LETTER FROM THE CHAIRMAN

Dear Investor,

Metminco Limited (**Company**) is pleased to invite existing Shareholders, Andes Shareholders and new investors to participate in a fully committed capital raising, to raise \$2,332,000 (before costs) at an exciting time in the Company's development.

A series of landmark transactions were announced by the Company on 17 May 2019, revolving around the Company's proposed acquisition of 100% of the issued capital of Andes Resources Limited (**Andes**) through an off-market Takeover Offer and an associated recapitalisation of the Company. The recapitalisation includes raising, in conjunction with Andes, \$4 million in new equity (including \$2.3 million to be raised under this Prospectus), restructuring the Company's debt, and the introduction of a new strategic shareholder, Sandfire Resources NL (**Sandfire**).¹

The above-mentioned transactions will see the Company emerge with a much-improved balance sheet and enhanced ability to fund a maiden diamond drilling programme at the Chuscal Gold Project in Colombia, which is conducted in joint venture with AngloGold Ashanti Colombia SA (**AngloGold**). We encourage all Shareholders to consider subscribing under the Offers to add to their investment in the Company.

It is a condition to the completion of the Takeover Offer (**Bid Condition**) that the Company and Andes jointly raise no less than \$4,000,000. The Company will satisfy this Bid Condition by raising the \$2,332,000 under the Offers.

The Shares being offered under the three Offers set out below have the same issue price and terms and conditions. The only distinction between the Offers is the manner in which the Board will allocate the Shares.

The Offers comprise:

- The Priority Offer to Eligible Shareholders to raise \$1 million before costs by the issue of 500,000,000 Shares at an issue price of \$0.002 each.
- The Shortfall Offer, being any Shares not subscribed for under the Priority Offer.
- The Placement to Andes Eligible Shareholders, Eligible Shareholders and new investors, to raise \$1,332,000 (before costs) by the issue of 666,000,000 Shares.

The Priority Offer will only be made to Eligible Shareholders registered at the Record Date.

The Shortfall Offer and Placement will be offered, in order of preference, to Andes Eligible Shareholders (including Sandfire), Eligible Shareholders (in respect of the Placement) and new investors.

The Company has received commitments in respect of all Shares to be issued under the Offers, with Sandfire providing conditional commitments to subscribe for 494,769,725 Shares to raise \$989,539 under the Placement, and Hartleys Limited (**Hartleys**) underwriting the issue of the remaining Shares available under the Offers, being 671,230,275 in the amount of \$1,342,461.

¹ For further information on Sandfire's conditional participation in the Placement and conditional intention in relation to the Takeover Offer, please see Sections 1.8 and 5.3 of this Prospectus. In the event that the Sandfire Commitment Condition and Sandfire Intention Statement Conditions are satisfied and the Company determines to allocate Shares under the Placement in accordance with the Sandfire Commitment, Sandfire will become a 15% holder of the Company at completion of the Takeover Offer and Offers.

The Offers are subject to the Conditions set out in Section 1.10.

To apply for Shares under the Offers, you will need to complete the relevant Application Form in accordance with the instructions on the form and as outlined in this Prospectus.

Funds raised pursuant to this Prospectus will be used to fund exploration at the Company's Quinchia Gold Project, in particular drilling of the Chuscal prospect, exploration on newly acquired projects, the costs of the Takeover Offer and Offers, as well as providing working capital for the Merged Group. For further details on the proposed use of funds please see Section 1.6 of this Prospectus.

The Prospectus includes further details of the Offers and their effect on the Company, and a statement of the risks associated with investing in the Merged Group. This is an important document and should be read in its entirety. If you have any doubts or questions in relation to the Prospectus you should consult your stockbroker, accountant, solicitor or other independent professional advisor to evaluate whether or not to participate in the Offers.

On behalf of the Board, I encourage you to consider this investment opportunity and thank you for your ongoing support.

Yours faithfully

3.6 Dividend Policy

The Directors are not able to say when and if dividends will be paid in the future, as the payment of any dividends will depend on the future profitability, financial position and cash requirements of the Company.

4. Risk Factors

4.1 Risk Factors

The Offers should be considered speculative because of the nature of, amongst other things, the Company's business activities. Consequently, the Company strongly recommends that you consider the risk factors set out in this Section 4, together with information contained elsewhere in this Prospectus, and that you consult your stockbroker, solicitor, accountant or other professional adviser before deciding whether to invest in Securities.

Set out below are a number of specific risks which relate directly to the Company and Merged Group, as well as certain industry and general risks, many of which are largely beyond the control of the Company or its Directors. The Company considers that the risks set out in this Section 4 may have a material impact on the financial performance of the Company and, specifically, the market price of the Securities.

The following is a summary of material risks. The list is not exhaustive and you should read it in conjunction with specific matters referred to in previous Company announcements and reports.

4.2 Risks specific to the Offers

(a) Risks relating to Shares

As at the date of this Prospectus, the Company is listed on the ASX. You should note that if the Shares are granted Official Quotation, they will be listed securities for the purposes of the Listing Rules and Corporations Act. Consequently, share market conditions may affect the price of the Shares regardless of operating performance. Specifically, local and international stock markets, movements in commodity prices, interest rates, economic conditions and investor sentiment generally may affect the price of the Shares.

(b) Potential for dilution

At the date of the Prospectus it is expected that Company will have 1,187,940,614 Shares on issue. Upon completion of the Offers, assuming the Offers are fully subscribed and completion of the Takeover Offer, the number of Shares in the Company will increase to 6,659,575,831. This increase equates to approximately 460.6% of all the issued Shares in the Company following completion of the Offers.

This means that each Share will represent a lower proportion of the ownership of the Company. It is not possible to predict what the value of the Company or a Share will be following the completion of the Offers and the Directors do not make any representation to such matters.

Shareholders should note that if they do not participate in the Offers and assuming the Offers are fully subscribed, their holdings are likely to be diluted.

There is also a risk that the interests of Shareholders will be further diluted as a result of future capital raisings required in order to fund the future development of the Company's projects.

(c) **Underwriting**

The Company has entered into an Underwriting Agreement with Hartleys for the underwriting of the Offers up to the Underwritten Amount. The Underwriting Agreement is subject to various conditions precedent, including but not limited to the following:

- (i) the Implementation Agreement is not withdrawn, rescinded, breached or terminated;
- (ii) the Bid Conditions are satisfied (or not waived without with Hartleys consent);
- (iii) Sandfire provide a valid application for Shares in accordance with the Sandfire Commitment; and
- (iv) execution of the RMB Debt Refinancing Agreement.

There are various termination events within the Underwriting Agreement that may lead to Hartleys terminating its obligations under the Underwriting Agreement. Termination events include, but are not limited to a 10% or greater fall in the gold price or All Ordinaries Index, delay in the lodgement of Offer documents (without Hartleys consent), breach of the Company's material contracts, change in Shareholdings, changes in market conditions, withdrawal of ASX waivers, disclosure deficiencies in this Prospectus and other matters considered to be industry standard.

If the Underwriter terminates its obligations, the Company may not raise the full amount it is seeking to raise under the Offers. This could lead to the Bid Condition under the Implementation Agreement relating to the Joint Capital Raising being unfulfilled and the Takeover Offer not going ahead. Further information on the conditions and termination events is set out in Schedule 1.

4.3 Company specific risks

(a) **Contractual and Completion risk**

Pursuant to the Implementation Agreement the Company has agreed to acquire 100% of the issued capital in Andes subject to the fulfilment of certain Bid Conditions. The ability of the Company to achieve its stated objectives will depend on the performance by the parties of their obligations under the Implementation Agreement. If any party defaults in the performance of their obligations, it may be necessary for the Company to approach a court to seek a legal remedy in order to attempt to complete the Takeover Offer, which can be costly.

(b) **Transaction Completion risk**

The Company seeks to acquire 100% of the issued capital of Andes by way of the Takeover Offer. The Takeover Offer is subject to Bid Conditions. If any of the Bid Conditions are not satisfied or waived, or any of the counterparties do not comply with their obligations, completion of the Takeover Offer may be deferred or not occur. Failure to complete the Takeover Offer would adversely impact the Company's financial condition and level of operations.

(c) Transaction due diligence risk

The Company and its advisers have performed certain pre-acquisition due diligence on Andes. While the Company has obtained certain warranties from Andes under the Implementation Agreement with respect to information provided by Andes, there is a risk that the due diligence conducted has not identified issues that would have been material to the decision by the Company to acquire Andes. A material adverse issue which was not identified prior to the Company's acquisition of Andes could have an adverse impact on the financial performance or operations of the relevant businesses and may have a material adverse effect on the Company.

(d) Sale of Shares

Under the Takeover Offer, the Company will issue a significant number of Shares. Some holders of Shares may not intend to continue to hold their Shares and may wish to sell them. There is a risk that this may adversely impact on the price of and demand for Shares following completion of the Takeover Offer.

(e) RMB Debt Refinancing Agreement

It is a condition to the Sandfire Intention Statement that the Company enter into the RMB Debt Refinancing Agreement on substantially similar terms to the indicative terms announced by the Company on 17 May 2019. While the Company and RMB have prepared advanced drafts of the RMB Debt Refinancing Agreement, there is a risk that the RMB Debt Refinancing Agreement will not be completed prior to the end of the Offer Period, which may delay completion of the Takeover Offer and Offers, or cause completion of the Takeover Offer and Offers not to occur. In the event that the RMB Debt Refinancing Agreement does not complete, Sandfire may choose not to accept the Takeover Offer in respect of its Andes Shares. This would result in the Company being unable to obtain a Relevant Interest in 90% or more of the Andes Shares on issue and compulsorily acquire the remaining Andes Shares, which may cause completion of the Takeover Offer and Offers not to occur.

The issue of the RMB Debt Refinancing Shares is further conditional upon RMB receiving approval from the South African Reserve Bank, which may lead to a delay in the issue of the RMB Debt Refinancing Shares. In the event such an approval is not forthcoming, this may affect the Company's ability to complete the Transaction in a timely manner or at all.

(f) Future capital requirements

The Company may have difficulty in obtaining future equity or debt funding to support exploration programs, evaluation and development of its tenements.

The Company's ability to raise further equity or debt, or to divest part of its interest in a tenement, and the terms of such transactions will vary according to a number of factors, including the success of exploration results and the future development of the tenements, stock market conditions and prices for commodities.

Should it subsequently be established that a mining production operation is technically, environmentally and economically viable, the Company will require additional financing to establish mining operations and production facilities. The Company may not be able to raise the additional finances that

may be required for future activities. Commodity prices, environmental regulations, environmental rehabilitation or restitution obligations, revenues, taxes, transportation costs, capital expenditures, operating expenses and technical aspects are all factors which will impact on the amount of additional capital that may be required.

Additional financing may not be available on terms acceptable to the Company, or at all. Significantly, any additional equity financing or the exercising of Options, may dilute your existing shareholdings; and debt financing, if available, may restrict financing and future activities. If the Company fails to obtain additional financing, as needed, it may have to reduce the scope of its operations or anticipated expansion of its operations, forfeit its interest in some or all of its tenements, incur financial penalties and/ or reduce or terminate its operations.

(g) Regulatory risks

The Company will incur ongoing costs and obligations associated with compliance with necessary regulations. Regulatory areas which are of particular significance to the Company include environmental compliance and rehabilitation, mining, taxation, employee relations, worker health and safety, waste disposal, protection of the environment, native title and heritage matters, protection of endangered and protected species, social licence obligations, bribery, corruption and other matters. The Company requires permits from regulatory authorities to authorise the Company's operations. These permits relate to exploration, development, production and rehabilitation activities. Any failure to comply with regulations may result in additional costs for corrective measures, penalties or restrictions on the Company's proposed business operations. In addition, changes in regulations could require extensive changes to the Company's operations, increased compliance costs or give rise to material liabilities, which could have a material adverse effect on the business, results of operations and financial condition of the Company.

(h) Foreign governments and legal systems risk

The Colombian and Chilean jurisdictions, where the Company's current operating assets reside, differ from the legal system found in Australia. This could lead to exposure to any or all of the following risks:

- (i) lack of guidance or interpretation of the applicable rules and regulations; and
- (ii) delays in redress or greater discretion on the part of governmental authorities.

Whilst there is no evidence of material impact of this risk has had on operations in these countries, the Company cannot guarantee that joint ventures, licences, licence applications or other legal arrangements will not be adversely affected or even forfeited as a result of the actions of government authorities or others, and the effectiveness of and enforcement of such arrangements in these jurisdictions cannot be certain. In addition, political instability and changes in foreign law, including taxation law, may affect the Company's ability to operate successfully, profitably or optimally in foreign jurisdictions.

(i) Sovereign Security Risks

Both the Company and Andes' operations are substantially located in Colombia and are subject to various in-country security risks. These risks and uncertainties include, but are not limited to, terrorism, trafficking narcotics, hostage taking, labour unrest, the risks of war or civil unrest, expropriation and nationalisation, illegal mining and changing political conditions.

In 2016, after more than 50 years of conflict, the government of Colombia signed a peace agreement with the country's largest guerrilla group, the Fuerzas Armadas Revolucionarias de Colombia (FARC). However, several other armed groups remain active across parts of the country.

It is not possible for the Company to predict the extent to which the abovementioned risks and uncertainties may adversely impact on the Merged Group's operations.

(j) Tenure, access and grant of applications

The Company's operations are subject to receiving and maintaining licences and permits from appropriate governmental authorities. There is no assurance that delays will not occur in connection with obtaining all necessary grants or renewals of licences/permits for the proposed operations, additional licences/permits for any possible future changes to operations, or additional permits associated with new legislation. Prior to any development on any of its properties, subsidiaries of the Company must receive licences/permits from appropriate governmental authorities. There is no certainty that the Company will hold all licences/permits necessary to develop or continue operating at any particular property.

(k) Exploration risk

Mining exploration and development is a high-risk undertaking. The success of the Company depends on the delineation of economically minable reserves and resources, access to required development capital, movement in the price of commodities, securing and maintaining title to the Company's exploration and mining tenements and obtaining all consents and approvals necessary for the conduct of its exploration activities.

Exploration of the Company's projects may be unsuccessful, resulting in a reduction of the value of those projects, diminution in the cash reserves of the Company. The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that cost estimates and underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

(l) Chuscal expenditure risk

The Company is party to a joint venture agreement with AngloGold, which currently owns the Chuscal project. The Company is required to spend US\$2,500,000 by May 2022 in order to obtain a 51% interest in the Chuscal licences. To date the Company has not yet undertaken substantive expenditure on Chuscal. In the event that the Company is unable to meet its expenditure commitments under the joint venture agreement, there is a risk that the Company may not obtain a 51% interest in the Chuscal project.

(m) Environmental risk

Mining and exploration has become subject to increasing environmental responsibility and liability in Australia, Colombia and Chile. The potential for liability is an "ever present" risk. The use and disposal of chemicals and other materials in the mining industry is under constant legislative scrutiny and regulation. Consistent with this, the Company may be required, in some cases, to undertake baseline environmental studies prior to certain exploration or mining activities, so that the environmental impact can be monitored and, as far as possible, minimised. The discovery of any endangered species of fauna and flora may impact upon the Company's ability to freely explore or develop its tenements.

There is no guarantee that nature reserves or parks will not be decreed by government agencies in the areas in which the Company works. These could constrain the Company's ability to operate on its existing or future licences.

(n) Social Licence

In order to explore, develop or operate in communities, the general acceptance of certain stakeholder populations may be required. This may include formal agreements that can require extended negotiations with large numbers of stakeholders, for example indigenous communities and groups with native title rights or informal miners. There can be no guarantee these negotiations will be concluded successfully or not be protracted and cause significant delay to the Company's plans.

(o) Mine development risk

Possible future development of a mining operation at any of the Company's future projects is dependent on a number of factors including, but not limited to, the Transaction and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, climate change, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.

(p) Metallurgy

Metal and/or mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:

- (i) identifying a metallurgical process through test work to produce a saleable metal and/or concentrate;
- (ii) developing an economic process route to produce a metal and/or concentrate; and
- (iii) changes in mineralogy in the ore deposit can result in inconsistent metal/mineral recovery, affecting the economic viability of the project.

(q) Insurance risks

There are significant exploration and operating risks associated with exploring for gold and other metals, including adverse weather conditions, environmental risks and fire, all of which can result in injury to persons as well as damage to or destruction of the extraction plant, equipment, production facilities and other property. In addition, the Company's subsidiaries will be subject to liability for environmental risks such as pollution and damage of the environment. The occurrences of a significant event against which the Company is not fully insured could have a material adverse effect on its operations and financial performance. In addition, in the future some or all of the Company's insurance coverage may become unavailable or prohibitively expensive.

(r) Ability to exploit successful discoveries

Even if an apparently viable deposit is identified, there is no guarantee that the Company can economically exploit it. That is, it may not always be possible for the Company to participate in the exploitation of successful discoveries made in any areas in which it has an interest because such exploitation may require further intensive capital input as well as further licences, mining concessions and clearances from relevant authorities. The Company notes that it may or may not be possible for such conditions to be satisfied.

(s) Loss of key management personnel

The Company's success largely depends upon key management personnel for the management of the Company as well as upon other management and technical personnel for the daily operation of the Company. Consequently, there is a possibility that the Company will be adversely affected, particularly in respect of the rate at which its exploration programs and tenements are developed or prioritised, if one or more of the key management personnel cease their employment.

(t) Transactional Risks

The Company intends to divest its non-core assets. This can be impacted by many risks beyond the control of the Company including market risks which itself is impacted by business cycles, political, government and regulatory risks amongst others. There is no guarantee that the Company will be able to divest its assets, or achieve reasonable prices for these assets, or complete these transactions in any timeframe.

(u) Exploration costs

The exploration costs of the Company are premised upon a number of assumptions and estimates as regards the method and timing of exploration. These assumptions and estimates are, by their nature, speculative and subject to a number of uncertainties. Consequently, the Company does not give any assurance that the cost estimates and the underlying assumptions will be realised in practice, which may adversely affect the Company's budget and forecast cashflows and ultimately the trading price of its Securities.

(v) Commodity Prices

Commodity prices are influenced by physical and investment demand for those commodities. Fluctuations in commodity prices may influence individual projects in which the Company has an interest as well as the Company's ability to raise capital.

(w) Tax rules

Tax rules or their interpretation in relation to equity investments may change. In particular, both the level and basis of taxation may change. In addition, an investment in the Shares involves tax considerations that may differ for each Shareholder. Each prospective Shareholder is encouraged to seek professional tax advice in connection with any investment in the Company.

Tax law is complex and is subject to regular change. Changes in tax law, including various proposed but as yet not enacted changes in tax law may adversely impact the Company's future financial performance and position.

Resulting changes in tax arrangements may adversely impact the Company's future financial performance and position. In addition, future changes to other laws and regulations or accounting standards, which apply to the Company from time to time, could materially adversely affect the Company's future financial performance and position.

(x) Litigation Risks

The Company is exposed to possible litigation risks including contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is aware that a former director of a company that was acquired by the Company (Minera Seafield, now called Miraflores Compania Minera SAS) previously lodged a claim with the Labour Court in Medellin, Colombia (Juzgado Laboral del Circuito de Medellin) seeking termination payments, unpaid bonus payments and damages in the amount of approximately US\$2 million. The Directors are of the opinion that the claim can be successfully defended and believe that the risk of the Company facing an unfavourable judgement is remote. The next court hearing is expected to occur on or around November 2019. The Company intends to defend the proceeding.

(y) Competition risk

The industry in which the Company is involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, it will have no influence or control over the activities or actions of its competitors, which activities or actions may positively or negatively affect the operating and financial performance of the Company's business.

(z) Economic Risks

General economic conditions, movements in commodity prices, interest and inflation rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.

Further, share market conditions may affect the value of the Company's securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) interest rates and inflation rates;

- (iii) currency fluctuations;
 - (iv) changes in investor sentiment toward particular market sectors (such as the exploration industry or the base metals sector within that industry);
 - (v) the demand for, and supply of, capital; and
 - (vi) terrorism or other hostilities.
- (aa) **Force Majeure**

The Company, now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, extreme weather conditions, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

4.4 Speculative Investment

The above list of risk factors should not to be taken as an exhaustive list of the risks faced by the Company or you as an investor in the Company. The above factors, and others not specifically referred to above, may materially affect the Company's future financial performance and the value of the Shares. Therefore, the Shares carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities.

You should consider an investment in the Company as speculative and should consult your professional advisers before deciding whether to apply for Shares under the Offers.

5. Additional information

5.1 Rights and liabilities attaching to Shares

A summary of the rights attaching to Shares in the Company is below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

Each Shareholder is entitled to receive notice of, and to attend and vote at, general meetings of the Company and to receive all notices, accounts and other documents required to be sent to members under the Constitution, the Corporations Act or the Listing Rules.

The Directors may convene a general meeting whenever they think fit. The Constitution does not permit Shareholders to call a general meeting, although Shareholders may call a general meeting in accordance with the provisions of the Corporations Act.

A notice of general meeting must be given in accordance with the Corporations Act and must specify the place, date and time of the meeting, the general nature of the business to be transacted at the meeting, information regarding a Shareholder's right to appoint a proxy, and if a special resolution is to be proposed at the meeting, set out an intention to propose the special resolution and the text of the special resolution.

The quorum for a meeting of the Shareholders is two Shareholders and the quorum must be present at all times during the meeting.

(b) Voting

Subject to any rights or restrictions for the time being attached to any class of Shares whether by the terms of their issue, the Constitution, the Corporations Act or the Listing Rules, at a general meeting every Shareholder present in person or by a representative has one vote on a show of hands and every Shareholder present in person or by a representative, proxy or attorney has one vote per Share on a poll. Where there are two or more joint Shareholders and more than one of them is present at a meeting and tenders a vote in respect of the Share (whether in person or by proxy or attorney), the Company will count only the vote cast by the Shareholder whose name appears before the other(s) in the Company's register.

(c) Alteration of Capital

Subject to the Constitution, Corporations Act and the Listing Rules, the Company in general meeting may increase, divide, consolidate or reduce its share capital if it complies with the Constitution, Corporations Act and the Listing Rules.

(d) **Variation of rights**

Subject to the Constitution, Corporations Act and Listing Rules, if at any time the share capital is divided into different classes of shares, the rights attached to the shares in any class may be altered only by special resolution passed at a separate meeting of the holders of the issued shares of the affected class, or with the written consent of the holders of at least three quarters of the issued shares of the affected class.

(e) **Transfer of Shares**

Subject to the Constitution, the Corporations Act and the Listing Rules, Shares are freely transferable.

The Shares may be transferred by a proper transfer effected in accordance with ASX Settlement Rules, by any other method of transferring or dealing introduced by ASX and as otherwise permitted by the Corporations Act or by a written instrument of transfer in any usual form or in any other form approved by the Directors or the ASX.

The Company must not prevent, delay or in any way interfere with the registration of a proper ASX Settlement transfer. However, the Company may decline to register a transfer of Shares in the circumstances described in the Constitution and where permitted to do so under the Listing Rules. If the Company declines to register a transfer, the Company must, within five business days after the transfer is lodged with the Company, give the lodging party written notice of the refusal and the reasons for refusal. The Directors must decline to register a transfer of Shares when required by law, the Constitution, the Listing Rules or the ASX Settlement Rules.

(f) **Dividends**

The Directors, subject to the Constitution, the Corporations Act and the Listing Rules, may determine that a dividend is payable and fix the amount, the time for payment, and the method of payment. The Directors may, before declaring any dividend, set aside out of the profits of the Company, such sums as they think proper as reserves, which may be used in the business of the Company or be invested in such investments as the Directors think fit.

5.4 Company is a disclosing entity

The Company is a disclosing entity under the Corporations Act. It is subject to regular reporting and disclosure obligations under both the Corporations Act and the Listing Rules. These obligations require the Company to notify ASX of information about specific events and matters as they arise for the purpose of ASX making the information available to the securities market conducted by ASX. In particular, the Company has an obligation under the Listing Rules (subject to certain limited exceptions), to notify ASX once it is, or becomes aware of information concerning the Company which a reasonable person would expect to have a material effect on the price or value of the Shares.
