About Global Geoscience

Global Geoscience is a Sydney-based greenfield exploration company targeting gold, copper and silver on its mostly 100%-owned projects in Nevada and Arizona in the United States, and Peru in South America.

Global is in partnership with Canadian gold producer, Osisko Mining Corporation (TSX: OSK), in Nevada. Osisko is funding exploration on Global's five Nevada gold projects. Osisko may earn an initial 45% ownership interest in any or all of the projects by funding US\$8 million over a maximum of four years. Global is operator and manager during this phase.

Osisko may increase its ownership in any nominated project from 45% to 70% by sole-funding through to completion of a bankable feasibility study. Global retains 100% of its interest in any projects that Osisko elects not to fund. Osisko is Global's largest shareholder.
