ASX Release

On-Market Share Buy-Back Program Update

FleetPartners Group Limited (**FPR** or **Group**) provides an update for the market on its ongoing on-market share buy-back program.

The on-market share buy-back program was established by the Board as the preferred mechanism to return capital to shareholders in the absence of distributable franking credits.

FPR is therefore pleased to announce the re-commencement of the on-market share buy-back program from Monday 2 September 2024 until the blackout period commences on 1 October 2024, given our ongoing strong generation of capital. More detail is intended to be provided at the FY24 results briefing.

Authorised for release by the Board of Directors.
