

ASX/ MEDIA RELEASE: 20 JULY 2006

COLLTECH ANNOUNCES APPOINTMENT OF PHARMACEUTICALLY EXPERIENCED OPERATIONS MANAGER

Biotechnology company CollTech Australia Limited ("CollTech") [ASX:CAU] is pleased to announce the appointment of a pharmaceutically experienced Operations Manager, Stewart Walton. Mr Walton will lead the manufacturing team to achieve production optimisation, targets, quality and reporting requirements. The appointment of Mr Walton is timed to coincide with the first sales and commencement of commercial production of CollTech's cosmetic collagen OVICOLL[®]C and the current plant upgrade to produce OVICOLL[®]Clear. Mr Walton will be responsible for commissioning and completion of other plant upgrades to enable biomedical collagen production in 2007.

Stewart Walton BSc, Operations Manager

Mr Walton has significant management experience with strengths in development, manufacturing, engineering and quality assurance gained from over 13 years with pharmaceutical companies Delta West, Pharmacia & Upjohn and Pfizer in Australia and Europe. Mr Walton has led several start-up and revamp projects, and has extensive experience in the specification, purchasing and commissioning of Good Manufacturing Practice (GMP) facilities and equipment. He most recently assisted Chemeq Ltd to achieve its GMP license as Quality Operations Manager. Mr Walton holds a Bachelor of Science from Curtin University.

Mr Stephen Carter, Chairman, commented "that the appointment of Stewart Walton strengthens the operational management of the Company. Mr Walton's development, manufacturing and project management experience gained from large pharma will be invaluable as CollTech moves forward with its biomedical collagen program."

ABOUT COLLTECH

CollTech Australia Limited (CAU) is an Australian listed biotechnology company specialising in the development and commercialisation of ovine collagen and collagen-based healthcare products. CollTech's Australian-produced OVICOLL[®] ovine collagens are a clean, green and culturally acceptable collagen alternative that are fully traceable and unaffected by the issue of Mad Cow Disease. The company currently markets OVICOLL[®]C for cosmetic applications and has several products in the pipeline for the global food, cosmetic and medical markets.
