About Akela

Akela's proprietary financial services software and transaction management platform provides Australian Financial Services Licence (AFSL) holders a streamlined total management solution to capital raisings and distribution of public and private offerings. Akela is a unique 'Service Platform' with Peer-to-Peer (P2P) community, Business-to-Business (B2B), KYC) and compliance and data collection & analytics capabilities.

Individuals and entities can continue to register on the platform and gain access to current and future offerings at www.akela.vc

About Akela Mobile App

iOS and Android users have access to the Akela Platform mobile app via the App Store and Google Play. The app will be initially free for all users, but will require a membership with the Akela Platform to use. Once logged into the app, investors will be linked with their account. Your investment progress will be linked across any device that you log in from. The mobile app is another tool that the Akela Platform provides to give you the best investment experience on the web.

About Brontech

Brontech is Sydney based company that is pioneering a blockchain backed platform for data exchange and identity management. The company is also building complementary proprietary applications to extract data from various sources and pack them into anonymized data products that are sold to corporations and SMEs as insights and research tools. In its diverse data product offering is also included the MyBron API that enables individuals and companies to exchange verified information in a Peer-to-Peer manner where the data is verified through the company's proprietary identity verification protocol that pulls data from diverse set of sources.

Individuals and entities can find more information on Brontech's products at www.bron.tech
