Update on the A1 Gold Mine

8 SEPTEMBER 2025

Kaiser Reef Limited (ASX: **KAU**) ("**Kaiser**" or the "**Company**") advises that it has completed the **strategic review** of the **A1 Gold Mine**, located in Victoria, Australia.

The management of Kaiser have determined to halt production activities over the coming weeks and place the A1 Gold Mine (MIN5294) on Care and Maintenance. This decision follows a strategic review of the A1 Mine that was prompted by lower gold production within the Nova Zone. Some recent drilling¹ is still being assayed as part of a longer-term assessment and the site will be maintained to support underground exploration in the near term.

Future Communication

Kaiser will keep stakeholders and regulators informed of material developments regarding the A1 Mine as the Board considers its options.

Kaiser maintains a healthy and growing balance sheet and ongoing profitable operations at the Henty gold mine in Tasmania, supported by strong gold prices and commendable site performance. In addition, Kaiser is pleased to report ongoing drilling at the wholly owned Union Hill Gold Mine, Maldon, which is a current focus for Kaiser.
