About Hazer Group Ltd

Hazer Group is an Australian technology company, driving global decarbonisation efforts with the commercialisation of the company's disruptive world-leading climate-tech. Hazer's advanced technology enables the production of clean and economically competitive hydrogen and high-quality graphite, using a natural gas (or biogas) feedstock and iron-ore as the process catalyst.

Hazer Group Limited - Social Media Policy

Hazer Group Limited is committed to communicating with the investment community through all available channels. Whilst ASX remains the prime channel for market-sensitive news, investors and other interested parties are encouraged to follow Hazer on X (Twitter) (@hazergroupltd), LinkedIn, Facebook, and YouTube. Subscribe to HAZER NEWS ALERTS - visit our website at www.hazergroup.com.au and subscribe to receive HAZER NEWS ALERTS, our email alert service. HAZER NEWS ALERTS is the fastest way to receive breaking news about @hazergroupltd.

Forward-looking Statements

This announcement may contain certain "forward-looking statements" which may not have been based solely on historical facts but are based on the Company's current expectations about future events and results.

Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward-looking statements are subject to risks, uncertainties, assumptions, and other factors, which could cause actual results to differ materially to futures results expressed, projected, or implied by such forward looking statements.

The Company does not undertake any obligation to release publicly any revisions to any "forward-looking statements" to reflect events or circumstances after the date of this announcement, or to reflect the occurrence of unanticipated events, except as may be required under the applicable securities laws.

Disclaimer

Important information This presentation has been prepared by Hazer Group Limited ("Hazer" or "the Company")

Summary Information This document contains a summary of information about Hazer Group Limited and its activities that is current as at the date of this document unless otherwise stated. The information in this document is general in nature and does not contain all the information which a prospective investor may require in evaluating a possible investment in Hazer or that would be required in a prospectus or a product disclosure statement prepared in accordance with the Corporations Act 2001 or the securities laws of any other jurisdiction. The information in this document should be read in conjunction with the Company's other periodic and continuous disclosure announcements lodged with the ASX.

No Liability The information contained in this document has been prepared in good faith by the Company however no guarantee, representation or warranty expressed or implied is or will be made by any person (including the Company and its affiliates and their directors, officers, employees, associates, advisers and agents) as to the accuracy, reliability, correctness, completeness or adequacy of any statements, estimates, options, conclusions or other information contained in this document. No person other than the Company is responsible for the preparation of this document. To the maximum extent permitted by law, the Company and its affiliates and their directors, officers, employees, associates, advisers and agents each expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of or reliance on information contained in this document including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions, forecasts, reports or other matters, express or implied, contained in, arising out of or derived from, or for omissions from, this document including, without limitation, any financial information, any estimates, forecasts, or projections and any other financial information derived therefrom. Statements in this document are made only as of the date of this document unless otherwise stated and the information in this document remains subject to change without notice. No responsibility or liability is assumed by the Company or any of its affiliates (or their directors, officers, employees, associates, advisers and agents) for updating any information in this document or to inform any recipient of any new or more accurate information or any errors or mis descriptions of which the Company and any of its affiliates or advisers may become aware.

Financial data All amounts are in Australian Dollars (AUD) unless otherwise indicated. A number of figures, amounts, percentages, estimates, calculations of values and fractions in this presentation are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures set out in this presentation. Readers should be aware that a number of terms used in this presentation including ROI, NPV, net cash generation, operational cash expenditure, IRR and actual and budgeted commitments are categorised as non-IFRS information prepared in accordance with ASIC Regulatory Guidance 230 (Disclosing non-IFRS financial information), nor does it purport to be. This information has not been audited and is based on management estimates and not on financial statements prepared in accordance with applicable statutory requirements. Accordingly, readers should treat this information with appropriate caution. This information is for illustrative purposes only. This non-IFRS financial measures do not have a standardised meaning prescribed by Australian International Financial Reporting Standards (AIFRS) or the Australian Accounting Standards (AAS) and, therefore, may not be comparable to similarly titled measures presented by other companies, nor should they be construed as an alternative to other financial measures determined in accordance with AIFRS. Moreover, the disclosure of such non-IFRS financial measures in the manner included in this Presentation and the announcement to which it is attached may not be permissible in a registration statement under other securities acts. Although the Company believes that these non-IFRS / non-GAAP financial measures assist in providing additional meaningful information to readers in measuring the financial performance and condition of the Company's business and underlying drivers, readers are cautioned not to place undue reliance on any non-IFRS / non-GAAP financial measures included in this Presentation and the announcement to which it is attached.

Forward Looking Statements Statements contained in this document or made during or in connection with this presentation, including but not limited to those regarding the possible or assumed future production, costs, projected timeframes, performance, dividends, returns, revenue, exchange rates, potential growth of Hazer, industry growth, commodity or price forecasts, or other projections and any estimated company earnings are or may contain or comprise forward looking statements. Forward looking statements can generally be identified by the use of words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'anticipate', 'believe', 'estimate', 'may', 'should', or similar expressions. Forward looking statements including all statements in this presentation regarding the outcomes of preliminary and definitive feasibility studies, projections, guidance on future earnings and estimates are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, these statements relate to future events and expectations and as such involve known and unknown risks and significant uncertainties, many of which are outside the control of the Company. Actual values, achievements, results, performance, actions and developments of the Company may differ materially from those projected, expressed or implied by the forward-looking statements in this document. Such forward looking statements speak only as of the date of this document. There can be no assurance that actual outcomes will not differ materially from these statements. To the maximum extent permitted by law, the Company and any of its affiliates and their directors, officers, employees, agents, associates and advisers disclaim any obligations or undertaking to release any updates or revisions to the information in this document to reflect any change in expectations or assumptions do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward looking statement or any event or results expressed or implied in any forward looking statement and disclaim all responsibility and liability for these forward looking statements (including without limitation, liability for negligence). Nothing in this document will under any circumstances create an implication that there has been no change in the affairs of the Company since the date of this document. Accordingly, you should not place undue reliance on any forward-looking statement.

Not Financial Product Advice This document does not constitute financial product advice or take into account your investment objectives, taxation situation, financial situation or needs. This document consists purely of factual information and does not involve or imply a recommendation of a statement of opinion in respect of whether to buy, sell or hold a financial product. An investment in the Company is considered to be speculative in nature and is subject to known and unknown risks, some of which are beyond the control of the Company. Before making any investment decision in connection with any acquisition of securities, investors should consult their own legal, tax and/or financial advisers in relation to the information in, and action taken on the basis of this document.

Acceptance By attending a presentation or briefing, or accepting, accessing or reviewing this document you acknowledge, accept and agree to the matters set out above.

Authorisation This document has been authorised for release by the Board of the Company.

Q3 FY25 Highlights
Hydrogen market update
Commercial readiness & Scale-up strategy
Projects & pipeline
Corporate update
CY25 Key priorities
Q&A

Q3 FY25 Highlights

Q3 FY25 Highlights: Advancing commercialisation

Commercialise

- Hazer technology confirmed as commercial-ready following detailed CDP evaluation
- Lloyds Register provides independent verification of process and operational stability

Scale-up

- Canada Project advances with successful reactor test program
- Advanced development of large-scale (20ktpa+) commercial reactor program

Corporate

- Well-funded with \$12.6mln* of secured funding; strengthen by grant proceeds and FortisBC revenues
- Awarded significant patents in the United States and Japan for the Hazer Process

CDP Site at sunrise – Perth, Australia

*\$12.6mln comprises - \$10.3mln of cash (31st March 25) and remaining \$2.3mln LCG funds

Executing scale-up strategy in hard-to-abate sectors

HazerGroup™

Hazer's Vision

Provide a unique climate technology to transform industry and contribute to a sustainable future for the next generation

Hydrogen Market Update

Global hydrogen market update

Current demand met with a carbon intensive process; steam methane reforming

Global H₂ Demand

97 MTPA

Market Size

US\$
200 billion

Industry CO₂ Emissions

920 MT CO₂

Hydrogen Demand Outlook (Mtpa)

Sources:

IEA - Global Hydrogen Review (2022 / 2024)
DNV - Hydrogen Forecast to 2050 (2022)
IRENA and Methanol Institute – Renewable Methanol (2021)

Industry pivoting towards methane pyrolysis

Hazer a global leader in the methane pyrolysis space

Rising global demand

- 2023 global H₂ demand reached 97Mtpa; 2.5% increase year-on-year
- Consumption concentrated in traditional sectors

Today's hydrogen remains "dirty"

- 95% of global supply is grey H₂ (SMR) with massive CO₂ emissions (10x the H₂ produced)

"Green" H₂: High hopes, slow progress

- <1% of today's production; several high-profile projects stalled
- Hampered by high costs, slow project execution and infrastructure gaps

Industry
Pivoting to
Methane
Pyrolysis

Scalable, Affordable & Ready Now

- Converts gas into clean H₂ and graphite
- Bypasses CO₂ emissions of "grey" (SMR) & inefficiencies of "green"
- Integrates with existing supply chains
- Graphite co-product

Commercial readiness & scale-up strategy

Commercial readiness of the Hazer Process

Extensive evaluation validates Commercial readiness of the Hazer Process

- 2024 test program performance validates technical readiness level
- Independent assessment verifies operational stability & data integrity
- 2025 workplan is focused on Commercial readiness Scale 3 - 5 Activities:
 - Scale-up to >50ktpa
 - Application across multiple industries
 - Widespread deployment

Hazer's strong IP & 2024 operational performance position it to leverage energy efficiency & scalability for commercial success in 2025

CDP Site - Perth, Australia

Accelerating scale-up strategy

Leveraging world class expertise to de-risk and accelerate

- Engineering for the commercial reactor design progressed & Altrad engaged for construction and installation works at the CDP
- Global fluidisation experts Particulate Solids Research Institute (PSRI) engaged to further accelerate scale-up:
 - Internal capability developed through industry leading training
 - Scale-up strategy reviewed and assessed
 - Forward workplan developed to leverage PSRI facilities to further de-risk and accelerate scale-up

Engaging global experts in fluid bed reactor scale-up enables Hazer to accelerate scale-up while reducing associated risk

CDP Site - Perth, Australia

Commercial Projects & Pipeline

Forward momentum at the Canada project

Key performance test results demonstrate Hazer Process viability at FortisBC facility

FortisBC test rig site in BC, Canada

- Commercial reactor test program successfully completed
- Characterisation of heat transfer behaviour over a range of process operating conditions
- Project achieves performance milestones under Government grant funding agreement
- FortisBC site selection progressing with several locations high-graded
- Pre-FID payments received under engineering services agreement

Initial FEED study has been completed, FID is targeted for 2025

Strong and diversified customer pipeline

Existing project portfolio of over 1 million tonne per annum total capacity (~1% of existing demand)

Diversification Reduces Risk

Regions

Key Industry Sectors

Sectors

40+ customer, strategic partnership & investor opportunities

Corporate Update

Global IP portfolio strengthens competitive edge

Strategic patents in key markets to strengthen our commercial opportunities globally

Extensive global patent portfolio

- Key patents awarded in the United States & Japan
- H₂ and graphite production using an iron-ore catalyst and fluidised bed reactor
- Over 70 patents; Secures Hazer technology in key global markets

Corporate focus

Strong liquidity and Government support underpin our commercialisation strategy

- Period of global uncertainty; cost discipline and robust liquidity
- \$10.3mIn cash position (31st March 25) bolstered by non-dilutive grant inflows and revenue
- Lower operating expenses reflect successful CDP testing and efficient standby mode
- Focus on strategic projects and partnerships to capitalize on technology's commercial potential

Federal Parliament House - Canberra, Australia

Active Government engagement to integrate Hazer into Australia's clean energy and critical minerals strategy

2025 strategic priorities – Accelerating to scale

Multiple near-term catalysts to unlock value creation

Commercialising Technology

- 1 Accelerate reactor scale-up to meet demand for large-scale commercial projects
- 2 Unlock value potential in graphite product

Accelerate Scale-up

- 3 Canada definitive license terms for Final Investment Decision
- 4 Progress existing commercial portfolio through FEED

Growth & Monetisation

- 5 Secure strategic partnerships to accelerate project delivery
- 6 Continue to assess new licensing deals and other strategic opportunities

Lean organisation, continuous improvement culture and strong financial strategy

Investment case

CDP Site - Perth, Australia
