

## Janison awarded contract by Western Australian School Curriculum and Standards Authority

### Highlights

- Janison wins its first contract with the Western Australian School Curriculum and Standards Authority (SCSA) for its Online Literacy and Numeracy Assessment (OLNA).
- Five-year total contract value (TCV) of approximately \$1.4m
- Contract strengthens Janison's position as a leading technology partner to education authorities across Australia.

**Janison Education Group Limited (ASX: JAN)** ("Janison" or the "Company"), has been awarded its first contract with the Western Australian School Curriculum and Standards Authority (SCSA) to provide integrated online assessment authoring, delivery and marking solutions for its Online Literacy and Numeracy Assessment (OLNA).

The SCSA is an independent statutory authority governed by a board of seven members appointed by the Minister for Education, Western Australia. The Board is supported by a division of the Department of Education, Western Australia, which provides secretariat services.

This contract strategically expands Janison's engagement with state education authorities, building on its proven track record supporting the New South Wales Department of Education and extending Janison's digital assessment capabilities across the country.

Janison will deliver OLNA to students in years 9 to 12. Following a competitive procurement process, Janison was selected to replace the incumbent provider. Commencing in October 2025, the contract is valued at approximately \$1.4 million over a five-year term and is subject to standard termination provisions. While not material to Janison's earnings, it strengthens the Company's position as a leading technology partner to education authorities across Australia.

**Sujata Stead, CEO of Janison, said:** *"We are honoured to be selected by the Department of Education, Western Australia, to deliver the OLNA program. This partnership reflects our ongoing commitment to improving learning outcomes through accessible, reliable, and secure assessment technology. It also highlights our expanding national footprint beyond NSW and our capability to support government education systems at scale, both across Australia and internationally."*

This announcement has been approved for release by Janison's Board of Directors.

## About Janison

Janison is an Australian-owned education technology pioneer that supports organisations globally with leading online assessment solutions. For over 20 years, we've worked with governments, educators, and corporations to transform the way learning is assessed—making it more accessible, efficient, and impactful.

Our technology powers some of the world's largest and most trusted education programs, including NAPLAN Online, delivered in partnership with Education Services Australia on behalf of the Australian Government. With deep domain expertise and a track record of reliable delivery at scale, Janison enables seamless digital assessments for millions of learners worldwide. We are committed to helping educators and institutions deliver fair, effective and future-ready assessment experiences.
