Special business

Ratification and approval of previous allotment and issue of placement shares

Resolution 4 - Ratification and approval of previous allotment and issue of placement shares

- 23 The purpose of Resolution 4 is for Shareholders to approve, pursuant to Listing Rule 7.4, those securities issued in a placement to institutional and sophisticated investors which completed on 27 February 2014, which will otherwise count toward the 15% limit under Listing Rule 7.1.
- 24 Listing Rule 7.1 provides that, subject to certain exceptions, none of which are relevant here, prior approval of Shareholders is required for an issue of securities if the securities will, when aggregated with the securities issued by a company during the previous 12 months, exceed 15% of the number of the shares on issue at the commencement of that 12 month period.
- 25 The allotment and issue of securities detailed in this resolution did not exceed the 15% threshold. However, Listing Rule 7.4 provides that where a company subsequently approves an issue of securities, the issue will be treated as having been made with approval for the purpose of Listing Rule 7.1, thereby replenishing that company's 15% capacity and enabling it to issue further securities up to that limit.
- 26 Resolution 4 proposes the approval of the previous allotment and issue of securities for the purpose of satisfying the requirements of Listing Rule 7.4. In compliance with the information requirements of Listing Rule 7.5, members are advised of the following particulars in relation to the allotment and issue:

Information	Disclosure
Date of issue	27 February 2014
Number of shares issued	66,666,671
Issue price and terms of issue	The issue price was \$0.075 (7.5 cents). The shares were issued as fully paid ordinary shares, ranking equally with all other ordinary shares and having identical rights to existing ordinary shares and are quoted on ASX.
Persons to whom the shares were issued	Institutional and sophisticated investors including clients and contacts of Patersons Securities Limited and Morgans Limited.
The intended use of funds raised	Funds raised have been used for the Company's general working capital, and specifically applied to costs associated with the ongoing development of INV102 (nadolol), INV103 (ala-Cpn10) and INV104 (zafirlukast), including regulatory costs; the development and maintenance of Invion's intellectual property portfolio; three phase II clinical programs and a feasibility program for inhaled INV102 and INV104.

32 The other general terms for the options are:

- (a) if there is a reorganisation (including consolidation, sub-division, reduction or return) of the share capital of the Company, the rights attaching to the options issued will be changed to the extent necessary to comply with the Listing Rules applying to a re-organisation of capital at the time of the re-organisation;
- (b) the options do not entitle the holder to participate in any new issues by the Company without exercising the options;
- (c) the options do not confer on the holder any rights to a change in the exercise price of the options or a change to the number of underlying securities over which the options can be exercised except:
 - (i) in the case of a pro rata issue to the holders of shares (except a bonus issue) in which case the exercise price of each option shall be reduced in accordance with the formula contained in Listing Rule 6.22.2; and

General Information

33 The Company discloses the following information concerning the value of the options to be issued to Dr Mitchell Glass. A fair value for the options to be issued has been calculated using the Black Scholes methodology and based on a number of assumptions, set out below. This methodology is commonly used for valuing options and is one of the permitted methodologies under ASIC Regulatory Guide 76. The Board believes this valuation model is appropriate to the circumstances and has not used any other valuation or other models in proposing the terms of the options.

34 The stated valuation does not constitute and should not be taken as audited financial information. The reportable value of the employee benefit expense in subsequent financial periods may vary due to a range of timing and other factors. In particular, the figures were calculated effective as at 22 September 2014.

Number of options issued	8,812,500

- (b) employee benefits in the form of health-insurance plan contribution of up to AU\$25,478 (US\$24,000) per annum; and
- (c) eligible to receive an annual bonus of up to 20% of base salary which is at the discretion of the Board.

Financial Benefit – Details and reasons

36 Approval has been sought for the giving of a financial benefit to related parties under section 208 of the Corporations Act (Cth) 2001 ('Act'). Section 229(3)(e) of the Act provides that the 'issuing of securities or granting of an option to a related party' (which includes a director of an entity) is an example of the giving of a financial benefit.

37 Under Resolutions 5 options will be issued to Dr Glass. The amount, terms and value (subject to the stated assumptions) of those options are set out above.

38 The reasons for giving this financial benefit primarily relate to Dr Glass' ongoing involvement in the Company, and his direction of the R&D programs underway. The option terms are designed to incentivise Dr Glass to maximise the Company's development and growth, and vesting terms relate specifically to the achievement of development in the INV104 (zafirlukast) clinical program.

39 On this basis the Company believes the giving of this benefit, as constituted by the issue of the options to Dr Glass, is in the best interests of the Company and its shareholders.

Existing interests and the dilutionary effect on other members interests

40 The effect that the exercise of the options will have on the interests of Dr Glass relative to other members' interests is set out in the following table. The table assumes no further issues of shares in, or reconstruction of the capital of, the Company during the time between issue and exercise of the option.

Directors' Recommendation

- 41 The Directors abstain, in the interests of corporate governance, from making a recommendation in relation to this resolution.

Resolution 6: Approval of additional 10% capacity to issue shares under Listing Rule 7.1A

- 42 ASX Listing Rule 7.1 allows the Company to issue a maximum of 15% of its capital in any 12 month period without requiring shareholder approval. In accordance with Listing Rule 7.1A, eligible entities (companies that are outside the S&P/ASX 300 index and that also have a market capitalisation of \$300 million or less) can issue a further 10% of share capital in 12 months on a non-pro rata basis, determined in accordance with the following formula prescribed in Listing Rule 7.1A.2:

$$(A \times D) - E$$

Where:

- A** is the number of fully paid shares on issue 12 months before the date of issue or agreement:
- (A) plus the number of fully paid shares issued in the 12 months under an exception in Listing Rule 7.2;
 - (B) plus the number of partly paid shares that became fully paid in the 12 months;
 - (C) plus the number of fully paid shares issued in the 12 months with approval of holders of shares under Listing Rule 7.1 and 7.4. This does not include an issue of fully paid shares under the entity's 15% capacity pursuant to Listing Rule 7.1 without shareholder approval;
 - (D) less the number of fully paid shares cancelled in the 12 months.
- D** is 10%.
- E** is the number of equity securities issued or agreed to be issued under Listing Rule 7.1A.2 in the 12 months before the date of the issue or agreement to issue that are not issued with the approval of shareholders under Listing Rule 7.1 or 7.4.
- 43 Additional disclosure obligations are imposed when the special resolution is proposed, when securities are issued and when any further approval is sought. For the purposes of Listing Rule 7.3A the Company provides the following information:

Minimum price at which the equity securities may be issued	The issue price of each Share must be no less than 75% of the volume weighted average price for the Shares calculated over the 15 trading days on which trades in that class were recorded immediately before: (a) the date on which the price at which the securities are to be issued is agreed; or (b) if the securities are not issued within 5 trading days of the date in paragraph (a), the date on which the securities are issued.
---	--

Risk of economic and voting dilution	An issue of shares under Listing Rule 7.1A involves the risk of economic and voting dilution for existing ordinary security holders. The risks include: (a) the market price for Shares may be significantly lower on the issue date than on the date of the approval under Listing rule 7.1A; and (b) the equity securities may be issued at a price that is at a discount to the market price for the Shares on the issue date. In accordance with Listing Rule 7.3A.2 a table describing the notional possible dilution, based upon various assumptions as stated, is set out below.
Date by which the Company may issue the securities	The period commencing on the date of the annual general meeting (to which this Notice relates) at which approval is obtained and expiring on the first to occur of the following: (a) the date which is 12 months after the date of the annual general meeting at which approval is obtained; and (b) the date of the approval by holders of the Company's ordinary securities of a transaction under Listing Rules 11.1.2 or 11.2. The approval under Listing Rule 7.1A will cease to be valid in the event that holders of the Company's ordinary securities approve a transaction under Listing Rules 11.1.2 or 11.2.
Purposes for which the equity securities may be issued, including whether the Company may issue them for non-cash consideration	It is the Board's current intention that any funds raised pursuant to an issue of securities will be applied towards the continued commercialisation of the Company's drug development portfolio. This would principally include: (a) development activities; (b) clinical trial costs; (c) regulatory approvals; (d) intellectual property portfolio costs; and (e) overhead including staff and office costs, audit and compliance expenses, and ASX fees. The Company reserves the right to issue shares for non-cash consideration, including for payment of service or consultancy fees and costs. The Company also reserves the rights to utilise funds or scrip to acquire complimentary drug assets or intellectual property.
Details of the Company's allocation policy for issues under approval	The Company's allocation policy is dependent on the prevailing market conditions at the time of any proposed issue pursuant to Listing Rule 7.1A. The identity of the allottees will be determined on a case-by-case basis having regard to the factors including but not limited to the following: (a) the methods of raising funds that are available to the Company including, but not limited to, rights issues or other issues in which existing security holders can participate; (b) the effect of the issue of the Listing Rule 7.1A shares on the control of the Company; (c) the financial situation and solvency of the Company; and (d) advice from corporate, financial and broking advisers (if applicable). The allottees under the Listing Rule 7.1A facility have not been determined as at the date of this Notice of Meeting but may include existing substantial Shareholders and/or new Shareholders who are not related parties or associates of a related party of the Company. Further, if the Company is successful in its acquisitive growth strategy as outlined above, it is likely that the allottees under the Listing Rule 7.1A facility will be or include the vendors of the relevant target

	company or companies.
Previous approvals under Listing Rule 7.1A	The Company first sought approval under Listing Rule 7.1A at the 2012 Annual General Meeting. Shareholders voted in approval at that Meeting. The Company sought further approval at the 2013 Annual General Meeting, and Shareholders voted in approval at that Meeting on 22 November 2013. The Company has not utilised any of the capacity under Listing Rule 7.1A since approval was received.

Information under Listing Rule 7.3A.2:

46 The table below shows the dilution of existing Shareholders on the basis of the current market price of Shares and the current number of ordinary securities for variable "A" calculated in accordance with the formula in Listing Rule 7.1A(2) as at the date of this Notice.

47 The table also shows:

- (a) two examples where variable "A" has increased, by 50% and 100%. Variable "A" is based on the number of ordinary securities the Company has on issue. The number of ordinary securities on issue may increase as a result of issues of ordinary securities that do not require Shareholder approval (for example, a pro rata entitlements issue or scrip issued under a takeover offer) or future specific placements under Listing Rule 7.1 that are approved at a future Shareholders' meeting; and
- (b) two examples of where the issue price of ordinary securities has decreased by 50% and increased by 100% as against the current market price.

*Note: Current Variable A refers to the calculation required by Listing Rule 7.1A.2, which equates to the current issued share capital of the Company (as at 22 September 2014).

48 The table has been prepared on the following assumptions:

- The Company issues the maximum number of Shares available under the 10% Listing Rule 7.1A approval.
- No options are exercised to convert into Shares before the date of the issue of the Shares available under Listing Rule 7.1A.
- The 10% voting dilution reflects the aggregate percentage dilution against the issued share capital at the time of issue. This is why the voting dilution is shown in each example as 10%.
- The table does not show an example of dilution that may be caused to a particular Shareholder by reason of share issue under Listing Rule 7.1A, based on that Shareholder's holding at the date of the Annual General Meeting.
- The table shows only the effect of issues of Equity Securities under Listing Rule 7.1A, not under the 15% placement capacity under Listing Rule 7.1.
- The issue of Shares under Listing Rule 7.1A consists only of Shares.
- The issue price is \$0.08, being the closing price of the Shares on ASX on 22 September 2014.

Directors' Recommendation

Renewal of proportional takeover bid provisions

Resolution 7: Renewal of proportional takeover bid provisions

50 Rule 27 of the Constitution includes proportional takeover approval provisions which enable the Company to refuse to register securities acquired under a proportional takeover bid unless a resolution is passed by shareholders in general meeting approving the offer. Under the Corporations Act, proportional takeover provisions expire after three years from adoption or renewal and may then be renewed. The provisions contained in the Constitution therefore ceased to apply on 2 October 2012.

51 The Company is seeking shareholder approval to renew these provisions under the Corporations Act. The proportional takeover bid provisions are identical to those adopted by Shareholders on 2 October 2009 (when the Constitution was adopted). The Corporations Act requires the Company to provide Shareholders with an explanation of the proportional takeover approval provisions as set out below.

What is a proportional takeover bid

52 A proportional takeover bid is a takeover offer sent to Shareholders but only for a specified portion of each shareholder's securities. Accordingly, if a Shareholder accepts in full the offer under a proportional takeover bid, it will dispose of the specified portion of its securities in the Company and retain the balance of the securities.

Effect of renewal

53 If renewed, under existing rule 27 and if a proportional takeover offer is made to Shareholders, the Board is required to convene a meeting of Shareholders to vote on a resolution to approve the proportional takeover. That meeting must be held at least 14 days before the offer under the proportional takeover bid closes.

54 The resolution is taken to have been passed if a majority of securities voted at the meeting, excluding the securities of the bidder and its associates, vote in favour of the resolution. If no resolution is voted on at least 14 days before the close of the offer, the resolution is deemed to have been passed. Where the resolution approving the offer is passed or deemed to have been passed, transfers of securities resulting from accepting the offer are registered provided they otherwise comply with the Corporations Act, the Listing Rules, the ASTC Operating Rules and the Constitution. If the resolution is rejected then, under the Corporations Act, the offer is deemed to be withdrawn.

Reasons for proposing the resolution

55 The Directors consider that Shareholders should have the opportunity to renew rule 27 in the Constitution. Without rule 27 a proportional takeover bid for the Company may enable effective control of the Company to be acquired without Shareholders having the opportunity to dispose of all of their securities to the bidder. Shareholders could be at risk of passing control to the bidder without payment of an adequate control premium for all their securities whilst leaving themselves as part of a minority interest in the Company.

56 Without rule 27, if there was a proportional takeover bid and Shareholders considered that control of the Company was likely to pass, Shareholders would be placed under pressure to accept the offer even if they did not want control of the Company to pass to the bidder. Renewing rule 27 of

the Constitution will make this situation less likely by permitting Shareholders to decide whether a proportional takeover bid should be permitted to proceed.

No knowledge of present acquisition proposals

- 57 As at the date of this notice, no Director is aware of a proposal by any person to acquire or increase the extent of a substantial interest in the Company.

Potential advantages and disadvantages

- 58 The renewal of rule 27 will enable the Directors to formally ascertain the views of Shareholders about a proportional takeover bid. Without these provisions, the Directors are dependent upon their perception of the interests and views of Shareholders. Other than this advantage, the Directors consider that renewal of rule 27 has no potential advantages or potential disadvantages for them, as they remain free to make a recommendation on whether a proportional takeover offer should be accepted.
- 59 The Directors consider that renewing rule 27 benefits all Shareholders in that they will have an opportunity to consider a proportional takeover bid and then attend or be represented by proxy at a meeting of Shareholders called specifically to vote on the proposal. Accordingly, Shareholders are able to prevent a proportional takeover bid proceeding if there is sufficient support for the proposition that control of the Company should not be permitted to pass under the proportional takeover bid. Furthermore, knowing the view of Shareholders assists each individual Shareholder to assess the likely outcome of the proportional takeover bid and whether to accept or reject that bid.
- 60 As to the possible disadvantages to Shareholders renewing rule 27, it may be argued that the proposal makes a proportional takeover bid more difficult and that proportional takeover bids will therefore be discouraged. This may reduce the opportunities which Shareholders may have to sell all or some of their securities at a premium to persons seeking control of the Company and may reduce any takeover speculation element in the Company's share price. Rule 27 may also be considered an additional restriction on the ability of individual Shareholders to deal freely in their securities.
- 61 The Directors consider that there are no other advantages and disadvantages for Directors and Shareholders which arose during the period during which the proportional takeover approval provisions have been in effect, other than those discussed in this section.
- 62 On balance, the Directors consider that the possible advantages outweigh the possible disadvantages so that the renewal of rule 27 is in the interest of Shareholders.

Directors' Recommendation

- 63 The Directors unanimously recommend that you vote in favour of this resolution.
