About Ezenet

Listed on the ASX in 1999, Ezenet Ltd (EZE) was originally established to provide a "plug and play" internet set top box that enabled low cost web access. In 2001, the company shifted its focus to supplying digital free-to-guest and on-demand pay movies to the Australian hospitality and healthcare industries. In 2003, 100%-owned subsidiary Ezestream Pty Ltd was established to operate Ezenet's digital movie and internet business. In addition, Ezenet owns 18.2 million shares in Weatherly International plc, a London based, AIM-listed mineral company with copper interests in Zambia.
