

Dear fellow shareholder,

Investment portfolio performance

December brought to a close a strong year for global equities and a difficult year for communities globally as we continue to live with the coronavirus pandemic. Global equities performed strongly, with the MSCI AC World Index (AUD) up 25.3% and the S&P/ASX All Ordinaries Accumulation Index increasing 17.7% for the 2021 calendar year. In December, the Future Generation Australia (ASX: FGX) investment portfolio increased 1.3% for the month whilst the S&P/ASX All Ordinaries Accumulation Index rose 2.7%. The Future Generation Global (ASX: FGG) investment portfolio increased 0.5% for the month and the MSCI AC World Index (AUD) closed up 1.5% in December.

Since inception, the FGX investment portfolio has increased 11.2% per annum and the FGG investment portfolio has increased 11.1% per annum. The investment portfolios' performance has been achieved with less volatility than their indexes, as measured by standard deviation.

Insights from the Investment Committee

In the next instalment of [Insights from the Investment Committee](#), Future Generation Global Director and Investment Committee Chair Kiera Grant and I discuss the unique qualities of the FGG investment portfolio, the benefits of diversification and how the portfolio has performed during periods of increased volatility.

Top stock picks from our pro bono fund managers

Read the top long-term stock picks from our pro bono fund managers featured in [The Australian Financial Review](#), as well as charities that have caught their eye and an interview with Craig Connelly, CEO of Ian Potter Foundation, a supporter of and shareholder in Future Generation Australia and Future Generation Global.

*Investment portfolio performance is before expenses, fees and taxes to compare to the relevant index which is also before expenses, fees and taxes.

Addressing mental health

Alongside an article of stock picks from our pro bono fund managers in [The Australian](#), I wrote about the role of philanthropy in [addressing mental health](#), Future Generation's profit for purpose model and our placement at number 28 on Australia's top corporate giving list for 2021. Thank you to our fund managers, service providers and shareholders for your continued support.

Our impact story so far

Much like financial investment strategies, getting the greatest return from what we donate happens when our partners identify catalytic opportunities situated at the nexus of need, demand, high potential for social change, and low or no existing investment. This is where private funding sources such as yours in Future Generation, really punch above their weight in terms of social return.

We have looked back at our first five to six years of impact and invite you to read some of our highlights and learnings from the FGX and FGG social investment portfolios in [Our impact story so far](#).

What is a market neutral investment strategy?

A market neutral investment strategy generally involves the simultaneous purchase and sale of equities, to generate returns that are not linked to the performance of underlying equity markets.

The Future Generation Australia investment portfolio is comprised of a 6.6% allocation to a market neutral strategy.

Best wishes,

Caroline Gurney
CEO, Future Generation
