### **National Ticket Centre**

The Jetset Travelworld Group will launch its National Ticket Centre (NTC) early May in Sydney and Melbourne. Queensland, South Australia & Western Australia will commence **prior to 01 Jul 2004**.

The facility, which has been in development for several months will make the company one of the major players in the production of airline revenue in Australia.

The NTC will be a fully integrated in-house ticketing unit for members of The Jetset Travelworld Group, offering an exclusive range of benefits. For example, the extensive NTC airfare data base - acknowledged as one of the most comprehensive in the business - will be available to Jetset Travelworld members only.

Group General Manager for Jetset Travelworld, Carl Frier, says the financial benefits alone are "unequaled in the business".

"NTC will offer credit facilities for approved members, commissions will be paid at source and there will also be attractive savings on current consolidation net fares," says Frier.

NTC will not only provide a unique airfare data base for The Jetset Travelworld Group, but a facility to meet the ticketing needs of non-accredited agents as well as accredited, catering for all fare types currently issued by third party sources.

"This is a very exciting step forward in ensuring The Jetset Travelworld Group is recognised for the volume it is clearly capable of producing," says Carl.

Yours faithfully

Stephen F Heesh  
Company Secretary
