About Envirozel Limited

ASX listed Envirozel (EVZ) is an emerging industrial group with a portfolio of specialist businesses operating in the infrastructure, water and engineering industries. The company's operations currently encompass two successful businesses, Syfon Systems and Brockman Engineering. Both have strong positions in their respective markets with exceptional growth opportunities. The company's strategy is to grow by acquisition targeting strong, established and profitable businesses where generational change or succession issues have become a constraint on growth.
