Directors' Report

Dividends

No dividend has been paid since the end of the previous financial year and no dividend is recommended for the current year.

Review of Activities

Exploration

Exploration activities for the financial year have been focussed on the Company's Yeneena Project in the Paterson Province, principally at the BM1, BM6 and BM7 copper prospects and the BM2 copper/zinc prospect. The Yeneena Project covers a 1,900km² area of the Paterson Province in Western Australia.

Full details of the Company's exploration activities are available in the Exploration Review in the Annual Report.

Financial Position

At the end of the financial year the Group had \$4,806,657 (2012: \$5,185,337) in cash and at call deposits. Capitalised mineral exploration and evaluation expenditure is \$17,774,406 (2012: \$15,219,430).

Expenditure was principally focused on the exploration for base metals at the Company's Yeneena Project in the Paterson Province of Western Australia.

Significant Changes in the State of Affairs

The following significant change in the state of affairs of the Company occurred during the financial year ended 30 June 2013:

- On 23 April 2013 the Company announced that it had entered into a US\$20 million farm-in agreement with Antofagasta Minerals Perth Pty Ltd a subsidiary of Antofagasta plc, under which Antofagasta may earn up to a 51% interest in 2 tenements which comprise part of the Company's Yeneena Project.

Other than the above, there have been no significant changes in the state of affairs of the Company and Group during or since the end of the financial year.

Directors' Report

Options over Unissued Capital (Continued)

During the financial year the Company granted 2,950,000 unlisted options (2012: 1,250,000) over unissued shares to employees, directors and consultants of the Company.

During the year nil options were cancelled (2012: 50,000) on the cessation of employment. 1,550,000 options were cancelled on expiry of the exercise period (2012: nil).

During the financial year nil (2012: Nil) ordinary shares were issued on the exercise of options.

Since the end of the financial year no options have been issued by the Company. No options have been exercised since the end of the financial year.

Since the end of the financial year no options have been cancelled due to the lapse of exercise period.

Options do not entitle the holder to participate in any share issue of the Company or any other body corporate.

The holders of unlisted options are not entitled to any voting rights until the options are exercised into ordinary shares.

Matters Subsequent to the End of the Financial Year

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Likely Developments and Expected Results of Operations

Disclosure of any further information has not been included in this report because, in the reasonable opinion of the Directors to do so would be likely to prejudice the business activities of the Group and is dependent upon the results of the future exploration and evaluation.

Environmental Regulation and Performance

The Group holds various exploration licences to regulate its exploration activities in Australia. These licences include conditions and regulations with respect to the rehabilitation of areas disturbed during the course of its exploration activities.

So far as the Directors are aware, all exploration activities have been undertaken in compliance with all relevant environmental regulations.

Directors' Report

Remuneration Report (Audited)

Remuneration paid to Directors and Officers of the Company is set by reference to such payments made by other ASX listed companies of a similar size and operating in the mineral exploration industry. In addition reference is made to the specific skills and experience of the Directors and Officers.

Details of the nature and amount of remuneration of each Director, and other Key Management Personnel if applicable, are disclosed annually in the Company's Annual Report.

Remuneration Committee

The Board has adopted a formal Remuneration Committee Charter which provides a framework for the consideration of remuneration matters.

The Company does not have a separate remuneration committee and as such all remuneration matters are considered by the Board as a whole, with no Member deliberating or considering such matter in respect of their own remuneration.

In the absence of a separate Remuneration Committee, the Board is responsible for:

1. Setting remuneration packages for Executive Directors, Non-Executive Directors and other Key Management Personnel; and
2. Implementing employee incentive and equity based plans and making awards pursuant to those plans.

Non-Executive Remuneration

The Company's policy is to remunerate Non-Executive Directors, at rates comparable to other ASX listed companies in the same industry, for their time, commitment and responsibilities.

Non- Executive Remuneration is not linked to the performance of the Company, however to align Directors' interests with shareholders' interests, remuneration may be provided to Non-Executive Directors in the form of equity based long term incentives.

1. Fees payable to Non-Executive Directors are set within the aggregate amount approved by shareholders at the Company's Annual General Meeting;
2. Non-Executive Directors' fees are payable in the form of cash and superannuation benefits;
3. Non-Executive superannuation benefits are limited to statutory superannuation entitlements; and
4. Participation in equity based remuneration schemes by Non-Executive Directors is subject to consideration and approval by the Company's shareholders.

The maximum Non-Executive Directors fees, payable in aggregate are currently set at \$200,000 per annum.

Executive Director and Other Key Management Personnel Remuneration

Executive remuneration consists of base salary, plus other performance incentives to ensure that:

1. Remuneration packages incorporate a balance between fixed and incentive pay, reflecting short and long term performance objectives appropriate to the Company's circumstances and objectives; and
2. A proportion of remuneration is structured in a manner to link reward to corporate and individual performances.

Executives are offered a competitive level of base salary at market rates (based on comparable ASX listed companies) and are reviewed regularly to ensure market competitiveness. To date the Company has not engaged external remuneration consultants to advise the Board on remuneration matters.

Directors' Report

Remuneration Report (Continued)

Incentive Plans

The Company provides long term incentives to Directors and Employees pursuant to the Encounter Resources Employee Share Option Plan, which was last approved by shareholders at the Annual General Meeting held on 30 November 2012.

The Board, acting in remuneration matters:

1. Ensures that incentive plans are designed around appropriate and realistic performance targets and provide rewards when those targets are achieved;
2. Reviews and approves existing incentive plans established for employees; and
3. Approves the administration of the incentive plans, including receiving recommendations for, and the consideration and approval of grants pursuant to such incentive plans.

Engagement of Non-Executive Directors

Non-Executive Directors conduct their duties under the following terms:

1. A Non-Executive Director may resign from his/her position and thus terminate their contract on written notice to the Company; and
2. A Non-Executive Director may, following resolution of the Board, be removed before the expiration of their period of office (if applicable). Payment is made in lieu of any notice period if termination is initiated by the Company, except where termination is initiated for serious misconduct.

In consideration of the services provided by Dr Jon Hronsky as Non-Executive Director the Company will pay him \$50,000 plus statutory superannuation per annum.

In consideration of the services provided by Mr Paul Chapman as Non-Executive Chairman the Company will pay him \$60,000 plus statutory superannuation per annum.

Messrs Chapman and Hronsky are also entitled to fees for other amounts as the Board determines where they perform special duties or otherwise perform extra services or make special exertions on behalf of the Company. There were no such fees paid during the financial year ended 30 June 2013.

Engagement of Executive Directors

The Company has entered into executive service agreements with Mr Will Robinson and Mr Peter Bewick on the following material terms and conditions:

Mr Robinson's current service agreement with the Company, in respect of his engagement as Managing Director, is effective from 23 January 2013, and is subject to a review on 1 January 2014. Mr Robinson will receive a base salary of \$290,000 per annum plus statutory superannuation.

Mr Bewick's current service agreement with the Company, in respect of his engagement as Exploration Director, is effective from on 23 January 2013, and is subject to a review on 1 January 2014. Mr Bewick will receive a base salary of \$270,000 per annum plus statutory superannuation.

Messrs Robinson and Bewick may also receive an annual short term performance based bonus which may be calculated as a percentage of their current base salary, the performance criteria, assessment and timing of which is negotiated annually with the Non-Executive Directors.

Messrs Robinson and Bewick may, subject to shareholder approval, participate in the Encounter Resources Employee Share Option Plan and other long term incentive plans adopted by the Board.

Directors' Report

Remuneration Report (Continued)

Short Term Incentive Payments

Each year, the Non-Executive Directors set the Key Performance Indicators (KPI's) for the Executive Directors. The KPI's are chosen to align the reward of the individual Executives to the strategy and performance of the Company.

Performance objectives, which may be financial or non-financial, or a combination of both, are weighted when calculating the maximum short term incentives payable to Executives. At the end of the year, the Non-Executive Directors will assess the actual performance of the Executives against the set Performance Objectives. The maximum amount of the Short Term Incentive, or a lesser amount depending on actual performance achieved is paid to the Executives as a cash payment.

No Short Term incentives are payable to Executives where it is considered that the actual performance has fallen below the minimum requirement.

Executive Directors set the KPI's for other members of staff, monitor actual performance and recommend payment of short term bonuses to certain employees to the Board for approval.

Shareholding Qualifications

The Directors are not required to hold any shares in Encounter Resources under the terms of the Company's constitution.

Group Performance

In considering the Company's performance, the Board provides the following indices in respect of the current financial year and previous financial years:

	2013	2012	2011	2010	2009
Loss for the year attributable to shareholders	\$(1,566,249)	\$(758,706)	\$(4,933,106)	\$(918,288)	\$(1,987,843)
Closing share price at 30 June	\$0.16	\$0.18	\$0.93	\$0.25	\$0.20

As an exploration company the Board does not consider the loss attributable to shareholders as one of the performance indicators when implementing Short Term Incentive Payments. In addition to technical exploration success, the Board considers the successful negotiation of the farm-in arrangement securing project funding of up to US\$20 million over five years with Antofagasta Minerals Perth Pty Ltd, and the expansion of its Yeneena landholdings through a number of other farm in arrangements in adverse capital markets, as more appropriate indicators of management performance for the 2013 financial period.

End of Remuneration Report

Officers' Indemnities and Insurance

During the year the Company paid an insurance premium to insure certain officers of the Company. The officers of the Company covered by the insurance policy include the Directors named in this report.

The Directors and Officers Liability insurance provides cover against all costs and expenses that may be incurred in defending civil or criminal proceedings that fall within the scope of the indemnity and that may be brought against the officers in their capacity as officers of the Company. The insurance policy does not contain details of the premium paid in respect of individual officers of the Company. Disclosure of the nature of the liability cover and the amount of the premium is subject to a confidentiality clause under the insurance policy.

The Company has not provided any insurance for an auditor of the Company.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company or Group, or to intervene in any proceedings to which the Company or Group is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company or Group with leave of the Court under section 237 of the Corporations Act 2001.

Directors' Report

Corporate Governance

In recognising the need for the highest standards of corporate behaviour and accountability, the Directors of the Company support and have adhered to the principles of corporate governance. The Company's corporate governance statement is contained in the Annual Report.

Non-audit Services

During the year Crowe Horwath the Company's auditor, has not performed any other services in addition to their statutory duties:

Total remuneration paid to auditors during the financial year:	2013	2012
	\$	\$
Audit and review of the Company's financial statements	28,500	39,240
Other services	-	-
Total	28,500	39,240

The board considers any non-audit services provided during the year by the auditor and satisfies itself that the provision of any non-audit services during the year by the auditor is compatible with, and does not compromise, the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services are reviewed by the board to ensure they do not impact the impartiality and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*, as they do not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under Section 307C of the Corporations Act is set out on the following page.

This report is made in accordance with a resolution of the Directors.

Dated at Perth this 25th day of September 2013.

W Robinson
Managing Director

AUDITOR'S INDEPENDENCE DECLARATION

In accordance with the requirements of section 307C of the Corporations Act 2001, as lead auditor for the audit of Encounter Resources Limited for the year ended 30 June 2013, I declare that, to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

Notes to the Financial Statements
For the financial year ended 30 June 2013

Note 1 Summary of significant accounting policies

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes financial statements for the consolidated entity consisting of Encounter Resources Limited and its subsidiaries ("Group").

(a) Basis of preparation

This general purpose financial report has been prepared in accordance with Australian equivalents to International Financial Reporting Standards (AIFRS), other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

The financial report is presented in Australian dollars and all values are rounded to the nearest dollar.

The separate financial statements of the parent entity have not been presented within this financial report as permitted by the Corporations Act 2001.

The financial report of the Group was authorised for issue in accordance with a resolution of Directors on 25th September 2013.

Statement of Compliance

The consolidated financial report of Encounter Resources Limited complies with Australian Accounting Standards, which include Australian Equivalents to International Financial Reporting Standards (AIFRS), in their entirety. Compliance with AIFRS ensures that the financial report also complies with International Financial Reporting Standards (IFRS) in their entirety.

Adoption of New and Revised Standards - Changes in accounting policies on initial application of accounting standards

In the year ended 30 June 2013, the Group has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for the current annual reporting period. It has been determined by the Group that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Group accounting policies.

A number of new standards, amendments to standards and interpretations are effective for annual reporting periods beginning after 1 July 2013, and have not been applied in preparing these financial statements. None of these are expected to have a significant effect on the Group except for:

- AASB 9 Financial Instruments;
- AASB 10: Consolidated Financial Statements;
- AASB 11: Joint Arrangements: and
- AASB 12: Disclosure of involvements in other entities.

The Group does not plan to adopt these standard early and the extent of the impact has not been determined.

Reporting basis and conventions

These financial statements have been prepared under the historical cost convention, and on an accrual basis.

Critical accounting estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

Notes to the Financial Statements
For the financial year ended 30 June 2013

Note 1 Summary of significant accounting policies (continued)

Principles of consolidation

The financial statements of subsidiary companies are included in the consolidated financial statements from the date control commences until the date control ceases. The financial statements of subsidiary companies are prepared for the same reporting period as the parent company, using consistent accounting policies.

Inter-entity balances resulting from transactions with or between controlled entities are eliminated in full on consolidation. Investments in subsidiary companies are accounted for at cost in the individual financial statements of the Company.

(b) Segment reporting

Operating segments are identified and segment information disclosed, where appropriate, on the basis of internal reports reviewed by the Company's board of directors, being the Group's Chief Operating Decision Maker, as defined by AASB 8. Adoption of AASB 8 by the Group has not resulted in a redefinition of previously reported operating segments.

(c) Revenue recognition and receivables

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, allowances and amounts collectable on behalf of third parties.

Interest income

Interest income is recognised on a time proportion basis and is recognised as it accrues.

(d) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to the temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary timing differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantially enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to those timing differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Encounter Resources Limited
ABN 47 109 815 796

Notes to the Financial Statements
For the financial year ended 30 June 2013

Note 1 Summary of significant accounting policies (continued)

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Amounts receivable from the Australian Tax Office in respect of research and development tax concession claims are recognised in the year in which the expenditure on which the claim was incurred.

(e) Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases (note 23). Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight line basis over the period of the lease.

(f) Impairment of assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units). Non financial assets, other than goodwill, that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

(g) Cash and cash equivalents

For cash flow statement presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(h) Government grants

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating. Grants relating to assets is deducted from the carrying value of the asset.

(i) Fair value estimation

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

Encounter Resources Limited
ABN 47 109 815 796

Notes to the Financial Statements
For the financial year ended 30 June 2013

Note 1 Summary of significant accounting policies (continued)

(j) Property, plant and equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the assets. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation of property, plant and equipment is calculated using the straight line and diminishing value methods to allocate their cost, net of residual values, over their estimated useful lives, as follows:

Field equipment	33.3%
Office equipment	33.3%
Leasehold improvements	Over the term of the lease

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(f)). Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement.

(k) Mineral exploration and evaluation expenditure

Mineral exploration and evaluation expenditure is written off as incurred or accumulated in respect of each identifiable area of interest and capitalised. These costs are carried forward only if they relate to an area of interest for which rights of tenure are current and in respect of which:

- such costs are expected to be recouped through the successful development and exploitation of the area of interest, or alternatively by its sale; or
- exploration and/or evaluation activities in the area have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active or significant operations in, or in relation to, the area of interest are continuing.

In the event that an area of interest is abandoned or if the Directors consider the expenditure to be of reduced value, accumulated costs carried forward are written off in the year in which that assessment is made. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Immediate restoration, rehabilitation and environmental costs necessitated by exploration and evaluation activities are expensed as incurred and treated as exploration and evaluation expenditure. Exploration activities resulting in future obligations in respect of restoration costs result in a provision to be made by capitalising the estimated costs, on a discounted cash basis, of restoration and depreciating over the useful life of the asset. The unwinding of the effect of the discounting on the provision is recorded as a finance cost in the income statement.

Farm-outs -in the exploration and evaluation phase

The Group does not record any expenditure made by the farmee on its account. It also does not recognise any gain or loss on its exploration and evaluation farm-out arrangements but redesignates any costs previously capitalised in relation to the whole interest as relating to the partial interest retained. Any cash consideration received directly from the farmee is credited against costs previously capitalised in relation to the whole interest with any excess accounted for by the farmor as a gain on disposal.

Note 1 Summary of significant accounting policies (continued)

(l) Joint ventures

Interests in joint ventures have been brought to account by including the appropriate share of the relevant assets, liabilities and costs of the joint ventures in their relevant categories in the financial statements. Details of these interests are shown in Note 13.

(m) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured and usually paid within 30 days of recognition.

(n) Employee benefits

Wages, salaries and annual leave.

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

Long service leave.

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future salaries, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Share based payments.

Share based compensation payments are made available to Directors and employees.

The fair value of options granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free rate for the term of the option. A discount is applied, where appropriate, to reflect the non-marketability and non-transferability of unlisted options, as the Black-Scholes option pricing model does not incorporate these factors into its valuation.

The fair value of the options granted is adjusted to reflect market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each balance sheet date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate.

Upon the exercise of options, the balance of the share based payments reserve relating to those options is transferred to share capital and the proceeds received, net of any directly attributable transaction costs, are credited to share capital.

Upon the cancellation of options on expiry of the exercise period, or lapsing of vesting conditions, the balance of the share based payments reserve relating to those options is transferred to accumulated losses.

For the financial year ended 30 June 2013

Note 1 Summary of significant accounting policies (continued)

(o) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(p) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the earnings attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(q) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as a part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the balance sheet.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the taxation authority, are presented as operating cash flow.

(r) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(s) Investments and other financial assets

Recognition

When financial assets are recognised initially, they are measured at fair value, plus in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Group determines the classification of its financial assets after initial recognition and, when allowed and appropriate, re-evaluates this designation at each financial year-end.

All regular way purchases and sales of financial assets are recognised on the trade date, i.e. the date that the Group commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets under contracts that require delivery of the assets within the period established generally by regulation or convention in the marketplace.

Notes to the Financial Statements
For the financial year ended 30 June 2013

Note 1 Summary of significant accounting policies (continued)

Investments and other financial assets (continued)

(i) Financial assets at fair value through profit or loss

Financial assets classified as held for trading are included in the category 'financial assets at fair value through profit or loss'. Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on investments held for trading are recognised in profit or loss.

(ii) Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Group has the positive intention and ability to hold to maturity. Investments included to be held for an undefined period are not included in this classification. Investments that are intended to be held-to-maturity, such as bonds, are subsequently measured at amortised cost. This cost is computed as the amount initially recognised minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initially recognised amount and the maturity amount. This calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts. For investments carried at amortised cost, gains and losses are recognised in profit or loss when the investments are derecognised or impaired, as well as through the amortisation process.

(iii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

(iv) Financial liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

(t) Fair value estimation

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods:

Investments in equity and debt securities

The fair value of financial assets at fair value through profit or loss, held to maturity investments and available for sale financial assets is determined by reference to their quoted bid price at the reporting date. The fair value of held to maturity investments is determined for disclosure purposes only. For investments with no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions, reference to the current market value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models.

Trade and other receivables

The fair value of trade and other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

Note 2 Financial risk management

The Group has exposure to a variety of risks arising from its use of financial instruments. This note presents information about the Company's exposure to the specific risks, and the policies and processes for measuring and managing those risks. The Board of Directors has the overall responsibility for the risk management framework and has adopted a Risk Management Policy.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from transactions with customers and investments.

Trade and other receivables

The nature of the business activity of the Group does not result in trading receivables. The receivables that the Group does experience through its normal course of business are short term and the most significant recurring by quantity is receivable from the Australian Taxation Office, the risk of non-recovery of receivables from this source is considered to be negligible.

Cash deposits

The Directors believe any risk associated with the use of predominantly only one bank is addressed through the use of at least an A-rated bank as a primary banker and by the holding of a portion of funds on deposit with alternative A-rated institutions. Except for this matter the Group currently has no significant concentrations of credit risk.

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages its liquidity risk by monitoring its cash reserves and forecast spending. Management is cognisant of the future demands for liquid finance resources to finance the Company's current and future operations, and consideration is given to the liquid assets available to the Company before commitment is made to future expenditure or investment.

(c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising any return.

Interest rate risk

The Group has significant cash assets which may be susceptible to fluctuations in changes in interest rates. Whilst the Group requires the cash assets to be sufficiently liquid to cover any planned or unforeseen future expenditure, which prevents the cash assets being committed to long term fixed interest arrangements; the Group does mitigate potential interest rate risk by entering into short to medium term fixed interest investments.

The Group does not have any direct contact with foreign exchange or equity risks other than their effect on the general economy.

Encounter Resources Limited
ABN 47 109 815 796

Notes to the Financial Statements

Note 3 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

Accounting for capitalised exploration and evaluation expenditure

The Group's accounting policy is stated at 1(k). There is some subjectivity involved in the carrying forward as capitalised or writing off to the income statement exploration and evaluation expenditure, however management give due consideration to areas of interest on a regular basis and are confident that decisions to either write off or carry forward such expenditure reflect fairly the prevailing situation.

Accounting for share based payments

The values of amounts recognised in respect of share based payments have been estimated based on the fair value of the equity instruments granted. Fair values of options issued are estimated by using an appropriate option pricing model. There are many variables and assumptions used as inputs into the models. If any of these assumptions or estimates were to change this could have a significant effect on the amounts recognised. See note 16 for details of inputs into option pricing models in respect of options issued during the reporting period.

Note 4 Segment information

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics. The Group's sole activity is mineral exploration and resource development wholly within Australia, therefore it has aggregated all operating segments into the one reportable segment being mineral exploration.

The reportable segment is represented by the primary statements forming these financial statements.

Regional Uranium Joint Venture Agreement

Under a Joint Venture and Exploration Agreement dated 1 April 2005 the Company and Avoca Resources Limited ("Avoca") agreed to establish an unincorporated joint venture for the purposes of identifying, acquiring, evaluating and developing or selling mining tenements with potential uranium deposits within Western Australia.

On 5 June 2013 the Regional Uranium Joint Venture Agreement was terminated. All exploration costs capitalised by the joint venture arrangement have been previously written off.

Lake Way Uranium Joint Venture Agreement

Under the Lake Way Uranium Joint Venture dated 1 July 2007 between Avoca Resources Limited and the Company, the Company has a 60% joint venture interest in the Uranium at the Lake Way South tenement. The parties are contributing to expenditure in accordance with their equity interest. Encounter is the manager of the joint venture. The company's interest in the joint venture may increase to 75% if Avoca elects to dilute its interest in the tenement and be free carried though to decision to mine.

Included in the assets and liabilities of the Group were the items below which represented the Group's interest in the assets and liabilities employed in joint ventures.

Joint Ventures – Financial Results and Carrying Values

The total amount of the Group's capitalised exploration and evaluation expenditure capitalised and employed under joint venture agreements at the reporting date is \$178,676 (2012: \$709,965 (note 12)). During the reporting period the Group recognised an expense of \$543,115 (2012: \$55,560) being its share of the exploration expenditure written off by the joint venture entities during the period.

Farm-in Arrangements

The Company is party to the following farm-in arrangements:

Antofagasta plc – Antofagasta Earning-in

Antofagasta PLC and Antofagasta Minerals Perth Pty Ltd has entered into a farm-in and joint venture agreement with the Company in respect of granted tenements applications EL45/2658 and EL45/2805 that form part of the Company's wholly owned Yeneena Project. The agreement covers an area of 433km² and comprises the southern extents of the Yeneena Project that incorporate the BM1, BM7 and BM8 copper prospects. Significant terms of the farm-in arrangement as follows:

- 5 year initial earn-in phase under which Antofagasta may acquire a 51% joint venture interest by expenditure of US\$20 million and may withdraw at any time subject to a meeting a minimum spend of US\$3 million;
- A second earn-in phase, should Encounter not elect to contribute to exploration costs under the joint venture, under which Antofagasta may acquire a further 19% interest by completion of a pre-feasibility study within 4 years of Encounter electing not to contribute;
- If Antofagasta completes a pre-feasibility study during the second earn-in phase it must pay Encounter US\$15 million or contribute US\$15 million in lieu of Encounter's contribution to its proportionate share of feasibility study costs;
- If a decision to mine is made subsequent to the completion of a feasibility study and Encounter elects not to proceed, Antofagasta may acquire Encounter's interest at 90% of an agreed value determined by independent expert valuation.
- Amounts set out in the Earn-in and Joint Venture Agreement are in United States dollars, provided that the Australia dollar to United States dollar exchange rate published by the Reserve Bank of Australia is between 1.15 and 0.95 (the "Acceptable Range"). If the Exchange Rate is outside the Acceptable Range on the date cash payment is due, the Exchange Rate will be set at 1.05 United States dollar for each 1 Australian dollar.

St Barbara Limited (SBM) – ENR Earning-in

Encounter Resources Limited has entered into a farm-in agreement with St Barbara Limited in respect of tenement applications ELA45/3232 and ELA45/3308 in the Paterson Province of Western Australia. The agreement covers an area of 60km² and is located to the north-east of the Company's Yeneena Project.

Significant terms of the farm-in arrangement as follows:

- 4 year initial earn-in phase under which ENR may acquire a 51% joint venture interest by expenditure of \$500,000, and may withdraw at any time subject to a meeting statutory minimum required spends;
- 2 year second phase, should SBM not elect to contribute to joint venture exploration costs, under which ENR may acquire a further 15% interest by sole funding expenditure of a further \$500,000;
- If SBM elects not to contribute at the end of the second phase standard industry dilution formulas will apply down to a 5% interest. If SBM's interest dilutes below 5% it will automatically revert to a 1.5% net smelter royalty.

Midas Resources Limited (MDS) – ENR Earning-in

Encounter Resources Limited has entered into a farm-in agreement with Midas Resources Limited in respect of granted tenements EL45/3768 and EL45/4091 in the Paterson Province of Western Australia. The agreement covers an area of 316km² and is located adjacent to the Company's Yeneena Project.

Significant terms of the farm-in arrangement as follows:

- 4 year initial earn-in phase under which ENR may acquire a 70% joint venture interest by expenditure of \$500,000, and may withdraw at any time subject to a meeting statutory minimum expenditure required spend for the first year;
- 2 year second phase, should MDS not elect to contribute to joint venture exploration costs during this second phase, under which ENR may acquire a further 15% interest by sole funding expenditure of a further \$500,000;
- If MDS elects not to contribute at the end of the second phase MDS may elect to convert its participating interest into a 1.5% net smelter royalty.

Independence Group NL (IGO) – ENR 70%

Encounter Resources Limited has entered into a farm-in agreement with Independence Group NL in respect of tenement application ELA45/4215 in the Paterson Province of Western Australia. The agreement covers an area located adjacent to the Company's Yeneena Project.

Significant terms of the farm-in arrangement as follows:

- 3 year initial earn-in phase under which ENR will sole fund expenditure of \$500,000 to maintain a 70% interest, and may withdraw at any time subject to spending a minimum of \$100,000;
- 2 year second phase, should IGO not elect to contribute to joint venture exploration costs during this second phase, under which ENR may acquire a further 15% interest by sole funding expenditure of a further \$500,000;
- If IGO elects not to contribute at the end of the first or second phases standard industry dilution formulas will apply;
- If either ENR or IGO elects not to contribute after the formation of a joint venture standard industry dilution formulas will apply down to a 10% interest, at which point the relevant participating interest will revert to a 1.5% net smelter royalty.

d) Option plan

Information relating to the Encounter Resources Limited Directors, Officers and Employees Option Plan is set out in note 16.

Note 16 Options and share based payments

The establishment of the Encounter Resources Limited Directors, Officers and Employees Option Plan ('the Plan') was last approved by a resolution at the Annual General Meeting of shareholders of the Company on 30 November 2009. All eligible Directors, executive officers and employees of Encounter Resources Limited who have been continuously employed by the Company are eligible to participate in the Plan.

The Plan allows the Company to issue free options to eligible persons. The options can be granted free of charge and are exercisable at a fixed price in accordance with the Plan.

Options issued under the Plan have a 12 month vesting period prior to exercise, except under certain circumstances whereby options may be capable of exercise prior to the expiry of the vesting period.

a) Options issued during the year

During the financial year the Company granted 2,950,000 options over unissued shares (2012: 1,250,000).

b) Options exercised during the year

During the financial year the Company issued no shares on the exercise of unlisted employee options (2012: Nil).

c) Options cancelled during the year

During the year nil options (2012: 50,000) were cancelled upon termination of employment. 1,550,000 options were cancelled on expiry of exercise period (2012: nil).

d) Options on issue at the balance date

The number of options outstanding over unissued ordinary shares at 30 June 2013 is 9,475,000 (2012: 8,075,000). The terms of these options are as follows:

<i>Number of options outstanding</i>	<i>Exercise price</i>	<i>Expiry date</i>

Weighted average contractual life

The weighted average contractual life for un-exercised options is 27.5 months (2012: 26.5 months).

Basis and assumptions used in the valuation of options.

The options issued during the year were valued using the Black-Scholes option valuation methodology.

Date granted	Number of options granted	Exercise price (cents)	Expiry date	Risk free interest rate used	Volatility applied	Value of Options
30 November 2012	1,450,000	30	30 November 2016	2.74%	108%	\$145,871
30 November 2012	750,000	39	30 November 2017	2.74%	108%	\$78,756
27 June 2013	750,000	21	31 May 2017	3.17%	105%	\$48,412

Historical volatility has been used as the basis for determining expected share price volatility, as it is assumed that this is an indicator of future tender, which may not eventuate.

A discount of 30% in respect of a lack of marketability has been applied to the Black-Scholes option valuation to reflect the non-negotiability and non-transferability of the unlisted options granted.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ENCOUNTER RESOURCES LIMITED

Report on the Financial Report

We have audited the accompanying financial report of Encounter Resources Limited, which comprises the consolidated statement of financial position as at 30 June 2013, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's Opinion

In our opinion:

- (a) the financial report of Encounter Resources Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2013 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the consolidated financial report also complies with *International Financial Reporting Standards* as disclosed in Note 1.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 8 to 12 of the directors' report for the year ended 30 June 2013. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion, the Remuneration Report of Encounter Resources Limited. for the year ended 30 June 2013 complies with section 300A of the *Corporations Act 2001*.
