REVIEW OF OPERATIONS

Principal Activities

The Company continually seeks and reviews growth opportunities including the acquisition of additional royalties.

The Macquarie Bank Facility provides a potential source of funding for further growth.

The Company has royalties over 20 oil and gas permits in Australia, over 2,000 wells in the USA and is the operator of four geothermal permit interests. In the HY20 period, 7 royalties were generating income for the Company with some royalties on exploration permits expected to provide income in due course (subject to discovery and development) with the potential for additional revenue from development resulting in increased production on existing areas.

Results from Operations

The net loss after providing for income tax for the half year ended 31 December 2019 amounted to \$42,610 (2018: \$177,123).

Performance throughout the Period

Revenue from non-operated royalty income throughout the half-year ended 31 December 2019 increased to \$293,930 (2018: \$294,007) which was due to the acquisition of Planet Gas USA, Inc and the associated royalties held within that company.

The company ended the half year with a cash balance of \$516,269 (June 2019: \$1,045,908).

REVIEW OF OPERATIONS CONTINUED

Royalties

High Peak continued to manage the diverse portfolio of royalty interests which includes the following:

Permit / Location	Royalty Interest (%)	Operated By
PL 171 and ATP 574P	2.50	Queensland Gas/BG Group/ Shell
ATP 299P Petroleum Leases: PL29, PL38, PL39, PL52, PL57, PL95, PL169, PL170, PL293, PL294, PL295 and PL298	3.6/4.0	Santos
Peat Gas Field (PL101)	2.13	Origin Energy
Surprise Oil Field (PL6)	1.00	Central Petroleum
Longtom Gas Field (VIC/L29)	0.30	Seven Group Holdings

HIGH PEAK ROYALTIES LIMITED

CONDENSED NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2019

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

These condensed general purpose financial statements represent those of High Peak Royalties Limited ("High Peak") for the interim half-year reporting period ended 31 December 2019 and its controlled entities (the "consolidated group" or "group") and have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'. The separate financial statements of the parent entity, High Peak Royalties Limited, have not been presented within this financial report pursuant to the Corporations Act 2001.

These condensed general purpose financial statements do not include all the notes of the type normally included in annual financial statements. These financial statements are to be read in conjunction with the annual report for the year ended 30 June 2019 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

The financial statements were authorised for issue in accordance with a resolution of directors on 13 March 2020.

(b) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some, or all, of the facility will be drawn down. There were no establishment fees charged to the Company on assumption of the facility.

(c) Leases

The directors have assessed the requirements of AASB 16 Leases and concluded that there are no leases, real or implied that require to be considered. As such, there is no impact as a result of this Standard.

(d) Critical accounting estimates and judgements

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the entity.

Key Estimates

Impairment

The entity assesses impairment at each reporting date by evaluating conditions specific to the entity that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

HIGH PEAK ROYALTIES LIMITED

CONDENSED NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2019

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recoverability of exploration and evaluation costs

The Company assesses the recoverability of the carrying value of capitalised exploration and evaluation costs at each reporting date (or at closer intervals should the need arise). In completing this assessment, regard is had to the Company's intentions with regard to proposed future exploration and development plans for individual exploration areas, to the success or otherwise of activities undertaken in individual areas in recent times, to the likely success of future planned exploration activities, and to any potential plans for divestment of individual areas. Any required adjustments to the carrying value of capitalised exploration are completed based on the results of this assessment.

Intangible assets – royalty rights

Intangible assets acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. There is significant judgement required on the part of the Management and the Board in determining whether there are any impairment indicators with regards to royalty rights. To this extent they have considered the high level financial indices, the exploration activities of the underlying assets, the current market conditions, the political climate in the jurisdiction in which the assets exists, as well as numerous other factors when considering asset impairments. Management and the Board have determined that there were no impairment indicators for any of the individual underlying assets, and consequently it has not been necessary to fair value any of the intangible assets using a value-in-use model.

Provision for Site Rehabilitation and Contingent Liabilities

The Company has an existing well stock of 21 wells for which it may be liable for rehabilitation costs. Whilst the company has provided for an estimate of \$200,000 for these costs in its financial statements, it can be difficult to reliably estimate these future costs, and there may be a possibility that the actual costs are greater than the amount that has been provided.

High Peak has continued to estimate the cost to rehabilitate the 21 wells at \$200,000 and consequently, the provision has remained unchanged from the prior year. The actual amount of the ultimate cost of rehabilitation is often negotiated with the relevant Regulatory Authority of the State in which the Company operated (to date only South Australia). The original range of the estimate disclosed in the Prospectus when the company listed in 2014 was between \$200,000 and \$1,150,000 which was based on internal and external sources.

Management and the Board are of the opinion the costs to rehabilitate the wells will not exceed \$200,000. Given the potential range of the expected costs, management have disclosed the additional potential liability of \$950,000 as a contingent liability in Note 8 of the financial statements. It is important to note that in the event the liability exceeds the amount provided for, the effect on the profit and loss will initially be nil due the fact that the cost to restore the site will initially be capitalised into the cost of the asset and then re-assessed for potential impairment.

(e) New and revised accounting requirements applicable to the current half- year reporting period

There were no new or revised Accounting Standards and Interpretations in the current half-year reporting period.

2. SEGMENT NOTE

Management has determined the operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions. The entity does not have any operating segments with discrete financial information.

The Group operates in one business and two geographical segments, being the acquisition of royalty and exploration interests in oil and gas assets predominately in Australia and the USA.

Information reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance focuses on the performance of individual royalty rights held.

HIGH PEAK ROYALTIES LIMITED

CONDENSED NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR

ENDED 31 DECEMBER 2019

2. SEGMENT NOTE (CONTINUED)

Whilst the Company has a number of Geothermal and Oil and Gas exploration permits these are inactive assets and are considered non-core to the operations of the entity. Throughout the year there was no material movement to expenditure or capital paid on these permits and the Group considers its operations to focus solely on the operation and exploitation of proceeds from royalty rights.

HIGH PEAK ROYALTIES LIMITED

CONDENSED NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR

ENDED 31 DECEMBER 2019

3. FINANCIAL ASSETS

In the absence of an active market for an identical asset or liability, the Group selects and uses one or more valuation techniques to measure the fair value of the asset or liability. The Group selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured.

Recurring Fair Value Measurement Amounts and the Level of the Fair Value Hierarchy within which the Fair Value Measurements are categorised as follows:

	Fair Value Measurements Using:		
	Quoted Prices in Active Markets for Identical Assets	Significant Observable Inputs	Significant Unobservable Inputs
	\$	\$	\$
	(Level 1)	(Level 2)	(Level 3)

Investment in options of a listed corporation	-	2,927	-

On 16 December 2019, the Company accepted an offer from Fitzroy River Corporation Limited to purchase the holding in Royalco Resources Limited. The sale price was \$1,312,908 with no fees and was taken to be a receivable at that date due to the binding nature of the offer and acceptance.

There were no transfers between levels during the financial period.

Foreign exchange movement on opening balance	4,303	-
Closing balance	11,948,659	12,051,736

Where necessary, the recoverable amount of each royalty interest above for the purposes of testing for impairment was historically determined based on value-in-use calculations. Where measurable, the value-in-use is calculated based on the present value of cash flow projections over a 10 year period or expected life of project (whichever is longer) with the period extending beyond 12 months extrapolated using an estimated growth rate. The cash flows were discounted to account for the time value of money and project variability. For other assets where projected cash flows were more difficult to measure due to their stage of development, value-in-use was based on observable inputs and market transactions or recent activity. Management and the Board determined that there were no impairment indicators in the year under review and consequently no value-in-use modelling was done in this year.

The following key assumptions were used in the historical value-in-use calculations:

- Growth Rate: expected forward production curve of underlying assets as applicable
- Discount Rate: 10%
- Oil Price: \$68/BBL USD (2018) then 5 year forward curve
- Gas Price: \$2.85gj USD

Where able, management based the value-in-use calculations on budgets for each royalty interest. These budgets used production and volume-related growth rates to project revenue that was linked to the underlying proven and probable resource estimates and reserves of the underlying assets. Costs were calculated taking into account historical gross margins as well as estimated weighted average inflation rates over the period. Discount rates were pre-tax and were adjusted to incorporate risks associated with a particular royalty interest. Management had estimated the production start date for royalty interests that had not yet commenced producing.

5. INTANGIBLE ASSETS (CONTINUED)

Amortisation of intangible assets

Amortisation is recognised under two methods:

1. The units of production method, which is calculated based on the annual production of a royalty interest and is apportioned over its total proven and probable reserves and;
2. The straight line basis method, which is calculated over the estimated field life of the asset.

Impairment of intangible assets

The Group reviews its intangible assets for impairment each reporting period.

The Group has not found anything to indicate that any royalty interests are impaired.

6. BORROWINGS

	31 December 2019	30 June 2019
	\$	\$
Bank loan facility – current portion	356,837	356,481
Bank loan facility – non-current portion	2,141,022	2,495,366
	2,497,859	2,851,847
Movements in Carrying Amounts		
Opening balance	2,851,847	-
Additions ¹	-	3,886,425
Less		
Repayments	(353,988)	(1,069,442)
Impact of foreign exchange	-	34,864
Closing balance	2,497,859	2,851,847

¹ On 7 December 2018, the Company wholly acquired the assets of Planet Gas USA, Inc. The acquisition involved the assumption of Planet Gas USA, Inc's Macquarie Bank Loan facility which at the time of the acquisition was AU\$3,886,425 in drawn balance. The total loan facility has a ceiling of US\$15 million. Key terms of the facility are as follows:

- Total US \$15,000,000 (AUD: \$21,150,000) facility
- Facility Fees:
 - Interest charged: Libor plus 5.5%
- No other facility fees
- Standard parent company guarantees
- Term: three years (from completion on 7 December 2018)

7. ISSUED SHARE CAPITAL

Fully paid ordinary share capital

	31 December 2019		30 June 2019	
	No. of shares	\$	No. of shares	\$
Ordinary shares				
At the beginning of the period	188,956,399	27,726,590	163,956,399	26,542,249
Shares issued (net of costs)	-	-	25,000,000	1,184,341
Share buy-back programme	-	-	-	-
At the end of the financial period	188,956,399	27,726,590	188,956,399	27,726,590

HIGH PEAK ROYALTIES LIMITED

CONDENSED NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2019

7. ISSUED SHARE CAPITAL (CONTINUED)

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

8. CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Contingent Assets

The Company has the right to all income from all royalties owned as detailed at Note 5.

With respect to the contingent commitment to make payment on receipt of royalties from PL171 and ATP574, the Company also acknowledges its contingent right to the receipt of royalty income from these permits, and for that matter all other royalty interests owned.

There are no other contingent assets as at 31 December 2019.

Contingent Liability

The Company has an existing well stock of 21 wells for which it may be liable for rehabilitation costs. High Peak has continued to estimate the cost to rehabilitate the 21 wells at \$200,000 and consequently, the provision has remained unchanged from the prior year. The original range of the estimate disclosed in the Prospectus when the company listed in 2014 was between \$200,000 and \$1,150,000 which was based on internal and external sources.

Given the potential range of the expected costs, management have disclosed this additional potential liability of \$950,000 as a contingent liability. It is important to point that in the event the liability exceeds the amount provided for, the effect on the profit and loss will initially be nil due the fact that the cost to restore the site will initially be capitalised into the cost of the asset and then re-assessed for potential impairment.

Pursuant to the originating agreement dated 5 December 2009, Phoenix Oil and Gas is obliged to pay, \$1,000,000 within 30 days of commercial production from PL 171. Under the same agreement, Phoenix Oil and Gas is also obliged to pay, \$1,000,000 within 30 days of commercial production from ATP 574P.

Commercial production in both instances is defined as when the first royalty payment is received from the operator of the permit as a result of gas sales from that permit.

At balance date commercial production is not foreseeable within the coming financial year.

There are no guarantees or commitments other than those mentioned in the financial report.

9. SUBSIDIARIES

Details of the Company's subsidiaries at 31 December 2019 are as follows:

Name of subsidiary	Place of incorporation	Proportion of ownership interest and voting power held	
		31 December 2019	30 June 2019
Torrens Energy (SA) Pty Ltd	Australia	100%	100%
Phoenix Oil and Gas Ltd	Australia	100%	100%
Oil & Gas Royalties Pty Ltd	Australia	100%	100%
HPR USA Inc.	United States of America	100%	100%
Planet Gas USA, Inc.	United States of America	100%	100%

10. SUBSEQUENT EVENTS

There were no significant events subsequent to balance date.

HIGH PEAK ROYALTIES LIMITED

DIRECTORS' DECLARATION

The Directors of High Peak Royalties Limited declare that:

- (a) in the directors' opinion, there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable;
- (b) in the directors' opinion, the attached financial statements are in compliance with International Financial Reporting Standards, as stated in Note 1 to the financial statements;
- (c) in the directors' opinion, the attached financial statements and notes as set out on pages 6 to 17 comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements.

Signed in accordance with a resolution of the directors made pursuant to s303 (5) (a) of the Corporations Act 2001.

INDEPENDENT AUDITOR'S REVIEW REPORT
TO THE MEMBERS OF
HIGH PEAK ROYALTIES LIMITED

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of High Peak Royalties Limited which comprises the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2019 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of High Peak Royalties Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations act 2001*, which has been given to the directors of High Peak Royalties Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of High Peak Royalties Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2019 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
