Golden Deeps Appoints Professor Malcom Richmond to Advisory Board

The Board of Golden Deeps Limited is pleased to advise that it has established an Advisory Board to advise and assist the Directors in the commercialisation of its projects and, in particular, the development and commercialisation of the Abenab/Christiana Vanadium Lead Zinc Project.

The first appointment to the Advisory Board is Professor Malcolm Richmond. Professor Richmond has over 30 years' experience in the resources industry with the Rio Tinto and CRA Groups, where he held a number of positions, including: Vice President, Strategy and Acquisitions; Managing Director, Research and Technology; and Managing Director, Development (Hamersley Iron Pty Ltd). He was formerly Deputy Chairman of the Australian Mineral Industries Research Association and Vice President of the WA Chamber of Minerals and Energy.

Professor Richmond is a qualified metallurgist and economist, who holds both an Honours degree in Science (Metallurgy) and a degree in Commerce. He has extensive senior executive and Board experience in the resource and technology industries, both in Australia and internationally. He is especially interested in corporate strategy and the development of markets for internationally traded minerals and metals, particularly in Asia.

Professor Richmond served as Visiting Professor at the Graduate School of Management and School of Engineering, University of Western Australia, until January 2012. He is a Fellow of the Australian Academy of Technological Sciences & Engineering, a Fellow of Australasian Institute of Mining and Metallurgy and a Member of Strategic Planning Institute (US).

Professor Richmond brings a wealth of both technical and commercial experience to the Advisory Board of Golden Deeps Limited.
