Directors' Report

Your directors present their report, together with the financial statements of Mintails Limited ("Company") and controlled entities ("Group") for the financial year ended 30 June 2015.

The following persons were directors of the Mintails Limited during the whole of the year and up to the date of this report:

Stephen Brockhurst	Director (appointed 19 June 2017)
Steve Formica	Director (appointed 19 June 2017)
Daryl Henthorn	Director (appointed 19 June 2017)
Mark Brune	Executive Chairman (resigned 19 June 2017)
Murray Rose	Non-Executive Director (resigned 19 June 2017)
Laurence Blumberg	Non-Executive Director (resigned 19 June 2017)
Howard Carr	Non-Executive Director (resigned 19 June 2017)

Incomplete Records

The Company's South African subsidiaries were placed into business rescue in October 2015, with the business rescue practitioners assuming operational and management control of the South African subsidiaries from their date of appointment.

On 7 January 2016 the Board of Directors resolved to place the Company into voluntary administration and appointed James Thackray as voluntary administrator of the Company. Following appointment of the administrators, the powers of the Company's officers (including Directors) were suspended and the administrators assumed control of the Company's business, property and affairs.

This financial report has been prepared by Company management who were not in office for the periods presented in this report, nor were they parties involved with the Company and did not have oversight or control over the Group's financial reporting systems including but not limited to being able to obtain access to complete accounting records of the Company.

The preparers of this report have not been able to source all books and records of the South African subsidiaries and have determined to deconsolidate the South African entities from 1 July 2014 (rather than 16 October 2015, the date control was lost). Reasonable effort has been made by the Directors to ascertain the true position of the Company as at the reporting date, and the decision to deconsolidate the South African subsidiaries at 1 July 2014 has been made for the following reasons:

- Access to opening balance workpapers has been limited;
- To the knowledge of the preparers of this report, there has been no audit or review work performed on the South African subsidiaries since 30 June 2014 and therefore the accuracy, completeness and reliability of the limited South African management accounts that have been made available cannot be assured; and
- Full access to the financial information of the South African subsidiaries has not been possible. Without full access to the South African subsidiaries' financial information the preparation of a consolidation at 30 June 2015 and the preparation of the note disclosures required for a general purpose set of accounts in accordance with the relevant accounting standards is not considered to be possible as there is not sufficient information available to enable this level of disclosure to be made.

To prepare the financial report the Directors have reconstructed the financial records of the Group using management account information provided by the administrator and data extracted from the Group's accounting system. There may be information that the current management have not been able to obtain, the impact of which may or may not be material on the accounts.

These financial statements do not contain all the required information or disclosures in relation to transactions undertaken by the Company as this information is unascertainable due to the business rescue and administration processes and/or the change in directorships and key management personnel.

Consequently, although the Directors have prepared this financial report to the best of their knowledge based on the information made available to them, they are of the opinion that it is not possible to state that this financial report has been prepared in accordance with Australian Accounting Standards including Australian interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*, nor is it possible to state this financial report gives a true and fair view of the Group's financial position as at the reporting period.

Events Subsequent to Period End

On 9 December 2016, the Company announced that at a meeting of creditors held on 6 December 2016, the creditors resolved that the Company execute a deed of company arrangement ("DOCA") and that Mr James Thackray be appointed as administrator of the deed of company arrangement ("Deed Administrator"). The DOCA embodied a proposal by CPS Capital Group Pty Ltd ("CPS") for the recapitalisation of the Company ("Recapitalisation Proposal").

A recapitalisation proposal typically involves an injection of new cash into a company that is either in financial distress or has been placed into voluntary administration. In the ordinary course, the entity will retain some or all of its assets and seek reinstatement to trading following completion of the recapitalisation.

The Recapitalisation Proposal was amended in June 2017.

A summary of the material terms of the Recapitalisation Proposal as contained in the executed amended DOCA is set out below.

1. The Company and the Deed Administrator will establish the Creditors' Trust, with the Deed Administrator acting as trustee.
2. The assets of the Company will be transferred into the Creditors' Trust.
3. The Company will consolidate its existing shares on a one (1) for one hundred thirty (130) basis. For the avoidance of doubt, the Company will have 2,068,422 fully paid ordinary shares and no other securities on issue post consolidation.
4. The Administrator shall make such changes or appointments to the Company's board of directors as CPS requests from time to time.
5. CPS or nominees of CPS will provide \$550,000 towards the Creditors of the Company and funding of the costs of the Administrator, by way of payment into a Creditors' Trust ("Creditor Payment") of which the Administrator will be the trustee. The \$550,000 is to be repaid to CPS or nominees in cash or converted to shares on a post-consolidation basis at a deemed price of \$0.02 per share. The Creditor Payment is to be paid as follows:
 - a. \$40,000 non-refundable deposit within 5 days of the Administrator formally nominating CPS as the preferred bidder for the Company;
 - b. \$40,000 within 5 days if the creditors of the Company approving the Proposal at the second creditors' meeting to be held on or about 30 September 2016;
 - c. \$470,000 within 2 Business Days of the First Amendment Date of 31 May 2017, or such later date as the Deed Administrator may approve in writing.
6. CPS may vary the proposed capital structure and the structure of the Capital Raisings (including the Share consolidation and the terms of the Capital Raisings) at the discretion of CPS or its nominees, subject to necessary regulatory and/or Mintails shareholder approvals first being obtained (if required).

Conditions precedent for the completion of the DOCA include:

1. The existing share structure of the Company, including unlisted options (if any) that are not cancelled, shall be subject to a 130:1 consolidation prior to issuing the securities under this Proposal.
2. All liabilities between the Company and each of its creditors as at settlement of the Proposal must be mutually released and compromised as between those parties under the DOCA.

3. The secured creditors, if any, agree to release all security over the Company and its subsidiaries.
4. All subsidiaries being excised from the Company.
5. The cancellation of all options on issue.
6. Seager Rex Harbour, each Paige Creditor, and each Associated Entity that is Controlled by Seager Rex Harbour or a Paige Creditor that, in each case, owns shares in the Company, making an intention statement to the Company and CPS that it intends to vote the Company Shares it holds at the time of the Company Shareholders' Meeting in favour of the Company Shareholders' Resolutions, subject to the Completion Conditions being satisfied or waived in accordance with the DOCA and a majority of the Company's directors at the time making a recommendation (and not varying or withdrawing that recommendation) to the Company Shareholders to vote in favour of the Company Shareholders' Resolutions.

The Company obtaining all necessary shareholder and regulatory approvals and consents in relation to any aspect of the Proposal as may be required by the constitution, the Corporations Act, the Australian Securities and Investments Commission, the ASX or the ASX Listing Rules.

The creditors' payment was received by 1 June 2017. As of 2 June 2017 all key conditions precedent had been satisfied and the Deed of Company Arrangement was effectuated. As of 6 June 2017 control of the Company was passed from the Administrator to CPS. The new Board of Directors was appointed on 19 June 2017. The Company is in the process of being recapitalised, which will involve an acquisition, capital raising, share consolidation, re-compliance with Chapters 1 and 2 of the ASX Listing Rules, and subsequently an ASX relisting.

Operating Results and Financial Position

The Company was in the business of mining gold in South Africa through its South African subsidiaries until these subsidiaries were placed into business rescue in October 2015. On 7 January 2016 the Board of Directors resolved to place the Company into voluntary administration and appointed James Thackray as voluntary administrator of the Company.

The consolidated loss for the year ended 30 June 2015 was \$20,255,887 (30 June 2014: loss of \$38,732,000).

Principal Activities

The principal continuing activity of the Group during the year was the management and operation of gold mines in South Africa.

Dividends Paid or Recommended

There were no dividends paid or recommended during the financial year ended 30 June 2015 (30 June 2014: nil).

Significant Changes in State of Affairs

The Company was in the business of mining gold in South Africa through its South African subsidiaries until these subsidiaries were placed into business rescue in October 2015. On 7 January 2016 the Board of Directors resolved to place the Company into voluntary administration and appointed James Thackray as voluntary administrator of the Company.

Refer to the Incomplete Records and Events Subsequent to Period End sections above for further details.

Ms Bakos is a Chartered Secretary and holds a B.Bus (Accounting) from RMIT University. She has over 20 years' experience providing financial accounting, company secretarial and compliance services to listed and unlisted public companies in the areas of mining technology and biotech.

Meetings of Directors

Due to the appointment of the Administrator on 7 January 2016 to the Company, information on the attendance at Directors' meetings is not available.

REMUNERATION REPORT (AUDITED)

This remuneration report, which forms part of the Directors' Report, sets out information about the remuneration of Mintails Limited's directors and its senior management for the financial year ended 30 June 2015. The Company was in Administration from 7 January 2016. On entering administration, the Administrator was responsible for the remuneration policy of the Company.

Management and the Directors who are in office at the date of this report had no involvement in adopting, implementing or complying with these remuneration policies. These policies may or may not have been in place during the year.

If the recapitalisation process is successful, the Directors who are in office at the date of this report will adopt a new remuneration policy in accordance with the corporate governance framework to be adopted by the Board.

Remuneration Policy

Remuneration of all Executive and Non-Executive Directors and Officers of the Company is determined by the Remuneration and Nomination Committee.

The Company is committed to remunerating Senior Executives and Executive Directors in a manner that is market competitive and consistent with "Best Practice" including the interests of Shareholders. Remuneration packages are based on fixed and variable components, determined by the Executives' position, experience and performance, and may be satisfied via cash or equity.

Non-Executive Directors are remunerated out of the aggregate amount approved by Shareholders at a level that is consistent with industry standards. Non-executive Directors do not receive performance based bonuses and prior Shareholder approval is required to participate in any issue of equity. No retirement benefits are payable other than statutory superannuation, if applicable.

Remuneration Policy versus Company Financial Performance

Over the past five years the Company has undertaken mining and exploration activities. These volatile and speculative activities, which can provide high returns if successful, have been reflected in the Company's performance and Shareholder wealth over the period.

Consequently the Company's remuneration policy has been based on industry practice rather than company performance and takes into account the risk and liabilities assumed by the Directors and Executives as a result of their involvement in the speculative activities undertaken by the Company. Directors and Executives are fairly compensated for the extensive work they undertake.

Performance based Remuneration

The purpose of a performance bonus is to reward individual performance in line with company objectives. Consequently, performance based remuneration may be paid to an individual where the individual's performance clearly contributes to a successful outcome for the Company. This would be regularly measured in respect of performance against key performance indicators (KPI's).

The Company uses a variety of KPI's to determine achievement, depending on the role of the Executive being assessed. These include:

- Successful contract negotiations;
- Completion of set milestones;
- Set profit levels; and
- Completion of set production output.

Details of remuneration for year ended 30 June 2015

The remuneration for each Director and identified Key Management Personnel of the Group during the year was as follows:

2015

From 7 January 2016 the Company was in administration. The Company's operations were suspended by the Administrator. The Company does not have adequate information to enable the disclosures required by the *Corporations Act 2001* for the year ended 30 June 2015. Formal approval was granted by Creditors at the second meeting of creditors on 29 November 2016 for remuneration of the Administrations, no amounts were paid before 30 June 2015.

Amounts approved on 29 November 2016:

- \$160,186.50 from 7 January to 25 November 2016.
- Up to \$30,000 for the period 26 November to 6 December 2016, to be charged at hourly rates.
- Up to \$100,000 as the Administrator, Deed Administrator and as Trustee of the Creditors' Trust for the period 6 December 2016 to 31 December 2017.

2014

The following Key Management Personnel were Directors of Mintails Limited during the full financial year unless otherwise stated:

Name	Position
M Brune	Executive Director
M Rose	Non-Executive Director
L Blumberg	Non-Executive Director
H Carr	Non-Executive Director

The following persons also had authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly during the full financial year unless stated otherwise:

Name	Position	Employer
J Jacobs	General Manager – Operations	Mintails Mining SA (Pty) Ltd
E Milne	CFO	Mintails Mining SA (Pty) Ltd
A Ehlers	CEO	Mintails Mining SA (Pty) Ltd
B H Ndimande	Executive – Legal Licensing & Compliance	Mintails Mining SA (Pty) Ltd

TOTAL	912,000	105,000	12,000	-	54,000	1,083,000

¹ Appointed during the period

² Equity settled options: Current year share based payment expense for options issued in prior years.

Remuneration paid to non-executive directors during the year ended 30 June 2014 consists of base remuneration of \$37,500 per annum, plus fees for additional services performed over 2 days per month at a rate of \$1,500 per day, as approved by shareholders at the 2011 AGM.

Performance income as a proportion of total remuneration

All executives are eligible to receive incentives whether through employment contracts or by the recommendation of the Board. Their performance payments are based on a set monetary value, set number of shares or options or as a portion of base salary. Therefore there is no fixed proportion between incentive and non-incentive remuneration.

Non-executive Directors are not entitled to receive performance based bonuses.

Equity issued as part of remuneration

2015

Shares and options may be issued to Directors and Executives as part of their remuneration based on set performance criteria. From the information available, no options and no shares were issued to Directors and Executives as part of their remuneration during the year ended 30 June 2015.

2014

The following table discloses the value of remuneration issued for the year ended 30 June 2014 based on options granted, exercised, sold or lapsed during the year for the Directors and Key Management Personnel. As a result, they may not indicate all options held by Directors or Key Management Personnel.

REMUNERATION REPORT (END)

Proceedings on Behalf of Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company or all or any part of those proceedings.

The Company was not a party to any such proceedings during the year.

Indemnifying Officers

During the financial year the Company paid a premium in respect of a contract insuring the directors of the Company, the Company Secretary, and all executive directors of the Company and of any related body corporate against a liability incurred as such a director, secretary or executive office to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Due to the Company being in administration the Directors insurance premiums have not been renewed since the last policy was paid. It is the intention of the current Directors of the Company to ensure an adequate premium in respect of insuring the Directors, Secretary or executive officers to the extent permitted by the *Corporations Act 2001*.

Environmental Regulations

In the normal course of business, there are no environmental regulations or requirements that the Company is subject to.

Future Developments, Prospects, and Business Strategies

The Company is in the process of being recapitalised and its future developments, prospects and business strategies are detailed in the Events Subsequent to Period End section of the Directors' Report.

Share options

At the date of this report, the unissued ordinary shares of Mintails Limited under option are as follows:

Quantity	Expiry	Exercise Price
1,600,000	21/12/2017	\$0.18
1,600,000	21/12/2017	\$0.24
800,000	21/12/2018	\$0.18
800,000	21/12/2018	\$0.24
600,000	20/12/2018	\$0.16
600,000	20/12/2018	\$0.22
800,000	20/12/2018	\$0.30
6,800,000		

No options were exercised during the year.

Indemnification of Auditors

No indemnification has been provided to the Company's auditor.

Non-Audit Services

No fees for non-audit services were paid to the external auditors during the year ended 30 June 2015 (30 June 2014: nil).

Auditor's Independence Declaration

The auditor's independence declaration for the year ended 30 June 2015 has been received and can be found on page 18.

Signed in accordance with a resolution of directors.

AUDITOR'S INDEPENDENCE DECLARATION UNDER S307C OF THE CORPORATIONS ACT 2001 TO THE DIRECTORS OF MINTAILS LIMITED (SUBJECT TO DEED OF COMPANY ARRANGEMENT)

As lead auditor for the audit of Mintails Limited (subject to Deed of Company Arrangement) for the financial year ended 30 June 2015, I declare that, to the best of my knowledge and belief, there have been:

- no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- no contraventions of any applicable code of professional conduct in relation to the audit.

**QUALIFIED INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF MINTAILS LIMITED (SUBJECT TO DEED
OF COMPANY ARRANGEMENT)**

Report on the Financial Report

We were engaged to audit the accompanying financial report of Mintails Limited (Subject to deed of Company Arrangement) which comprises the consolidated statement of financial position as at 30 June 2015, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, the consolidated statement of cash flows for the year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the consolidated entity comprising the company and the entities it controlled from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of Mintails Limited (Subject to deed of Company Arrangement) are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards (including Australian Accounting Interpretations) and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, that the financial statements comply with International Financial Reporting Standards (IFRS).

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on conducting the audit in accordance with Australian Auditing Standards. Because of the matter described in the Basis for Disclaimer of opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Mintails Limited (Subject to deed of Company Arrangement), would be in the same terms if given to the directors as at the time of this auditor's report.

Basis for Disclaimer of Opinion

As detailed in the Directors' Report and in Note 1: *Incomplete Records*, the Company's South African subsidiaries were placed into business rescue on 16 October 2015 with the business rescue practitioners assuming operational and management control of the South African subsidiaries from their date of appointment. The Company was placed into voluntary administration on 7 January 2016. Because of these events, the preparers of this report have not been able to source all books and records of the Company and its South African subsidiaries and have determined to deconsolidate the South African subsidiaries from 1 July 2014 (rather than 16 October 2015, the date control was lost). Whilst the books and records of the company have otherwise been reconstructed to the maximum extent possible, we were unable to obtain sufficient appropriate evidence to verify the amounts disclosed in the consolidated statement of financial position as at 30 June 2015, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended on that date. As a result, we were unable to determine whether any adjustments to these amounts were necessary.

As stated in Note 1 and in the Directors' Declaration, the Directors are unable to state that the financial report is in accordance with all the requirements of the Corporations Act 2001 and the Australian Accounting Standards.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph noted above, we were unable to, and do not express an opinion as to whether:

- (a) the financial report of Mintails Limited (Subject to deed of Company Arrangement) is in accordance with the *Corporations Act 2001* including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

Emphasis of Matter – Material Uncertainty Regarding Going Concern

We draw attention to Note 1 – Going Concern in the financial report. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the consolidated entity's ability to continue as a going concern and, therefore the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business.

Report on the Remuneration Report

We were engaged to audit the Remuneration Report included within the Directors' Report for the year ended 30 June 2015. The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Basis for Disclaimer of opinion

Due to the matters described in the Basis for Disclaimer of Opinion paragraph noted above, we were unable to obtain sufficient appropriate evidence to verify the amounts disclosed in the Remuneration Report for the year ended 30 June 2015. As a result, we were unable to determine whether any adjustments to these amounts were necessary.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we were unable to, and do not express an opinion as to whether, the Remuneration Report of Mintails Limited (Subject to deed of Company Arrangement) for the year ended 30 June 2015 complies with Section 300A of the Corporations Act 2001.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

The financial report covers the consolidated group of Mintails Limited and controlled entities ("Consolidated Group" or "Group"). Mintails Limited is a listed public company, incorporated and domiciled in Australia. The separate financial statements of the parent entity, Mintails Limited, have not been presented within this financial report as permitted by the *Corporations Act 2001*.

The financial report of the Group complies with International Financial Reporting Standards (IFRS) in their entirety. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards.

The financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

The following is a summary of the material accounting policies adopted by the Group in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

Incomplete Records

The Company's South African subsidiaries were placed into business rescue in October 2015, with the business rescue practitioners assuming operational and management control of the South African subsidiaries from their date of appointment.

On 7 January 2016 the Board of Directors resolved to place the Company into voluntary administration and appointed James Thackray as voluntary administrator of the Company. Following appointment of the administrators, the powers of the Company's officers (including Directors) were suspended and the administrators assumed control of the Company's business, property and affairs.

This financial report has been prepared by Company management who were not in office for the periods presented in this report, nor were they parties involved with the Company and did not have oversight or control over the Group's financial reporting systems including but not limited to being able to obtain access to complete accounting records of the Company.

The preparers of this report have not been able to source all books and records of the South African subsidiaries and have determined to deconsolidate the South African entities from 1 July 2014 (rather than 16 October 2015, the date control was lost). Reasonable effort has been made by the Directors to ascertain the true position of the Company as at the reporting date, and the decision to deconsolidate the South African subsidiaries at 1 July 2014 has been made for the following reasons:

- Access to opening balance workpapers has been limited;
- To the knowledge of the preparers of this report, there has been no audit or review work performed on the South African subsidiaries since 30 June 2014 and therefore the accuracy, completeness and reliability of the limited South African management accounts that have been made available cannot be assured; and
- Full access to the financial information of the South African subsidiaries has not been possible. Without full access to the South African subsidiaries' financial information the preparation of a consolidation at 30 June 2015 and the preparation of the note disclosures required for a general purpose set of accounts in accordance with the relevant accounting standards is not considered to be possible as there is not sufficient information available to enable this level of disclosure to be made.

To prepare the financial report the Directors have reconstructed the financial records of the Group using management account information provided by the administrator and data extracted from the Group's accounting system. There may be information that the current management have not been able to obtain, the impact of which may or may not be material on the accounts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT)

These financial statements do not contain all the required information or disclosures in relation to transactions undertaken by the Company as this information is unascertainable due to the business rescue and administration processes and/or the change in directorships and key management personnel.

Consequently, although the Directors have prepared this financial report to the best of their knowledge based on the information made available to them, they are of the opinion that it is not possible to state that this financial report has been prepared in accordance with Australian Accounting Standards including Australian interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*, nor is it possible to state this financial report gives a true and fair view of the Group's financial position as at the reporting period.

Going Concern

The Group incurred a loss of \$20,255,888 for the year ended 30 June 2015. In addition, the Group had a net current assets of \$49,831 as at 30 June 2015.

The financial report has been prepared on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business. The Directors believe it is appropriate to prepare these accounts on a going concern basis because under the DOCA effectuated on 2 June 2017 the Company has extinguished or all liabilities associated with the previous administration of the Company. The Company is in the process of being recapitalised, which will involve an acquisition, capital raising, share consolidation, re-compliance with Chapters 1 and 2 of the ASX Listing Rules, and subsequently an ASX relisting. .

Should the Group not achieve a recapitalisation and successful ASX re-listing, there is significant uncertainty whether the Group will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The financial report does not contain any adjustments relating to the recoverability and classification of recorded assets or liabilities that might be necessary should the Group not be able to continue as a going concern.

Significant Accounting Estimates and Assumptions

In applying the Company's accounting policies, management continually evaluates estimates and assumptions based on experience and other factors, including expectation of future events that may have an impact on the Group as a whole. All estimates and assumptions made are believed to be reasonable based on the most current set of circumstances available to management. Actual results may differ from the estimates and assumptions. Significant estimates and assumptions made by management in the preparation of these financial statements are outlined in the Incomplete Records section above.

Accounting Policies

a. Principles of Consolidation

The consolidated financial statements incorporate the assets, liabilities and results of entities controlled by Mintails Ltd at the end of the reporting period. A controlled entity is any entity over which Mintails Ltd is exposed to, or has rights to, variable returns from its involvement with the entity, and has the ability to use its power to affect those returns.

Where controlled entities have entered or left the Group during the year, the financial performance of those entities is included only for the period of the year that they were controlled. A list of controlled entities is contained in Note 11 to the financial statements.

In preparing the consolidated financial statements, all inter-group balances and transactions between entities in the consolidated group have been eliminated in full on consolidation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT)

b. Income Tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

c. Interests in Joint Ventures

The Group's share of the assets, liabilities, revenue and expenses of joint venture operations are included in the appropriate items of the consolidated financial statements.

The Group's interests in joint venture entities are brought to account using the equity method of accounting in the consolidated financial statements.

d. Investments in Associates

Investments in associate companies are recognised in the financial statements by applying the equity method of accounting. The equity method of accounting recognises the Group's share of post-acquisition reserves of its associates.

e. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of manufactured products includes direct materials, direct labour and an appropriate portion of variable and fixed overheads. The cost of mining inventory includes direct materials, direct labour, transportation costs and variable and fixed overhead costs relating to mining activities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT)

f. Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses. Where fair value cannot be reliably measured the item or class of property and plant will be carried at cost less, where applicable, any accumulated depreciation and impairment losses.

Land

Land is shown at its fair value (being the amount for which an asset could be exchanged between knowledgeable parties in an arm's length transaction), based on periodic, but at least triennial, valuations by an external independent expert.

Plant

Plant is measured at fair value. The value is assessed on the basis of the depreciated replacement cost of the existing plant.

Depreciated replacement cost is assessed using available prices for plant and equipment, depreciated based on the assessed life span of the asset and the age of the asset held. This method of assessing fair value was selected as the most appropriate as there is not a ready market for the plant and equipment due to the nature of the assets and operations. Additionally, there are no clearly comparable sales that can be referred to in order to provide an indicative value. The directors have also determined it is not appropriate to use discounted cash flow forecasts to assess fair value, as future cash flows have already been used to value the Company's mineral resources (see note 1(g)).

Equipment

Equipment is value at cost less accumulated depreciation and impairment.

The cost of fixed assets constructed within the Group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of the fixed and variable overheads. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Increases in the carrying amount arising on revaluation of property and plant are credited net of tax to a revaluation reserve in equity. Decreases that offset previous increases of the same asset are charged against revaluation reserves directly in equity; all other decreases are charged to profit or loss.

Depreciation

The depreciable amount of all plant and equipment is depreciated on a straight-line basis over the asset's useful life to the consolidated group commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Plant and equipment	15% - 50%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss. When re-valued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT)

g. Mineral Resources

Mineral Resources are measured at fair value, less amortisation and impairment losses. Resources are only recognised when they are owned by the Group and have been determined to have a JORC compliant Indicated Resource or above category.

The carrying amount of mineral resources is reviewed at the end of each reporting period by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be generated from processing the mineral resources and subsequent disposal.

Increases in the carrying amount arising on revaluation of reserves are credited to a revaluation reserve in equity. Decreases that offset previous increases of the same asset are charged against a re-valuation reserve directly in equity; all other decreases are charged to profit or loss.

Amortisation

Amortisation of Mineral Resources is principally computed using the Units of Production method based on Indicated and Measured JORC reserves.

h. Provision for Site Rehabilitation Costs

The Group is required to rehabilitate processing/tailings sites at the end of their lives to a condition that is acceptable to the relevant authorities.

The provision for rehabilitation costs are based on the discounted value of the estimated future costs to rehabilitate the site. Where there is a change to the estimated costs, the change in value of the provision is added to the cost of the asset in the current period.

i. Exploration & Mine Development Expenditure

Exploration expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the Statement of Financial Position where it is expected that the expenditure will be recovered through the successful development and exploration of an area of interest, or but its sale, or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made.

Capitalised mine development costs include expenditures incurred to develop new ore bodies to define further mineralisation in existing ore bodies, to expand the capacity of a mine and to maintain production. Mining development also includes costs transferred from the exploration phase once production commences in the area of interest.

Amortisation of mine development expenditure is computed using the units of production method based on Indicated and Measured JORC reserves.

j. Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership that is transferred to entities in the consolidated group, are classified as finance leases.

Finance leases are capitalised by recognising an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are recognised as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight-line basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT)

k. Financial Instruments

Recognition and initial measurement

Financial assets and financial liabilities are recognised when the group becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the group commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified at 'fair value through profit and loss', in which case transaction costs are expensed in the profit or loss immediately..

Classification and Subsequent Measurement

Financial instruments are subsequently measured at either: fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the *effective interest method*.

Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, the quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense item in profit or loss.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans and receivables are included in current assets, where they are expected to mature within 12 months after the end of the reporting period.

Available-for-sale financial assets

Available-for sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by the Company. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments. Available-for-sale financial assets are stated at fair value with the changes in fair value recognised in other comprehensive income.

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

De-recognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT)

l. Impairment of Assets

At the end of each reporting period, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the assets carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to profit or loss.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives. In accordance with Accounting Standards, once goodwill is impaired it cannot be subsequently reversed.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Non-financial assets other than goodwill that suffered a previous impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

m. Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at year end change rates. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in profit or loss except where deferred in other comprehensive income as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised in other comprehensive income to the extent that the gain or loss is directly recognised in other comprehensive income; otherwise the exchange difference is recognised in profit or loss.

Group companies

The financial results and position of foreign operations whose functional currency is different from the Group's presentation currency are translated as follows:

- Assets and liabilities are translated at year-end exchange rates prevailing at that reporting date.
- Income and expenses are translated at average exchange rates for the period; and
- Retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the foreign currency translation reserve via other comprehensive income. The cumulative amount of these differences is recycled in profit or loss in the period in which the operation is disposed.

n. Employee Benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be settled within 1 year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than 1 year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT)

n. Employee Benefits (Cont)

Contributions are made by the Group to employee superannuation or insurance funds and are charged as expenses when incurred.

o. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits available on demand with banks, and other short-term highly liquid investments with original maturities of 3 months or less, and bank overdrafts.

p. Revenue

Revenue from the sale of resources is recognised on the date of sale of the resource to the market. Interest revenue is recognised on a proportional basis taking into account the effective interest rates applicable to the financial assets.

Revenue from the rendering of a service and goods sold is recognised upon the delivery of the goods and service to the customer.

All revenue is stated net of the amount of goods and services tax (GST)/value added tax (VAT).

q. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

r. Business Combinations

Business combinations occur where an acquirer obtains control over one or more businesses.

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control. The business combination will be accounted for from the date that control is attained, whereby the fair value of the identifiable assets acquired and liabilities (including contingent liabilities) assumed is recognised (subject to certain limited exemptions).

When measuring the consideration transferred in the business combination, any asset or liability resulting from a contingent consideration arrangement is also included. Subsequent to initial recognition, contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability is remeasured each reporting period to fair value, recognising any change to fair value in profit or loss, unless the change in value can be identified as existing at acquisition date.

All transaction costs incurred in relation to the business combination are expensed to the statement of profit or loss and other comprehensive income.

The acquisition of a business may result in the recognition of goodwill or a gain from a bargain purchase.

Goodwill

Goodwill is carried at cost less accumulated impairment losses. Goodwill is calculated as the excess of the sum of:

- (i) the consideration transferred
 - (ii) any non-controlling interest; and
 - (iii) the acquisition date fair value of any previously held equity interest;
- over the acquisition date fair value of net identifiable assets acquired

The acquisition date fair value of the consideration transferred for a business combination plus the acquisition date fair value of any previously held equity interest shall form the cost of the investment in the separate financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT)

r. Business Combinations (Cont)

Fair value uplifts in the value of pre-existing equity holdings are taken to the statement of profit or loss and other comprehensive income. Where changes in the value of such equity holdings had previously been recognised in other comprehensive income, such amounts are recycled to profit or loss.

Goodwill is tested for impairment annually and is allocated to the Group's cash-generating units or groups of cash-generating units, representing the lowest level at which goodwill is monitored not larger than an operating segment. Gains and losses on the disposal of an entity include the carrying amount of goodwill related to the entity disposed of.

Changes in the ownership interests in a subsidiary are accounted for as equity transactions and do not affect the carrying values of goodwill.

s. Goods and Services Tax (GST)/Value Added Tax (VAT)

Revenues, expenses and assets are recognised net of the amount of GST/VAT, except where the amount of GST/VAT incurred is not recoverable from the taxation authority. In these circumstances the GST/VAT is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables are stated inclusive of the amount of GST/VAT receivable or payable. The net amount of GST/VAT recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST/VAT components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the taxation authority are presented as operating cash flows included in receipts from customers or payments to suppliers.

t. Trade and Other Receivables

Trade receivables are financial instruments (loans receivables) and are carried at amortised cost using the effective interest rate method less a provision for impairment. However, the effect of amortisation is not considered where they are of a short-term nature. An impairment of receivables is made when collection of the full amount is no longer probable.

Receivables from related parties are carried at the amortised cost less provision for impairment. Interest is taken up as income on an accrual basis.

u. Trade and Other Payables

Liabilities for trade creditors and other amounts are carried at cost due to their short-term nature which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Group.

Trade and other payables are unsecured and are usually settled within 30 to 90 days of recognition depending on suppliers' terms.

Payables to related parties are carried at the principle amount. Interest, when charged by the lender is recognised as an expense on an accruals basis.

v. Share Capital

Ordinary share capital is recognised as the fair value of the consideration received by the Company.

Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT)

w. Share Based Payments

Equity-settled payments are measured at fair value at the date of grant or entitlement. Fair value is measured by use of the Black-Scholes model. The expected life used in the model has been adjusted, based on management's best estimate for the effects of non-transferability or exercise restrictions.

The fair value determined for the equity-settled share-based payments is expensed on a straight line basis over the vesting period, based on the Group's estimate of shares that will eventually vest, with a corresponding increase to issued capital in equity.

x. Earnings per Share

Basic earnings per share is determined by dividing the result for the year after related income tax expense by the weighted average number of ordinary shares outstanding during the financial year.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

y. Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

z. Adoption of new and Revised Standards

For the year ended 30 June 2015, the Company has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 July 2015.

It has been determined by the Company that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Group accounting policies.

(i) Impairment of land according to valuation by independent valuer to below cost. Impairment was expensed to profit or loss. This asset belongs to the mining segment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 7: PLANT AND EQUIPMENT (CONT)

Valuation of land and plant

The basis of the valuation of land is fair value, being the amounts for which the assets could be exchanged between willing parties in an arm's length transaction, based on current prices in an active market for similar land in the same location. The land was re-valued at 30 June 2013 based on external independent assessments by land valuers in South Africa.

Plant is measured at fair value. The fair value is assessed on a yearly basis by directors and management on the basis of the depreciated replacement cost of existing plant. Depreciated replacement cost is assessed using available prices for plant, depreciated based on the assessed life span of the asset and the age of the asset held. Refer note 1(f) for further information.

Had the carried fair value remained at historical cost less accumulated depreciation and impairment, their carrying value at 30 June 2015 would be:

	30 June 2015	30 June 2014
	\$	\$
Land & buildings	-	10,272,000
Plant	-	31,052,000

NOTE 8: MINERAL RESOURCES

	Note	Resources	Total
2015		\$	\$

Carrying amount at the end of the year		-	-

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 8: MINERAL RESOURCES (CONT)

	Resources	Total
2014	\$	\$
Fair value	23,259,000	23,259,000
Accumulated amortisation	(14,784,000)	(14,784,000)
	8,475,000	8,475,000
Balance at beginning of year	18,700,000	18,700,000
Additions	-	-
Disposals	-	-
Capital improvements	-	-
Revaluation of rehabilitation asset	4,286,000	4,286,000
Impairment	(5,552,000)	(5,552,000)
Revaluation decrement	(1,391,000)	(1,391,000)
Amortisation expense	(6,314,000)	(6,314,000)
Effect of movements in exchange rates	(1,254,000)	(1,254,000)
Carrying amount at the end of the year	8,475,000	8,475,000

Impairment of resources relates to the revaluation of mining resources to below the cost of the resources on acquisition. The revaluation has been undertaken in accordance with the Group's accounting policy on the valuation of resources as outlined in note 1(g). Impairment was expensed to profit or loss. This asset belongs to the mining segment.

Fair value of mineral resources is initially recognised at fair value at date of acquisition, and then subsequently reviewed to determine that it does not exceed the net present value of cash flow projections over the estimated life of the applicable mines using the following assumptions:

Assumptions	Input
Pre-tax discount rate	20.00%
Life of mines (all JORC resources of indicated or above)	19 years
CPI – South Africa	6.4%
CPI – United States	1.7%
Future real gold price due to SA/US CPI rate differential: 4.62%	4.62%
US/Rand foreign exchange rate	11.14
Price of gold per ounce	USD 1,223
Price of gold per kilogram	ZAR 437,952

No value has been attributed to any in-situ uranium mineral resource. The Company has no mining plan or operational intention to extract uranium from its resources. No value has been attributed to in-situ gold resources falling outside the Group's life of mine plan.

Randfontein Cluster acquired during the 2012 year has been brought to account at fair value at date of acquisition.

*As detailed in note 1, to prepare the financial report, management have reconstructed the financial records of the Group using data extracted from the Group's accounting system. Accordingly, the required disclosures have not been made as the information is unascertainable due to the administration process.

Significant restrictions

Cash held by all South Africa subsidiaries is subject to exchange control regulations governed by the South African Reserve Bank (SARB). Ongoing approval by SARB is crucial to the transfer of cash funds into and out of South Africa. The cash and cash equivalents balance held in South Africa is * at year end (30 June 2014: \$350,255).

Acquisition & sale of non-controlling interest in subsidiaries

During the 2013 year, the Company entered into arrangements with its BEE partners to buy back or reacquire their 26% holding in operational subsidiaries.

On 1 July 2013, the Company restructured its BEE program with the consolidation of all operational subsidiaries under one legal entity and the sale of 26% of that legal entity to new BEE partners in accordance with South African BEE and BBBEE legislation requirements. The 26% equity interest in Mintails Mining SA (Pty) Ltd was sold to Kutana Resources, Bukhosi Ndimande, The Foundation for Social Investment & Development Trust and Matla Trust for R115,000,000.

The sale proceeds of R115,00,000 are subject to a vendor finance agreement. The loan will be interest free until such time as the cumulative EBIT of Mintails Mining SA (Pty) Ltd reaches R75,000,000 measured from 1 July 2013. After the initial interest free period, the loan will attract interest at the South African prime rate.

	Note	30 June 2015 \$	30 June 2014 \$
Agreed consideration for the transaction received/(paid)		-	12,359,000
Net assets acquired/(disposed)		-	2,343,000
Net gain on acquisition		-	14,702,000

Net assets disposed in 2014 were negative net assets.

- (i) Options vest over 1 year from date of issue.
- (ii) Options vest over 2 years from date of issue.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 17: ISSUED CAPITAL (CONT)

All options are to be settled with the physical delivery of ordinary shares.

The weighted average fair value of options granted during the year was nil (30 June 2014: nil).

Historical volatility has been the basis for determining expected share price volatility as it is assumed that this is indicative of future tender, which may not eventuate.

The life of the options is based on the historical exercise pattern of options, being the expiry date of the options, which may not eventuate in the future.

The value of share based payments expensed to profit or loss during the year is nil (30 June 2014: \$52,260). This amount appears in the Directors Fees and Employment lines of the Statement of Profit or Loss and Other Comprehensive Income.

Reconciliation of outstanding share based payments

		Weighted average exercise price

Accordingly, the required disclosures have not been made as the information is unascertainable due to the administration process.

Geographical Regions

The Group operates its mining activities in one geographical location, South Africa.

NOTE 24: EVENTS AFTER THE REPORTING PERIOD

On 9 December 2016, the Company announced that at a meeting of creditors held on 6 December 2016, the creditors resolved that the Company execute a deed of company arrangement ("DOCA") and that Mr James Thackray be appointed as administrator of the deed of company arrangement ("Deed Administrator"). The DOCA embodied a proposal by CPS Capital Group Pty Ltd ("CPS") for the recapitalisation of the Company ("Recapitalisation Proposal").

A recapitalisation proposal typically involves an injection of new cash into a company that is either in financial distress or has been placed into voluntary administration. In the ordinary course, the entity will retain some or all of its assets and seek reinstatement to trading following completion of the recapitalisation.

The Recapitalisation Proposal was amended in June 2017.

A summary of the material terms of the Recapitalisation Proposal as contained in the executed amended DOCA is set out below.

1. The Company and the Deed Administrator will establish the Creditors' Trust, with the Deed Administrator acting as trustee. The assets of the Company will be transferred into the Creditors' Trust.
2. The Company will consolidate its existing shares on a one (1) for one hundred thirty (130) basis. For the avoidance of doubt, the Company will have 2,068,422 fully paid ordinary shares and no other securities on issue post consolidation.
3. The Administrator shall make such changes or appointments to the Company's board of directors as CPS requests from time to time.
4. CPS or nominees of CPS will provide \$550,000 towards the Creditors of the Company and funding of the costs of the Administrator, by way of payment into a Creditors' Trust ("Creditor Payment") of which the Administrator will be the trustee. The \$550,000 is to be repaid to CPS or nominees in cash or converted to shares on a post-consolidation basis at a deemed price of \$0.02 per share. The Creditor Payment is to be paid as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 24: EVENTS AFTER THE REPORTING PERIOD (CONT)

- a. \$40,000 non-refundable deposit within 5 days of the Administrator formally nominating CPS as the preferred bidder for the Company;
 - b. \$40,000 within 5 days if the creditors of the Company approving the Proposal at the second creditors' meeting to be held on or about 30 September 2016;
 - c. \$470,000 within 2 Business Days of the First Amendment Date of 31 May 2017, or such later date as the Deed Administrator may approve in writing
5. CPS may vary the proposed capital structure and the structure of the Capital Raisings (including the Share consolidation and the terms of the Capital Raisings) at the discretion of CPS or its nominees, subject to necessary regulatory and/or Mintails shareholder approvals first being obtained (if required).

Conditions precedent for the completion of the DOCA include:

1. The existing share structure of the Company, including unlisted options (if any) that are not cancelled, shall be subject to a 130:1 consolidation prior to issuing the securities under this Proposal.
2. All liabilities between the Company and each of its creditors as at settlement of the Proposal must be mutually released and compromised as between those parties under the DOCA.
3. The secured creditors, if any, agree to release all security over the Company and its subsidiaries.
4. All subsidiaries being excised from the Company.
5. The cancellation of all options on issue.
6. Seager Rex Harbour, each Paige Creditor, and each Associated Entity that is Controlled by Seager Rex Harbour or a Paige Creditor that, in each case, owns shares in the Company, making an intention statement to the Company and CPS that it intends to vote the Company Shares it holds at the time of the Company Shareholders' Meeting in favour of the Company Shareholders' Resolutions, subject to the Completion Conditions being satisfied or waived in accordance with the DOCA and a majority of the Company's directors at the time making a recommendation (and not varying or withdrawing that recommendation) to the Company Shareholders to vote in favour of the Company Shareholders' Resolutions.
7. The Company obtaining all necessary shareholder and regulatory approvals and consents in relation to any aspect of the Proposal as may be required by the constitution, the Corporations Act, the Australian Securities and Investments Commission, the ASX or the ASX Listing Rules.

The creditors' payment was received by 1 June 2017. As of 2 June 2017 all key conditions precedent had been satisfied and the Deed of Company Arrangement was effectuated. As of 6 June 2017 control of the Company was passed from the Administrator to CPS. The new Board of Directors was appointed on 19 June 2017. The Company is in the process of being recapitalised, which will involve an acquisition, capital raising, share consolidation, re-compliance with Chapters 1 and 2 of the ASX Listing Rules, and subsequently an ASX relisting.

NOTE 25: RELATED PARTY TRANSACTIONS

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 25: RELATED PARTY TRANSACTIONS (CONT)

2015

Working capital funding was provided to the Company by Paige Ltd, a company associated with the Company's majority shareholder, during the year ended 30 June 2015. The loan facility is not secured, bears interest at 15.11%, and has no set date of repayment.

As a result of the matters disclosed in the Incomplete Records section of Note 1 the 30 June 2015 Paige Limited loan payable balance has been obtained from the limited accounting records that have been made available to current management; therefore, the loan balance and related disclosures presented above may not be in accordance with the relevant accounting standards.

2014

(ii) Interest charged at Bank Bill rate plus 4% over the term of the loans. 2014 loan had a 2% facility fee payable on termination of loan. Loan was fully repaid on 13 December 2013.

NOTE 26: FINANCIAL INSTRUMENTS

Capital Management

The Group's objectives and policies are to maintain a strong and flexible capital base to maintain investor, creditor and market confidence and to sustain future development of the business.

The Group's capital includes ordinary share capital and share options. There are no externally imposed capital requirements.

Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of return on capital (defined as total shareholders' equity attributable to members divided by number of shares on issue), distributions to shareholders and share issues.

Financial Risk Management

The Group's activities expose it to a variety of financial risks, market risk, credit risk and liquidity risk. Management have established risk management policies to identify and analyse the risks faced by the Company and the Group, to set appropriate risk limits and controls, and to monitor risk and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's and Group's activities.

Risk management is overseen by the Audit, Risk and Compliance Committee.

Please refer to the going concern section at Note 1 for further information.

a) Market Risk

i) Foreign exchange risk

The Group is exposed to currency risk on sales and purchases that are denominated in a currency other than the respective functional currency of the Group.

The parent entity also has exposure to foreign exchange risk in the currency cash reserves it holds to meet subsidiary loan requirements. This is kept to an acceptable level by buying foreign currency at spot rates only to fund short term cash requirements.

Exposure to foreign exchange risk has not changed from the previous year. The Group does not make use of derivative financial instruments to hedge foreign exchange risk.

The carrying amount of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date is as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 26: FINANCIAL INSTRUMENTS (CONT)

	Group Rand
2015	
Financial assets	*
Financial liabilities	*
Total exposure	*
2014	
Financial assets	87,554,000
Financial liabilities	(214,450,000)
Total exposure	(126,896,000)

Sensitivity analysis

The Group is mainly exposed to the South African Rand (ZAR). The average annual movement in the AUD/ZAR exchange rate over the last 5 years was a 9.5% strengthening of the AUD against the Rand, based on the year-end spot rates. A further 9.5% strengthening of the AUD against the ZAR at 30 June 2015 would have increased/(decreased) equity and loss after tax by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain consistent. The analysis is performed on the same basis for 2015.

	Movement sensitivity	Equity decrease \$	Loss after tax decrease \$
30 June 2015	9.5%	*	*
30 June 2014	9.5%	(116,000)	(2,459,000)

ii) Commodity price risk

The Group is exposed to commodity price risk. This arises from the sale of gold which is priced on, or benchmarked to, open market exchanges.

The Group does not make use of derivative financial instruments to hedge commodity price risk.

Sensitivity analysis

The following table shows that a decrease in the 5 year average annual commodity price movement would have increased the loss for the year.

	5 year average annual price movement	30 June 2015 Loss after tax increase \$	30 June 2014 Loss after tax increase \$
Gold, 2015	10%	*	-
Gold, 2014	10%	-	4,720,000

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 26: FINANCIAL INSTRUMENTS (CONT)

iii) Interest rate risk

The Group's exposure to interest rate risk is the risk that a financial instruments' value will fluctuate as a result of changes in market interest rates and the effective weighted average interest rates on classes of financial assets and liabilities.

	Note	30 June 2015 \$	30 June 2014 \$
Cash and cash equivalents		*	1,207,000
Deposits/other financial instruments		*	8,932,000
Weighted average interest rate %		*	2.32

There has been no change to the Group's exposure to interest rate risk or the manner in which it manages and measures its risk over the year.

Sensitivity analysis

An increase/(decrease) in 1% in interest rates at the end of the reporting period would have the following effect on after tax loss and equity. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2014.

	Loss after tax		Equity	
	1% increase	1% decrease	1% increase	1% decrease
	\$	\$	\$	\$
2015				
Variable rate instruments	*	*	*	*
2014				
Variable rate instruments	12	(12)	12	(12)

iv) Price risk

The Group has minimal exposure to price risk as it no longer holds any significant financial assets that are listed on a recognised trading exchange and valued according to the market price of the underlying security held.

b) Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's most substantial exposure to credit risk is through its sales of gold.

Gold sales contribute *% of the Group's operating income (2014: 97%) and are made to one customer. This customer is one of the largest buyers of gold product in South African and considered a customer of high credit worthiness. The sale price of fold is set to current market value.

The Group ensures that surplus cash is invested with financial institutions of appropriate credit worthiness and limits the amount of credit exposure to any one counter party.

The Group's exposure to credit risk has remained unchanged from the previous year. The carrying amount of the Group's financial assets represents the maximum credit exposure. The Group's maximum credit exposure to credit risk at the end of the reporting period was as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 26: FINANCIAL INSTRUMENTS (CONT)

	Carrying Amount	
	30 June 2015	30 June 2014
	\$	\$
Loans and receivables	*	6,070,000
Bonds	*	2,360,000
Other financial assets	*	3,000
Cash and cash equivalents	*	1,207,000
	*	9,640,000

The Group's maximum exposure to credit risk for trade receivables at the reporting date by geographical location was:

	Carrying Amount	
	30 June 2015	30 June 2014
	\$	\$
Australia	*	-
South Africa	*	1,032,000
	*	1,032,000

The Group's single significant customer accounts for * or % of the trade receivables carrying amount at the end of the reporting period and are considered to be good credit quality (2014: \$983,972 and 95%).

Receivables past due and impaired are nil (30 June 2014: nil). All other receivables past due are not considered impaired. Management believe that these debtors are recoverable and are satisfied that payment will be received in full. The ageing of the Group's trade receivables at reporting date was:

	Gross 2015 \$	Carrying Amount 2015 \$	Gross 2014 \$	Carrying Amount 2014 \$
Not past due	*	*	1,032,000	1,032,000
Past due 0-30 days	*	*	-	-
Past due 31 – 120 days	*	*	-	-
Past due 121 days to one year	*	*	-	-
More than one year	*	*	-	-
	*	*	1,032,000	1,032,000

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 26: FINANCIAL INSTRUMENTS (CONT)

The movement in the allowance for impairment in respect of trade receivables during the year was as follows:

	30 June 2015	30 June 2014
	\$	\$
Balance at 1 July	*	-
Bad debts recognised	*	-
Impairment loss reversed/(recognised)	*	-
Balance at 30 June	*	-

The allowance for impairment is used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible; at that point the amount is considered irrevocable and is written off against the financial asset directly. Bad debts of * were recognised during the year (30 June 2014: \$24,964). No provision was made for these debts.

c) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient assets to meeting liabilities as they fall due.

The Group is exposed to liquidity risk via the quantity and type of financial assets and liabilities it holds. The Board budgets to ensure that the Group can meet its financial obligations as they fall due by generating sufficient cash turnover, raising cash on market (if required), renegotiating terms with suppliers (if required), maintaining sufficient cash reserves and borrowing facilities, continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

The Group's exposure to liquidity risk has not changed from the prior year. The Group's financial assets and liabilities and net outflow effect are detailed in the below analysis.

2015

	Due within 1 year	Due 1-5 years	Over 5 years	Total
	\$	\$	\$	\$
<i>Financial liabilities due to payment</i>

Contractual commitments, guarantees and contingent liabilities

As detailed in the Incomplete Records section of Note 1, current management have reconstructed the financial records of the Group based on the limited information that has been made available to them.

Following effectuation of the DOCA on 2 June 2017 all liabilities, contingent liabilities, obligations, warranties and long-term commitments of the Company were released.

Apart from the above, there are no contractual commitment, guarantees and contingent liabilities as at 30 June 2015 and no contingent liabilities were incurred in the interval between balance date and the date of this financial report.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015

NOTE 28: LOSS ON DECONSOLIDATION OF SUBSIDIARIES

As disclosed in the Incomplete Records section of Note 1 all of the Group's South African subsidiaries have been deconsolidated from 1 July 2014, despite control of those subsidiaries being lost 16 October 2015.

As a result of the matters disclosed at Note 1 the loss on disposal has been calculated from the limited accounting records that have been made available to current management; therefore, the loss calculation set out below may not be in accordance with the relevant accounting standards. The disclosures required by AASB 5 *Non-Current Assets Held for Sale and Discontinued Operations* have not been presented as sufficient information is not available to enable this level of disclosure to be made.

NOTE 29: COMPANY DETAILS

The registered office and principal place of business of the Company is:

Mintails Limited

Suite 1

1233 High Street

Armadale, Victoria Australia 3143

Directors' Declaration

In the opinion of the Directors of Mintails Limited and its controlled entities (the Group):

1. As set out in Note 1, although the Directors have prepared the financial statements, notes thereto, and the remuneration disclosures contained in the Remuneration Report in the Directors' Report to the best of their knowledge based on the information made available to them, they are of the opinion that it is not possible to state that the financial statements, notes thereto, and the remuneration disclosures contained in the Remuneration Report in the Directors' Report, are in accordance with the *Corporations Act 2001*, including:
 - a. Giving a true and fair view of the Company's financial position as at 30 June 2015 and of its performance for the financial year ended on that date;
 - b. Complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001; and
 - c. Complying with International Financial Reporting Standards.
2. Subject to the matters highlighted in Note 1, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
3. The declaration required to be made in accordance with Section 295A of the Corporations Act 2001 for the financial year ended 30 June 2015 has been unable to be made due to the reasons set out in Note 1.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the Directors by:

Steve Brockhurst

Director

Perth WA

22 August 2017

CORPORATE GOVERNANCE STATEMENT

Management and the Directors who are in office at the date of this report had no involvement in adopting, implementing, monitoring, or complying with the Company's Corporate Governance Policies. Corporate governance policies of the Company have not been detailed here as they may or may not have been in place during the year.

If the recapitalisation process is successful, the Directors who are in office at the date of this report will adopt new corporate governance policies in accordance with the corporate governance framework to be adopted by the Board.
