Dear Sir

Short Film Post Produced by Swish Group wins Best Australian Short Film

Swish Group is pleased to announce that the film "My Sister" which was post produced by Swish Media, a wholly owned subsidiary of the Swish Group has been awarded Best Australian Short Film at the Melbourne International Film Festival and has received an Australian Film Industry ("AFI") Award nomination for best cinematography.

Swish Group carried out the digital post production and visual effects work on the film using its innovative digital intermediate process. The digital intermediate process essentially replaces several stages of the traditional laboratory photochemical process with high resolution digital image scanning, colour manipulation and laser recording. This process significantly speeds up and lowers the costs of the post production process for feature films.

Swish Group's digital intermediate process which is rapidly becoming the preferred means of post production in the United States is also currently being used by Swish Media for post production and visual effects on the Australian feature film "The Extra" starring Jimeon and Kristy Hinze.

Managing Director of Swish Group Cary Stynes said the award for "My Sister" of Best Australian Short Film and the AFI award nomination for best cinematography is a testament to the quality of the work being carried out by Swish Media and a significant endorsement of the advanced digital intermediate process being utilized by the Company for the post production of feature films.
