Quarterly Report

For period ended 31 March, 2015

Coal Highlights

- Cores undergoing coal quality analyses
- Relinquishing tenements on all but three projects
- Maintaining focus on cost control and cash preservation

Site works within Kilmain Project

No site works during the March quarter. Planning for further drilling took place during the quarter.

The Kilmain Project (EPC 1298 and EPC 1917) is a 56 km² area within the Bowen Basin with coal seams within the Rangal Coal Measures.

Activities on the Kilmain Project commenced in mid September, 2014 with seismic survey and ground magnetometer surveys.

Total length of seismic surveys was 11.25 km with the first program being 7.75 km and the second phase completed on 15 October of 3.5km. Ground magnetometer surveys to locate basalt involved 12 km of survey lines.

Completion of the drilling of three partially cored holes occurred just prior to Christmas and just prior to the setting-in of the wet weather.

Assessment of the coal quality is still continuing.

Joint Exploration for Kilmain Project with JOGMEC

On 29 August, 2014 the Australian Government's Federal Investment Review Board approved of the Joint Exploration Agreement ("JEA"), in which **Japan Oil, Gas and Metals National Corporation (JOGMEC)** will provide up to \$3 million of exploration expenditure to Allegiance Coal over a 3 year period for the Kilmain Coal Project in three stages.

JOGMEC, a Japanese government owned corporation, will earn up to a 40% economic interest in the Kilmain Project and has the right to assign that interest to a Japanese nominee company in the future, in order to progress the project to development.

Back Creek Project

The posting of the maiden 98 Mt JORC Inferred Resource in November, 2012 ⁽¹⁾ enabled the Company to progress the Project to the stage of lodging a Mineral Development Licence Application (MDLA) in March, 2013. Following discussions with DNRM it has been decided to resubmit the MDLA utilising data and geological concepts that were either not available or considered in making the original MDLA. The resubmittal planned for last Quarter has been delayed to enable staff to focus on exploration on the Kilmain project. *See Plan 1*

The Project is well suited to gain benefit from further development of Surat Basin infrastructure.

The company has currently spent to date is in excess of AUD\$700,000. A formal joint venture agreement is in the process of being drafted between Barrick and CIO but has not yet been finalised.

Quarterly Activity

Annual reporting obligations for tenements.

British King Sale

On November 10, 2014, CIO announced that it has entered into an agreement for the AUD\$1.1 million sale of its British King Gold Mine ("Project") in Western Australia to BK Gold Mines Pty Ltd ("Purchaser").

The consideration payable by the Purchaser for the acquisition of the Project includes a AUD\$250,000 payment on completion of the acquisition, with the balance of the consideration to be paid in three tranches upon the satisfaction of certain production milestones from the Project, as set out below.

- Tranche 1: The Purchaser must deliver to CIO 150 troy ounces of gold upon the production and sale of 5,000 troy ounces of gold from the Project, upon which the Purchaser will acquire a further 14% interest in the Project (resulting in a total interest for the Purchaser of 65%).
- Tranche 2: The Purchaser must deliver to CIO 175 troy ounces of gold upon the production and sale of 7,500 troy ounces of gold from the Project, upon which the Purchaser will acquire a further 15% interest in the Project (resulting in a total interest for the Purchaser of 80%).
- Tranche 3: The Purchaser must deliver to CIO 215 troy ounces of gold upon the production and sale of 10,000 troy ounces of gold from the Project, upon which the Purchaser will acquire a further 20% interest in the Project (resulting in a total interest for the Purchaser of 100%).

In the event that the Purchaser fails to make any of the payments referred to above by the date required under the agreement, the Purchaser will be required to transfer back to CIO all of its then existing percentage interest in the Project and CIO will grant to the Purchaser a gross value royalty in respect of gold extracted from the Project. The percentage royalty interest will be determined as follows:

Purchaser Project interest	Gross Value Royalty
51%	1.25%
65%	1.625%
80%	2%
100%	2.5%

In addition to the consideration set out above, the Purchaser will pay AUD\$5,000 per month to CIO for rental of the equipment located at the Project site, until such time as the Purchaser acquires a 100% interest in the Project (subject to the earlier termination of the agreement).

On December 02, 2014, the Company announced that it has completed the AUD\$1.1 million sale of its British King Gold Mine in Western Australia to BK Gold Mines Pty Ltd.

Eureka Gold Project

The Eureka Gold Project is approximately 50km North of Kalgoorlie in Western Australia and covers an area of 563 hectares. The Eureka Gold Project includes the Eureka open pit gold mine which is 100% owned by CIO and is NI43-101 compliant. The Eureka gold mine is currently under care and maintenance.

Perinvale South Iron Ore Hub

Quarterly Activity :

- Annual reporting obligations
- Continued tenement reduction

Minerals

Claymor Resources Pty Ltd (Gullewa 100%)

Dandaloo Project - New South Wales

The tenement has been relinquished.

Property

The property was settled on 3 March, 2015. Mortgages totalling \$1.9m were obtained to fund the settlement. Gullewa has provided further loan funds of \$760,000.

Currently there are discussions with council in regards to increasing the number of lots and other town planning matters. We have engaged consultants to provide the necessary inputs.

Corporate

The Gullewa Group's cash position at the end of March, 2015 was \$3.958 million.

Repayment of Loans

Mineral and Coal Investments Pty Limited (MCI) is a fully owned subsidiary of Allegiance Coal Limited. MCI has a loan to the value of \$1.6 million owing to Gullewa Limited.

The company had negotiated an extension of the balance of this loan to 30 September, 2015, subject to certain conditions.

These conditions include if MCI does not have sufficient cash to cover its 12 month operating budget at the repayment date, then the repayment date will be extended by a further 90 days. The repayment date can continue to be extended by 90 day periods in this manner if that condition cannot be met, until a sunset repayment date of 30 June, 2017, at which time all of the debts must be repaid in full. Interest is charged on the loans calculated on a 90 day bank bill swap rate plus 4%.
