Directors Report

Identitii Limited

For the half-year ended 31 December 2019

The Directors present their report together with the financial statements of the Group comprising Identitii Limited (the Company) and its subsidiary for the half-year ended 31 December 2019 and the auditor's report thereon. This financial report has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

Directors

The Directors of the Company at any time during the half-year ended 31 December 2019 and up to the date of this report are:

Name and independence status	Period of directorship
Executive	
Mr. Nicholas Armstrong <i>Chief Executive Officer</i>	
Non-Executive	
Mr. Michael Philip Aston <i>Independent Non-Executive Director</i> <i>Chairman</i>	
Mr. Peter Lloyd <i>Independent Non-Executive Director</i>	
Mr. Martin Rogers <i>Non-Executive Director</i>	Resigned 8 October 2019
Mr. Nathan Lynch <i>Non-Executive Director</i>	Appointed 9 December 2019

Review of operations

During the half-year ended 31 December 2019, the Group achieved the following operational milestones:

- On 30 July 2019, the Group announced the signing of a non-exclusive perpetual licence agreement with Loot Financial Services Limited (Loot) allowing the Group to use Loot's fully developed user facing mobile and web applications with no ongoing financial or non-financial commitments. Customisation of this application is currently in development.
- On 20 August 2019, the Group announced the signing of a new licence agreement to provide its Overlay+ platform to HSBC Australia, representing the commercialisation of a new use case for the Overlay+ technology, in regulatory reporting. This is the second licence agreement under the Global Framework Agreement with HSBC.
- In September, the Group was selected by the Australian Competition and Consumer Commission (ACCC) to test the Consumer Data Right (CDR) ecosystem. The testing is progressing with the ecosystem due to launch in July 2020.

Directors Report

Identitii Limited

For the half-year ended 31 December 2019

Review of operations (continued)

- On 13 November 2019, the Group announced its new partnership with Symphony to facilitate the integration of its Overlay+ platform with Symphony's global financial markets collaboration platform tool. This partnership led to the successful completion of an eight week pilot with Standard Chartered Bank (SCB), allowing SCB's corporate customers to share information securely via their Symphony instance.
- In December, the Group and R3 launched a global multi-bank ISO 20022 CorDapp trial across R3's global ecosystem, with the trial due to commence in the second half of the current financial year.

In the six months to 31 December 2019, the Group continued to expand the 'pipeline' of business in development. The flexibility of the Overlay+ platform to meet customer requirements, integrating with existing infrastructure and developing opportunities, such as the R3 CorDapp trial, is key to this growth.

Significant changes in the state of affairs

In the opinion of the Directors there were no other significant changes in the state of affairs of the Group that occurred during the half-year ended 31 December 2019.

Events subsequent to reporting date

On 3 February 2020 the Company was placed in a trading halt pending the release of an announcement regarding an equity raise. The Company was subsequently placed into voluntary suspension and continues to remain in voluntary suspension as at the date of this report, whilst it prepares a short form prospectus required to complete the equity raise.

Other than noted above, there has not arisen in the interval between the end of the period and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect significantly in future financial years the operations of the Group, the results of those operations, or the state of affairs of the Group.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 5 and forms part of the Directors' report for the half-year ended 31 December 2019.

Rounding of Amounts to the Nearest Dollar

In accordance with *ASIC Corporations (Rounding of Financial/Directors' Reports) Instrument 2016/191*, the amounts in the Directors' Report and half-year financial statements have been rounded to the nearest dollar.

This Directors' report is signed in accordance with a resolution of the Board of Directors:

Notes to the Consolidated Financial Statements

Identitii Limited

For the half-year ended 31 December 2019

1. Reporting entity

Identitii Limited (the "Company") is a Company incorporated and domiciled in Australia and whose shares are publicly traded on the Australian Securities Exchange (ASX:ID8). The registered office and principal place of business is Level 2, 129 Cathedral Street, Woolloomooloo, NSW 2011. These consolidated financial statements comprise the Company and its subsidiary (together referred to as the Group).

The Group is a for profit entity and is primarily involved in developing and licensing enterprise software for financial services and banking institutions. Its main product Overlay+ is an application that enables the secure and trusted exchange of information over financial networks using a secure private blockchain.

The financial statements are presented in Australian dollars, which is the Group's functional and presentation currency.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 21 February 2020

2. Basis of preparation

These general purpose financial statements for the interim half-year reporting period ended 31 December 2019 have been prepared in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*, as appropriate for for-profit orientated entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2019 and any public announcements made by the Group during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

Going concern

The financial report has been prepared on the going concern basis which contemplates the continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business and assumes the Group will have sufficient cash resources to pay its debts as and when they become due and payable for at least 12 months from the date of signing the financial report.

The statement of profit or loss and other comprehensive income for the half-year ended 31 December 2019 reflects a loss after income tax of \$4,131,697, and total cash outflows from operating activities of \$2,883,429. The ability of the Group to continue as a going concern is dependent on a number of factors, the most significant of which is the ability to source additional funding.

These factors indicate a material uncertainty which may cast significant doubt as to whether the Company will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

Notes to the Consolidated Financial Statements

Identitii Limited

For the half-year ended 31 December 2019

2. Basis of preparation (continued)

The directors believe that it is reasonably foreseeable that the Company will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after considering the following:

- The Group is in the process of raising additional funds through equity investment, which is expected to raise at least \$2.0 million. A short form prospectus is expected to be lodged during February 2020.

Consequently, the Directors have concluded there are reasonable grounds to believe that the Group will continue to be able to pay its debts as and when they become due and payable for a period of no less than 12 months from the date of signing this financial report and that the preparation of the 31 December 2019 half-year financial report on a going concern basis is appropriate.

The financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the Company does not continue as a going concern.

3. Significant accounting policies

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted. The following Accounting Standards and Interpretations are most relevant to the Group:

AASB 16 Leases

The Group has adopted AASB 16 from 1 July 2019. The standard replaces AASB 117 'Leases' and for lessees eliminates the classifications of operating leases and finance leases. Except for short-term leases and leases of low-value assets, right-of-use assets and corresponding lease liabilities are recognised in the statement of financial position. Straight-line operating lease expense recognition is replaced with a depreciation charge for the right-of-use assets (included in operating costs) and an interest expense on the recognised lease liabilities (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However, EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results improve as the operating expense is now replaced by interest expense and depreciation in profit or loss. For classification within the statement of cash flows, the interest portion is disclosed in operating activities and the principal portion of the lease payments are separately disclosed in financing activities. For lessor accounting, the standard does not substantially change how a lessor accounts for leases.

Notes to the Consolidated Financial Statements

Identitii Limited

For the half-year ended 31 December 2019

3. Significant accounting policies (continued)

(a) Impact on financial statements

i. Impact on transition

On transition to AASB 16, the Group recognised additional right-of-use assets and lease liabilities, recognising the difference in retained losses. The impact on transition is summarised below.

	1 July 2019 \$
Right-of-use assets: property, plant and equipment	656,227
Lease liabilities – AASB 16	(715,679)
Lease liabilities – reversal of previous property lease incentive liability	30,253
Retained losses	29,199

When measuring lease liabilities for leases that were classified as operating leases, the Group discounted lease payments using the interest rate implicit in the lease at 1 July 2019. The weighted average rate applied is 5.6%.

	1 July 2019 \$
Operating lease commitments at 30 June 2019 as disclosed under AASB 17 in the Group's consolidated financial statements	851,469
- exemption for leases with less than 12 months of lease term at transition	(24,416)
	827,053
Discounted using the interest rate implicit in the lease at 1 July 2019	715,679
Lease liabilities recognised at 1 July 2019	715,679

(b) Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Group expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

Notes to the Consolidated Financial Statements

Identitii Limited

For the half-year ended 31 December 2019

3. Significant accounting policies (continued)

The Group has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

(c) Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised as the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentive receivables, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Intangible assets

Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

4. Operating segments

An operating segment is a component of the Group

- that engages in business activities from which it may earn revenues and incur expenses (including revenue and expenses relating to transactions with the Group's other components), and
- whose operating results are reviewed regularly by the Group's chief operating decision maker for the purpose of making decisions about allocating resources to the segment and assessing its performance.

The Group currently has one reportable segment, which develops and licenses enterprise software for financial services and banking institutions. The revenues and profits generated by the Group's operating segment and segment assets are summarised below:

5. Revenue

The Group generates revenue primarily from the licensing of enterprise software to financial institutions and the provision of professional and maintenance services to its customers.

i. Performance obligations and revenue recognition policies

Under its contracts, the Group grants a licence to the customer for the use of its software product. The contract will specify the term of the licence, the jurisdictions in which the licence may be utilised and protocols to be followed to extend the licence beyond the agreed licence term.

The contracts also facilitate the provision of certain software, training, maintenance, customisation and configuration or other services from the Group in consideration for the payment of fees. The customer is granted, for the term of each contract, a non-exclusive, perpetual, irrevocable and royalty-free licence to use the software in a specific use case. The Group retains all rights, title and interest in the intellectual property of the software.

The Group is currently recognising revenue under these contracts for licence fees, maintenance fees, usage fees and professional services, each regarded as a separate performance obligation. Revenue is measured based on the consideration specified in the contract and is recognised when the Group transfers control over the product or service to its customer. Charges are determined by a number of factors including transaction volume, customisation requirements, ongoing support and maintenance and new feature releases. Pricing changes for each renewal term are to be mutually agreed in writing.

The following table provides information about the nature and timing of the satisfaction of performance obligations in its contracts with customers including the related revenue recognition policies.

Product and services	Nature and timing of satisfaction of performance obligations
Licence fees	The contracts require the Group to undertake maintenance and software enhancement activities throughout the licence period that significantly affects the intellectual property (IP) to which the customers have rights. The nature of the Group's performance obligation in granting a licence is regarded as a right to access the IP and thus the Group recognises licence fee revenue over time. Licence fee revenue is recognised in equal monthly instalments from the date the licence is first transferred and for the term of the contract. The licence fee is a fixed annual fee as specified in the contract. There remains \$453,889 in relation to contracted licence fees for which no revenue or deferred revenue has been recognised as the performance obligations have not been met as at 31 December 2019.

5. Revenue (continued)

Product and services	Nature and timing of satisfaction of performance obligations
Maintenance fees	Maintenance (software, equipment and hosted services maintenance) is to be provided to customers on an ongoing basis from the date the licence is first transferred and throughout the term of the contract. The maintenance fee is a fixed annual fee as specified in the contract. Under AASB 15, the performance obligation to provide maintenance services is first met upon transfer of the licence and is ongoing throughout the term of the contract. The total maintenance fee revenue to be billed under the contract is recognised in equal monthly instalments over time from the date the licence is first transferred. There remains \$22,647 in relation to contracted maintenance fees for which no revenue or deferred revenue has been recognised as the performance obligations have not been met as at 31 December 2019.
Usage fees	Usage fee revenue is determined by the number of successful transactions (as defined in the contract) and is based on information provided to the Group by the customer. Usage fees are recognised only when the later of the usage occurs and the licence fee obligation has been satisfied. Usage fees are variable fees and may be subject to an annual cap as specified in the contract. The Group recognises usage fee revenue over time based on when the usage occurs.
Professional services (including setup, training and other support costs)	Professional services include setup, training and support costs as well as individual customisation projects that are separate and distinct performance obligations. The Group recognises revenue at a point in time based on time and materials incurred in delivering the product and services to its customers as per the terms and prices specified in the contract. Invoices are generated on confirmation of product and service delivery and revenue is recognised at that point in time. There remains \$656,275 in relation to contracted professional services for which no revenue or deferred revenue has been recognised as the performance obligations have not been met as at 31 December 2019.

Where revenue is billed in advance, a contract liability is recognised and amortised over the period of the invoice. Where revenue is billed in arrears, a contract asset is recognised at the time of revenue recognition and transferred to trade receivables when the invoice is generated.

5. Revenue (continued)

Warranties, returns and refunds

The warranty period will run from the licence start date and over a specified period of time. Under the warranty period the Group undertakes that the product and services supplied are of satisfactory quality and fit for purpose, free from defects in design, operate in accordance with the contract and that appropriate master copies are maintained by the Group.

In the event of an unresolved third party intellectual property rights claim, customers may elect to return all deliverables under the contract and be refunded in full for all charges paid by the customer to date. Revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Due to the absence of any third party intellectual property rights claims during the current and prior period, no adjustment has been made to revenue recognised during the period for expected returns.

Customers may terminate or partially terminate the contract by written notice to the Group. Customers shall be entitled to a pro-rata refund of fees paid in advance of the termination date unless termination by the customer is for no reason. Due to the absence of any such written notices to the Group during the current and prior period, no adjustment has been made to revenue recognised during the period for expected refunds on termination.

ii. Disaggregation of revenue

In the following table, revenue is disaggregated by nature of product and service and is done so in conjunction with the Group's reporting segment.

<i>For the half-year ended 31 December</i>	Enterprise Software Development and Licensing	
	2019	2018

5. Revenue (continued)

Contract liabilities primarily relate to the billing of revenue in advance in relation to revenue which is recognised over time

Contract assets primarily relate to the Group's right to consideration for work completed but not billed at the reporting date.

An amount of \$28,477 was recognised in contract liabilities on 1 July 2019, in relation to licence fees and has been recognised as revenue for the half-year ended 31 December 2019.

An amount of \$5,948 was recognised in contract liabilities on 1 July 2019, in relation to maintenance fees and has been recognised as revenue for the half-year ended 31 December 2019.

No information has been provided about remaining performance obligations at 31 December 2019 that have an original expected duration of one year or less, as allowed by AASB 15.

6. Income tax expense

The Group is in a net tax loss position and does not recognise a deferred tax asset. During the comparative period, the Group received a government grant from Accelerating Commercialisation Australia which was treated as assessable income for tax purposes. The Company also claims the Research and Development Tax Incentive and therefore is required to pay tax on the gross amount of Grant Income received, taxed at a concessional rate of 10%.

7. Loss per share

Holders of ordinary shares are entitled to dividends as declared from time to time and are entitled to one vote per share at general meetings of the Company.

Issue of ordinary shares

No ordinary shares were issued during the half-year ended 31 December 2019.

Nature and purpose of reserves

The share options reserve comprises the cost of the Company shares issued under the Group's share based payment plans. Refer to Note 12.

The foreign currency translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

11. Related parties

Transactions with key management personnel

A number of KMP, or their related parties, hold positions in other entities that result in them having control, or joint control, over the financial or operating policies of that entity.

A number of these entities transacted with the Group during the period. The terms and conditions of the transactions with KMP and their related parties were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-KMP related entities on an arm's length basis.

The aggregate value of transactions and outstanding balances related to KMP and entities over which they have control or significant influence were as follows:

⁽¹⁾ Further to the above, the Company had 4,485,918 Series A share options on issue as at 30 June 2019 however these options expired on 28 August 2019. These share options fall outside the scope of AASB 2 *Share Based Payments*.

a) Description of share based payment arrangements

(i) *Share Option Programme (equity settled) - closed*

In 2016 the Group established the Share Option Programme. This programme entitled key management personnel and senior employees to purchase ordinary shares in the Company. All share options awarded under the share option programme have vested and been exercised for ordinary shares in the Company and, as such, this programme is now closed.

12. Share based payment arrangements (continued)

(ii) Share options issued to Director Michael Aston (equity settled)

On 28 June 2018, Michael Aston was granted 400,000 share options at an exercise price of \$0.75 per share in his capacity as Director of the Company. 25% of the options vested immediately on issue with the remaining 75% vesting in equal annual tranches over two years.

The fair value of share options granted to Michael Aston have been measured using the Black-Scholes model. A share based payment expense of \$32,888 in relation to these options has been recognised in the statement of profit or loss for the half-year ended 31 December 2019.

(iii) Share options issued to supplier of services

Canaccord Genuity (Australia) Limited (equity settled)

On 17 October 2018, the Company issued 1,950,000 share options to Canaccord Genuity (Australia) Limited (Canaccord) in consideration for corporate advisory services to be provided in connection with the Group's ongoing capital markets strategy. The options vested immediately and are subject to a mandatory escrow of 24 months commencing from the date of issue. The options expire on 1 July 2021.

The fair value of share options granted have been measured using the Black-Scholes model. A share based payment expense of \$186,091 in relation to these options has been recognised in the statement of profit or loss for the half-year ended 31 December 2019.

(iv) Equity Incentive Plan (equity settled)

On 10 January 2018 the Group established the Equity Incentive Plan (EIP). This is a long-term plan under which share options or performance rights to subscribe for shares may be offered to eligible employees and consultants as selected by the Directors at their discretion. Currently only share options have been awarded under the EIP.

Under the EIP, one share option entitles the holder to one share in the Company subject to vesting conditions such as the satisfaction of performance hurdles and/or continued employment. The Board have the discretion to settle share options with a cash equivalent payment. Participants in the EIP will not pay any consideration for the grant of the share option unless determined otherwise. Share options will not be listed and may not be transferred, assigned or otherwise dealt with unless approved by the Board. If the employee's employment terminates before the share options have vested, the share option will lapse, unless approved otherwise by the Board. Eligible employees holding a share option pursuant to the EIP have no rights to dividends and are not entitled to vote at shareholder meetings until that share option is vested and, where required, exercised.

The fair value of share options granted have been measured using the Black-Scholes model. A share based payment expense of \$261,267 in relation to these options has been recognised in the statement of profit or loss for the half-year ended 31 December 2019.

13. Fair value measurements

The carrying amount of the Group's financial assets and financial liabilities is a reasonable approximation of fair value.

14. Subsequent events

On 3 February 2020 the Company was placed in a trading halt pending the release of an announcement regarding an equity raise. The Company was subsequently placed into voluntary suspension and continues to remain in voluntary suspension as at the date of this report, whilst it prepares a short form prospectus required to complete the equity raise.

Directors' Declaration

Identitii Limited

For the half-year ended 31 December 2019

1. In the opinion of the Directors of Identitii Limited ('the Company'):
 - a. The consolidated financial statements and notes that are set out on pages 6 to 25 are in accordance with the *Corporations Act 2001*, including:
 - i. giving a true and fair view of the Group's financial position as at 31 December 2019 and of its performance for the half-year ended on that date; and
 - ii. complying with Australian Accounting Standards AASB 134 *Interim Financial Reporting*, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - b. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
2. The directors draw attention to Note 2 to the financial statements, which includes a statement of compliance with International Financial Reporting Standards.

Signed in accordance with a resolution of the Board of Directors:

Michael Aston
Chairman

Sydney
21 February 2020

INDEPENDENT AUDITOR'S REVIEW REPORT**TO THE MEMBERS OF IDENTITII LIMITED****Report on the Half-Year Financial Report**

We have reviewed the accompanying half-year financial report of Identitii Limited which comprises the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flow statement for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Material Uncertainty Related to Going Concern

The statement of profit or loss and other comprehensive income for the half-year ended 31 December 2019 reflects a loss after income tax of \$4,131,697, and total cash outflows from operating activities of \$2,883,429. The ability of the Group to continue as a going concern is dependent on a number of factors, the most significant of which is the ability to source additional funding. As stated in Note 2, these events or conditions, along with other matters as set forth in Note 2, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the company's financial position as at 31 December 2019 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Identitii Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does

not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Identitii Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Identitii Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the entity's financial position as at 31 December 2019 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
