ASX Announcement

1 February 2013

RESUMPTION OF PROCESSING AT MT RAWDON

Evolution Mining (ASX: EVN) is pleased to advise that processing operations recommenced today at its Mt Rawdon gold mine, located in Southern Queensland. The mine was shutdown earlier this week as a result of heavy rain and flooding in the region (as reported in an ASX Announcement on 29 January 2013). As anticipated, initially low-grade stockpiles will be processed while dewatering of the open pit occurs. Dewatering has commenced and will progressively allow access to higher grade ore sources.

About Evolution Mining

Evolution Mining is a leading, growth-focused Australian gold miner. The Company operates four wholly-owned Australian mines – Cracow, Edna May, Mt Rawdon and Pajingo – and is commissioning its fifth, the Mt Carlton gold-silver-copper project. Group production for the current financial year is forecast at between 370,000 and 410,000 ounces gold equivalent with cash operating costs expected to be in the range of A$730 per ounce to A$790 per ounce.
