About Imugene

Imugene Limited (ASX:IMU) is commercialising drug delivery applications based on its novel buccal (drugs administered via the cheek) Linguet™ technology. Linguet™ is a patient friendly and cost effective system used to deliver established pharmaceutical and nutraceutical products. Imugene also currently specialises in the development and commercialisation of novel animal health products for pigs and poultry. The range of products under development includes vaccines to prevent important livestock diseases and productivity enhancers to improve the economics of raising commercial livestock.
