ASX Release

WITHDRAWAL FROM THE LOCATORE AGREEMENT

After completing a series of “proof of concept” tests, involving trials of the LocatOre Geochemical technology over known concealed orebodies (owned by others), Westcoast Mining Ltd (Westcoast) has concluded that the results, although interesting, are unlikely to lead to early commercial development of the technology at this stage of development.

Westcoast has formally notified SoLogic Pty Ltd that it does not wish to proceed with the development and commercialisation of the LocatOre technology.
