About Envirozel Limited (ASX code: EVZ)

EVZ is an emerging industrial group with a portfolio of specialist businesses operating in the engineering services industry. The company's operations currently encompass five successful businesses, Syfon Systems, Brockman Engineering, Danum Engineering, National Engineering and TSF Engineering. These businesses have strong positions in their respective markets with exceptional growth opportunities. The company's strategy is to grow via organic growth and by an acquisition strategy which targets strong, established and profitable businesses where generational change or succession issues have become a constraint on growth.
