About Freehill Mining Ltd

Freehill Mining Ltd - FHS is an ASX listed company, which is engaged in identifying quality resource opportunities with an identifiable short term horizon to production.

Freehill Mining Ltd is pursuing this strategy in respect of the iron ore tenements owned by two of its Chilean incorporated subsidiaries, Yervas Buenas ApA (YB SpA) and San Patricio Minería SpA (SP SpA), collectively the Yervas Buenas Project. The operations at the Yervas Buenas Project involve the mining of magnetite iron ore from hard rock and sands at the surface, and other resources have been identified as potentially present at the Yervas Buenas Project Area.

The Yervas Buenas Project Area is located 30 kilometres north of the city of La Serena in the IV Region of Coquimbo, Chile. The Yervas Buenas Project spans 398 hectares. There is an existing operating mine and established commercial sales relationships with key partners in Chile. In the near future FHS intends to commence a drilling program to prove up its reserves at the Yervas Buenas project.
