejudiced if they report in good faith a suspected breach under the terms of the Company's Whistleblower Policy. All reports will be acted upon and kept confidential. The Company also has an Anti-Bribery and Corruption Policy.

Principle 4: Safeguard the integrity of corporate reports

The Board as a whole fulfills the functions normally delegated to the Audit Committee as detailed in the Audit Committee Charter.

The Board is responsible for the initial appointment of the external auditor and the appointment of a new external auditor when any vacancy arises. Candidates for the position of external auditor must demonstrate complete independence from the Company throughout the engagement period. The Board may otherwise select an external auditor based on criteria relevant to the Company's business and circumstances. The performance of the external auditor is reviewed on an annual basis by the Board.

The Board receives regular reports from management and from external auditors. It also meets with the external auditors as and when required.

The external auditors attend Elsight's AGM and are available to answer questions from security holders relevant to the audit.

Prior approval of the Board must be gained for non-audit work to be performed by the external auditor. There are qualitative limits on this non-audit work to ensure that the independence of the auditor is maintained.

There is also a requirement that the lead engagement partner responsible for the audit not perform in that role for more than five years.

The unaudited periodic corporate reports released to the market go through a detailed review process by the Director of Finance, followed by the Chief Executive Officer and Chief Financial Officer. The final reports are then reviewed and approved by the Board for release.

CEO and CFO Certifications

The Board, before it approves the entity's financial statements for a financial period, receives from its CEO and CFO (or, if none, the persons fulfilling those functions) a declaration provided in accordance with Section 295A of the Corporations Act that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

Principle 5: Make timely and balanced disclosure

The Company has a Continuous Disclosure Policy which outlines the disclosure obligations of the Company as required under the ASX Listing Rules and Corporations Act. The policy is designed to ensure that procedures are in place so that the market is properly informed of matters which may have a material impact on the price at which Company securities are traded.

The Board considers whether there are any matters requiring disclosure in respect of each and every item of business that it considers in its meetings. Individual Directors are required to make such a consideration when they become aware of any information in the course of their duties as a Director of the Company.

The Company is committed to ensuring all investors have equal and timely access to material information concerning the Company.

The Board has designated the Company Secretary as the person responsible for communicating with the ASX. All key announcements at the discretion of the Chief Executive Officer are to be circulated to and reviewed by all members of the Board.

The Chairman, the Board, Chief Executive Officer and the Company Secretary are responsible for ensuring that:

- a) company announcements are made in a timely manner, that announcements are factual and do not omit any material information required to be disclosed under the ASX Listing Rules and Corporations Act; and
- b) company announcements are expressed in a clear and objective manner that allows investors to assess the impact of the information when making investment decisions.

Principle 6: Respect the rights of security holders

The Company recognises the value of providing current and relevant information to its shareholders. The Board of the Company aims to ensure that the shareholders are informed of all major developments affecting the Company's state of affairs.

The Company respects the rights of its shareholders and to facilitate the effective exercise of those rights the Company is committed to:

- communicating effectively with shareholders through releases to the market via ASX, the company website, information posted or emailed to shareholders and the general meetings of the Company;
- giving shareholders ready access to clear and understandable information about the Company; and
- making it easy for shareholders to participate in general meetings of the Company.

The Company also makes available a telephone number and email address for shareholders to make enquiries of the Company. These contact details are available on the "Corporate Directory" page of the Company's website.

Shareholders may elect to, and are encouraged to, receive communications from Elsight, and Elsight's securities registry, electronically. The contact details for the registry are available on the "Corporate Directory" page of the Company's website.

The Company notes that all resolutions at a meeting of security holders are decided by a way of poll rather than by a show of hands.

The Company maintains information in relation to its Constitution, governance documents, Directors and senior executives, Board and committee charters, annual reports and ASX announcements on the Company's website.

Principle 7: Recognise and manage risk

The Board is committed to the identification, assessment and management of risk throughout Elsieht's business activities.

The Board is responsible for the oversight of the Company's risk management and internal compliance and control framework. The Company does not have an internal audit function. Responsibility for control and risk management is delegated to the appropriate level of management within the Company with the Chief Executive Officer having ultimate responsibility to the Board for the risk management and internal compliance and control framework. Elsieht has established policies for the oversight and management of material business risks.

Elsieht's Risk Management and Internal Compliance and Control Policy recognises that risk management is an essential element of good corporate governance and fundamental in achieving its strategic and operational objectives. Risk management improves decision making, defines opportunities and mitigates material events that may impact security holder value.

Elsieht believes that explicit and effective risk management is a source of insight and competitive advantage. To this end, Elsieht is committed to the ongoing development of a strategic and consistent enterprise wide risk management program, underpinned by a risk conscious culture.

Elsieht accepts that risk is a part of doing business. Therefore, the Company's Risk Management and Internal Compliance and Control Policy is not designed to promote risk avoidance. Rather, Elsieht's approach is to create a risk conscious culture that encourages the systematic identification, management and control of risks whilst ensuring we do not enter into unnecessary risks or enter into risks unknowingly.

Elsieht assesses its risks on a residual basis; that it evaluates the level of risk remaining taking into account all the mitigation practices and controls which are in place. Depending on the materiality of the risks, Elsieht applies varying levels and types of management plans.

The Board has required management to design and implement a risk management and internal compliance and control system to manage Elsieht's material business risks. It receives regular reports on specific business areas where there may exist significant business risk or exposure. The Company faces risks inherent to its business, including economic risks, which may materially impact on the Company's ability to create or preserve value for security holders over the short, medium or long term. The Company has in place policies and procedures, including a risk management framework (as described in the Company's Risk Management and Internal Compliance and Control Policy), which is developed and updated to help manage these risks. The Board does not consider that the Company currently has any material exposure to environmental or social sustainability risks.

The Company's process of risk management and internal compliance and control includes:

- identifying and measuring risks that might impact upon the achievement of the Company's goals and objectives, and monitoring the environment for emerging factors and trends that affect those risks;
- formulating risk management strategies to manage identified risks, and designing and implementing appropriate risk management policies and internal controls; and
- monitoring the performance of, and improving the effectiveness of, risk management systems and internal compliance and controls, including regular assessment of the effectiveness of risk management and internal compliance and control.

The Board reviews the Company's risk management framework periodically to ensure that it continues to effectively manage risk. A review of the framework did not take place during the reporting period, however the Board intends to undertake a risk management framework review during 2024.

Management reports to the Board as to the effectiveness of Elsieht's management of its material business risks at each Board meeting.

The Board considers the Company is not yet of a sufficient size for a formal internal audit function. The Company relies on the external auditor and management to identify areas of non-compliance with internal controls as the Company's business operations continue to develop, the Board will review the need for establishing an independent internal audit function.

CORPORATE GOVERNANCE STATEMENT

The Company's operations are not subject to any significant environmental regulations under the Commonwealth or State legislation. Whilst the Company has exposure to elements of risks relevant to the industry in which the Company operates, the Company does not consider, given the nature of its business, that it has any specific extraordinary exposure to environmental and social sustainability risks.

Principle 8: Remunerate fairly and responsibly

The Board as a whole fulfills the functions normally delegated to the Remuneration Committee as detailed in the Remuneration Committee Charter.

The Board determines the Company's remuneration policies and practices and assesses the necessary and desirable competencies of Board members. The Board is responsible for evaluating Board performance, reviewing Board and management succession plans and determining remuneration packages for the Chief Executive Officer, Non-Executive Directors and senior management based on an annual review.

The overriding objectives of the remuneration policy is to ensure that an individual's remuneration package accurately reflects their experience, level of responsibility, individual performance and the performance of Elsieht and the requirement to attract and retain high caliber talent in order to achieve sustained improvement in Elsieht's performance.

The key principles are to:

- review and approve the executive remuneration policy to enable the Company to attract and retain executives and Directors who will create value for shareholders;
- ensure that the executive remuneration policy demonstrates a clear relationship between key executive performance and remuneration;
- fairly and responsibly reward executives having regard to the performance of the Group, the performance of the executive and the prevailing remuneration expectations in the market;
- remunerate fairly and competitively in order to attract and retain top talent;
- recognise capabilities and promote opportunities for career and professional development; and
- review and approve equity-based plans and other incentive schemes to foster a partnership between employees and other security holders.

Elsieht's executive remuneration policies and structures and details of remuneration paid to directors and key management personnel (where applicable) are set out in the Remuneration Report.

Non-Executive Directors receive fees (including statutory superannuation where applicable) for their services, the reimbursement of reasonable expenses and, in certain circumstances options.

Executive directors and other senior executives (where appointed) are remunerated using combinations of fixed and performance-based remuneration. Fees and salaries are set at levels reflecting market rates and performance-based remuneration is linked directly to specific performance targets that are aligned to both short and long term objectives.

The Company prohibits Directors and employees from entering into any transaction that would have the effect of hedging or otherwise transferring the risk of any fluctuation in the value of any unvested entitlement in the Company's securities to any other person.

Further details in relation to the company's remuneration policies are contained in the Remuneration Report, within the Directors' report.
