PROGRAM OF WORKS INFRINGEMENT

Golden West Resources (GWR:ASX) notes that the WA Department of Industry and Resources has today announced fines totalling \$71,500 against the Company in relation to exploration at two tenements at its Wiluna West project.

The fines relate to drilling and exploration undertaken between September 2006 and April 2007 before Program of Works applications had been formally submitted due to an administrative oversight.

Immediately the Company became aware that the necessary PoW applications had not been submitted and approved, it ceased all exploration activity at the sites and informed the relevant authorities.

Golden West Resources accepts responsibility for the error and has since commenced all necessary rehabilitation work at the affected sites.

The Company has also put in place systems to ensure such oversights cannot be repeated.

The Company confirms that the fines have been paid in full and exploration is continuing at Wiluna West in accordance with its granted regulatory approvals.
