8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: No. As noted in the Quarterly Activities Report, extensive technical studies and assessment to support the Crown Mountain Environmental Assessment have now been completed. As a result, the rate of expenditure on the Project in the Dec-21 and Mar-22 quarters is expected to be lower with the EA Application targeted for submission in late December 2021.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: The Company is currently considering options to raise further funds, and believes that, if and when, further funding are required to progress the Crown Mountain Project, and given the progress of the Project and the Company's track record of successful fund raising from a stable supportive shareholder base, future attempts to raise capital should prove successful.
