Half year review

Directors are pleased to present the unaudited results for the six months ended 31 December 2006. Net profit after tax was \$737,436 and the net assets of the company were \$30,893,068.

Fletcher Building Finance Limited is a wholly owned subsidiary of Fletcher Building Limited and was established to provide a valuable role in supporting Fletcher Building's financing requirements, particularly for its Australian acquisitions.

A key part of this financing has been through the issue of capital notes in December 2002. As these capital notes have been issued on terms that provide that they are guaranteed on an unsecured, subordinated basis, ranking pari passu with other capital notes issued by Fletcher Building Limited, the results and the financial position of Fletcher Building Finance needs to be considered in conjunction with those of the Fletcher Building group.

Fletcher Building Finance continues to operate in compliance with the terms of the Trust Deed under which the capital notes were issued.

Noteholders are provided with a copy of the Fletcher Building half year review and are encouraged to gain a more complete picture of the nature of their financial investment by understanding the performance of Fletcher Building Limited.

If you require further information on Fletcher Building and its operations you can do so by viewing this on the Fletcher Building website, at www.fletcherbuilding.com, which contains all news releases, statements to the New Zealand Exchange and financial presentations made by Fletcher Building.

As the financial performance of Fletcher Building Finance is ultimately contingent on that of Fletcher Building, it is relevant to note that Fletcher Building has reported net earnings of \$193 million for the six months ended 31 December 2006, 2 percent ahead of the previous corresponding period. Furthermore, at the Fletcher Building shareholders' meeting in November, directors advised that the 2007 year would be another satisfactory result and that they were comfortable with the consensus of analysts forecast of net earnings to be around \$388 million. Fletcher Building remains in a sound financial position with a financial gearing of 37.1 percent, and cashflow from operations of \$227 million in the six months period ending 31 December 2006.
