

Appointment of Head of Commercialisation

Perth, Australia; 13 December 2022:

Hiremii Group (ASX: HMI) is pleased to announce the appointment of Mr Leon Morgan as the company Head of Commercialisation with immediate effect.

Leon has spent over a decade as a sales and marketing leader, with the last 5 years working on commercialisation strategy and execution for data science, technology, and SaaS products. Leon is responsible for strategic sales and commercialisation across the technology arm of Hiremii throughout Australia, New Zealand and Asia Pacific. Having worked in start-up, scale up and large enterprise organisations, Leon brings a wealth of leadership, business development, and commercialisation experience to Hiremii. Leon joins from Idoba, an innovative data analytics and transformation organisation, bringing valuable experience as Hiremii seeks to rapidly expand our market penetration during 2023.

Hiremii Ltd Managing Director & CEO, Andrew Hornby, said: “We welcome Leon to our expanding team at a very exciting time for Hiremii Technology. As we turn our attention to the deployment of our products and commercialisation early in 2023, his go-to-market expertise will be an invaluable addition”.

ENDS

This announcement has been authorised for release by the Managing Director of the Company.

ABOUT HIREMII

Hiremii Limited (ASX: HMI) is a technology-driven full-service recruitment company with two core business components; Hiremii Technology, a cloud-based platform which uses machine learning and artificial intelligence to automate and improve recruitment and onboarding processes, pre-vetting and shortlisting candidates based on employers’ specific requirements, and Inverse Group, a growing recruitment business that provides specialist white collar recruitment services to the energy, resources and technology sectors.
