Dear Sir

AGREEMENT WITH CONNEX FOR DIGITAL SIGNAGE NETWORK

Swish Group is pleased to announce that it has been selected by major transport group Connex to provide advice and install a Digital Signage network at Flinders Street railway station. This Digital Signage network is likely to be rolled out to further stations in the Connex rail network in the future.

The Digital Signage network will, when established, deliver a range of travel related information including train timetables and information relevant to commuters on large LCD screens that will be installed throughout Flinders Street Station.

The engagement by Connex follows the Company's recent engagement by the Federation Square authority in Melbourne for the development and supply of a Digital Signage network for the exterior of Federation Square.

It is not possible at this stage to determine the precise revenue and earnings impact on the Company from securing this project but the engagement is likely to be significant in terms of its future potential.

The selection of Swish Group by Connex reinforces the Company's position as Australia's pre-eminent digital signage company.

Yours faithfully

Cary Stynes
Managing Director
