

9 February 2022

Investor Webinar Presentation

First Au Limited (ASX: FAU, OTCQB:FRSAF) (“First Au” or “the Company”) is pleased to announce its participation in the Gold Events Virtual Gold Conference, to be held Thursday 10th of February 2022 from 9.30am AEDT.

CEO Ryan Skeen will provide an update on the Company’s exploration programs which are currently underway at its Victorian Goldfields Project in East Gippsland, VIC.

This webinar is able to be viewed live via Zoom and will provide viewers the opportunity to hear from, and engage with, a range of ASX-listed leading micro/mid cap companies.

To access further details of the event and to register at no cost, please copy and paste the following link into your internet browser:

<https://goldevents.com.au/virtual-event/>

A recorded copy of the webinar will be made available following the event.

A copy of the investor presentation to be delivered during the webinar is attached.

Authorised by:

Bryan Frost
Executive Chairman, Managing Director

About First Au: First Au is an advanced gold and base metals exploration company listed on the Australian Securities Exchange (ASX: FAU), and is trading on the OTCQB market in the USA (OTCQB: FRSAF) and is pursuing a well-funded and aggressive exploration program at its 100% owned Gimlet Gold project near Kalgoorlie and Victorian Goldfields Project in East Gippsland.

FIRSTAU

Investor Presentation

FEBRUARY 2022

ASX: FAU | OTCQB: FRSAF

Disclaimer

This presentation does not constitute investment advice. Neither this presentation nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction. This presentation does not take into account any person's particular investment objectives, financial resources or other relevant circumstances and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments.

To the fullest extent permitted by law, First Au Limited (the Company) does not make any representation or warranty, express or implied, as to the accuracy or completeness of any information, statements, opinions, estimates, forecasts or other representations contained in this presentation. No responsibility for any errors or omissions from this presentation arising out of negligence or otherwise is accepted.

This presentation may include forward looking statements. Forward looking statements are only predictions and are subject to risks, uncertainties and assumptions which are outside the control of the Company. These risks, uncertainties and assumptions include commodity prices, currency fluctuations, economic and financial market conditions in various countries and regions, environmental risks and legislative, fiscal or regulatory developments, political risks, project delay or advancement, approvals and cost estimates. Actual values, results or events may be materially different to those expressed or implied in this presentation. Given these uncertainties, readers are cautioned not to place reliance on forward looking statements. Any forward-looking statements in this presentation speak only at the date of issue of this presentation. Subject to any continuing obligations under applicable law and the ASX Listing Rules, the Company does not undertake any obligation to update or revise any information or any of the forward-looking statements in this presentation or any changes in events, conditions or circumstances on which any such forward looking statement is based.

ASX Listing Rule Compliance

In accordance with Listing Rule 5.23.2, the Company confirms in this subsequent public report that it is not aware of any new information or data that materially affects the information included in any previous market announcements and, in the case of estimates of mineral resources or ore reserves, that all material assumptions and technical parameters underpinning the estimates in any previous market announcements continue to apply and have not materially changed.

For the purposes of Listing Rule 5.23.1, the relevant Company announcements which refer to these exploration results or estimates of minerals are:

- “First Au to Acquire Victoria Gold Exploration Project”, released 3 June 2020, which included a Competent Person’s Statement from Dr Gavin England.
- “First Au to Accelerate Exploration at Victorian Gold Project”, released 30 October 2020, which included a Competent Person’s Statement from Dr Gavin England.
- “Mapping and Sampling at Snowstorm Project Produces Rock Chips up to 112 g/t Au”, released 1 December 2020, which included a Competent Person’s Statement from Dr Gavin England.
- “Early Drill Results Positive at Snowstorm”, released 7 April 2021, which included a Competent Person’s Statement from Dr Gavin England.
- “Snowstorm Intersects Mineralised Dyke Swarm” released 10 June 2021, which included a Competent Person’s Statement from Dr Gavin England.
- “JORC Resource Increase at Gimlet to Inferred Resource of 120,000 ounces Au”, released 23 June 2021, which included a Competent Person’s Statement from each of Dr Gavin England and Mr Andrew Bewsher.
- “Copper Porphyry Potential at Dogwood Prospect, Victoria”, released 22 September 2021, which included a Competent Person’s Statement from Dr Gavin England.
- “Further High-Grade Drilling Results at Snowstorm Project, Victoria”, released 14 January 2022, which included a Competent Person’s Statement from Dr Gavin England

Competent Person Statement

The information in this announcement that relates to exploration results is based on information compiled by Dr Gavin England, a Competent Person who is a member of the Australian Institute of Mining and Metallurgy and the Australian Institute of Geosciences. Dr England is a consultant to First Au Limited (“FAU”). Dr England declares in accordance with the transparency principles of the JORC Code that he has a personal financial interest in the transaction referred to in this Public Report in that he controls G L England Pty Ltd an entity which owns 5% of the issued shares of Victorian Goldfields Pty Ltd. Dr England has also been appointed to the board of directors of FAU as Technical Director. Dr England has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Dr England has consented to the inclusion in this Public Report of the matters based on his information in the form and context in which it appears in this report.

Company Summary

Victorian Project

- Primary focus on **Gold** and **Copper** projects in East Gippsland, Victoria
- Strong news flow with current drilling completed and further assays pending at **Snowstorm (gold)**. Drilling planned for **Dogwood (copper)** and **Haunted Stream (gold)** in the first half of 2022

South Australia

- **Mabel Creek** project in the Gawler Craton prospective for gold and base metals

Western Australia

- Kalgoorlie based prospect, **Gimlet**, contains JORC Inferred Resources of **120,000oz Au @ 3.2 g/t Au** (refer ASX announcement 23 June 2021)

Capital Structure

Capital Structure^	
Shares	783M
Options (FAUOA)	582M
Market Cap	\$7.8M
Cash	\$2.5M
Enterprise Value (EV)	\$5.3M

Board & Management

Bryan Frost

Chairman & Managing Director

- Over 5 decades experience in stockbroking and financial services
- Has been Chairman and Director of multiple listed companies
- Significant experience in mining companies
- Currently Chairman AFSL holder Peregrine Corporate Limited

Ryan Skeen

Chief Executive Officer

- Experience in financial and economic markets and providing investment and strategic advice
- Well versed in various capital raisings including IPOs, placements, and rights issues
- Corporate advisory experience focused on exploration companies

Richard Revelins

Non-Executive Director

- 30 years of experience with international investment banks in the area of corporate finance and corporate advice
- Founding Director of Peregrine Corporate Limited and Managing Director at Cappello Group Inc in Los Angeles, USA
- former Chairman of Atlas Iron Limited

Michael Quinert

Non-Executive Director

- Founding partner of QR Lawyers Pty Ltd
- Possesses expertise in assisting corporations to complete IPOs and has worked across a range of industries on successful IPO's
- Chairman of West Wits Mining Limited (ASX: WWI) and Non-Executive Director of First Graphene Limited (ASX:FGR).

Damon O'Meara

Non-Executive Director

- 40-year involvement in the mining and prospecting industry through Denis O'Meara Prospecting
- Founder of Outback Trees if Australia , working primarily with major mining companies including BHP, Rio Tinto, FMG, Chevron, Woodside, Atlas Iron and others

Paul Godfrey

Company Secretary

- Senior Associate of QR Lawyers Pty Ltd
- Substantial experience in IPO's and ASX related matters
- Joint Company Secretary of West Wits Mining Limited (ASX: WWI)

Technical Team

Dr. Gavin England
Technical Director

Dr England adds substantial technical experience to the board of First Au. He has extensive local and international experience with many mining companies including, Normandy Group, Consolidated Minerals, Gold Fields, Lion Ore, Impact Minerals, Energy and Minerals Australia and Magnetite Mines.

Dr England has been involved in the First Au Gimlet discovery and instrumental in the acquisition of the Victorian Goldfields Project and Mabel Creek Project

Ian Neilson MSc RP GEO
Chief Geologist

Ian is a structural geologist, with significant exploration and mining experience in orogenic gold, porphyry copper, base-metal deposits throughout the world through his consulting over the past 18 years. He has worked for Newmont, First Quantum Minerals, BHP, Newcrest Mining, Placer Dome, KCGM and many more.

Ian's mapping and targeting resulted in the Discovery and subsequent development of Hidden Secret UG Gold Mine Kalgoorlie in 2016 and recently, his structural geological work and drill targeting has contributed significant value to several major Victorian Gold Explorers and continues to manage effectively his own independent consulting business, PGN Geoscience

PGN Geoscience
Geological Consultant

PGN Geoscience is a group of experienced geoscience professionals, specialising in structural geology applied to exploration problems. They work with First Au to integrate geophysical data, modelling and structural interpretation.

Victoria

WHAT IS THE OPPORTUNITY?

Before 440 million years, the Ordovician rock sequence that hosts the Central Goldfields of Victoria (Fosterville, Bendigo, Walhalla/Woods Point) was along strike to First Au's project area.

Around 435-380 million years, the tectonic plate containing Tasmania, collided with the Australia Plate. The collision caused the Lachlan Fold belt to bend like a “big Z” around the Tasmanian “indenter”, with the rocks containing Haunted stream shifting to East Gippsland.

Victoria

EAST GIPPSLAND TENEMENTS

Commanding strategic landholding in an underexplored region covering **~2,450km²** based on key area selection criteria identified by First Au geologists

Tenure covers historic goldfields around **Swifts Creek, Haunted Stream, Dargo** and **Dogwood**, as well as significant alluvial gold production areas

Victoria

EAST GIPPSLAND PROJECT OVERVIEW

- **Snowstorm** shows evidence of high-grade gold **>1oz/t Au (>30g/t Au)** from drilling and rock chip samples up to **123g/t Au** (refer ASX announcements 7 April 2021 and 10 June 2021)
- Second round of drilling recently completed **Snowstorm** – initial assays demonstrate robust mineralisation, with further assays due imminently
- Historical drilling at **Dogwood** produced intersections of **13.2m @ 1.33% Cu, 30m @ 0.5% Cu** and **2m @ 8 g/t Au** (refer ASX announcement 22 September 2021)
- Historical records at **Haunted Stream** show ore being extracted at **15-30g/t Au**, with some reefs producing **>150g/t Au** (refer ASX announcement 3 June 2020)
- Drilling planned to commence at **Haunted Stream** in Q2 2022

Victoria

SNOWSTORM PROJECT

Drilling long section tending NW-SE, at the SE end of the current drill program, with pierce points of the mineralised plane from FAU drilling

- Historic exploration data at **Snowstorm** provides evidence of high-grade mineralisation, with drill intersections above 35 g/t Au and mullock samples up to 123 g/t Au (refer ASX announcement 30 October 2020)
- Intersections from 2021 maiden drill program include (refer ASX announcements 7 April 2021 and 10 June 2021):
 - **3.1m @ 11.6 g/t Au** from 53m, including **0.8m @ 33.3 g/t Au** from 54m
 - **1.2m @ 8.5 g/t Au** from 63.6m, including **0.2m @ 49.3 g/t Au**
- Second drill program now completed and assays from the first three received, intersections include (refer ASX announcement 14 January 2022):
 - **6.4m @ 4.1 g/t Au** from 28.5m, including **0.2m @ 59.2 g/t Au** from 29.3m
 - **3.6m @ 5.3 g/t Au** from 60.9m, including **0.4m @ 23.8 g/t Au** from 63.15m
- Remaining assays pending

Victoria

SNOWSTORM

>500m strike potential (yellow arrow) and **>150m vertical extent** for the NW trending high grade auriferous reefs at **Snowstorm** (Coordinate in MGA94 Zone 55). Also evident is historic rock-chip sampling along strike showing **mineralisation at surface continues along strike from drilling**

(refer ASX announcement 14 January 2022)

Victoria

DOGWOOD PROJECT

- The Dogwood Project was discovered by Australian Anglo America Prospecting (AAP) in 1980 and last drilled by CRA Exploration in 1993 and 1994
- Drill intercepts show **anomalous molybdenum grades** within the intrusion, and **high copper grades** in host rocks above the terminus of the intrusion and around a vertical apophysis above the main intrusion.
- A review of CRA drilling data produced intersections including (refer ASX announcement 22 September 2021):
 - **13.2m @ 1.33% Cu** (hole finished in mineralisation as shown in the image on next slide)
 - **30m @ 0.5% Cu** including **8m @ 1.2% Cu**
 - **2m @ 8 g/t Au**
- **Drill program has been planned to commence in Q1 2022**

Victoria

DOGWOOD PROJECT

Victoria

HAUNTED STREAM PROJECT

- **Haunted Stream** shows potential for **significant high-grade gold** continuity, indicated from historical workings and rock chip sampling over an **8.5 km strike length**
- Historic mine records from the Victorian Government, show ore being extracted typically **15-30g/t Au**, with some reefs **producing > 150 g/t Au** (refer ASX announcement 3 June 2020)
- The **Ernestine Prospect** is the initial priority at **Haunted Stream**, with drill targets identified by our geological team
- The Work Plan for drilling permits at the Ernestine Prospect has been approved and the Company is now taking steps towards drilling commencing in Q2 2022

Victoria

HAUNTED STREAM PROJECT

Historical exploration at **Ernestine** was limited in depth by challenges with air-flow and water (refer ASX announcement 3 February 2021)

First Au's intends on following the historical workings which are open at depth to test for mineralisation

South Australia

MABEL CREEK PROJECT

- First Au has recently secured over **1,000km²** of **tenure** within the highly prospective **Mabel Creek** area of the northern **Gawler Craton**
- **Mabel Creek** tenure is surrounded by tenements from major mining houses, including **BHP**, **RIO**, **FMG** and **Oz Minerals**
- The **Mabel Creek** area was identified by the winner and runner-up of the SA Government “Gawler Challenge” as one of the key prospective areas underexplored for **IOCG** and **Central Gawler-style Au Mineralisation**
- FAU is currently undertaking litho-structural interpretation of the project area, integrating geophysical and geological datasets. It expects to generate drill targets from this work

Western Australia

GIMLET GOLD PROJECT

- The **Gimlet Gold Project** (E26/174 & MA26/849) is strategically positioned **15km NW of Kalgoorlie**, in an area **rich in infrastructure** and potential **toll treatment options**
- First Au recently announced inferred resource of 1,166,000 tonnes at **3.2g/t Au for 120,000 ounces** at a 1 g/t cut-off (refer ASX announcement 23 June 2021)
- First Au is progressing a **mining lease application** and views Gimlet as having potential for a **mining operation**
- New structural targets were identified during a 2020 litho-structural analysis by FAU geologists. These areas identified, have had limited previous drilling and present potential for new targets.

Investment Summary

First Au is expecting strong news flow into the first half of 2022, with drilling programs to commence at the highly prospective **Dogwood** porphyry copper project and **Haunted Stream** and further **results from drilling at Snowstorm**

The Company has significant tenure in an underexplored region of Victoria, that has proven historical mines producing **high-grade gold > 30 g/t Au**

Mabel Creek, South Australia and **Gimlet**, Western Australia, provide diversity to company assets and present potential to deliver value to shareholders in conjunction with Victorian projects.

Thank you
