

Traka Resources Limited

ABN: 63 103 323 173

19 October 2010

Company Announcements Office
ASX Limited
Level 4, 20 Bridge Street
SYDNEY NSW 2000

Dear Sir/Madam

INVESTOR PRESENTATION

Attached is a copy of a presentation which the company proposes making to institutions this week.

Yours faithfully

P C Rutledge
Company Secretary

Musgraves Project Western Australia October 2010

**Patrick Verbeek
Managing Director**

TRAKA RESOURCES LIMITED

Disclaimer

This presentation has been prepared by **Traka Resources Limited** ABN 63 103 323 173 (**Traka**) for the sole purpose of providing financial, operational and other information to enable recipients to review the business activities of Traka. This presentation is not intended as an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any securities. Nothing in this presentation should be construed as financial product advice, whether personal or general, for the purposes of Section 766B of the *Corporations Act 2001*.

This presentation may contain forward looking information, statements or forecasts that are subject to risks and other factors outside the control of **Traka**. Any forward looking information, statements or forecasts provided is/are considered reasonable in the circumstances and has/have been prepared in good faith and with all due care, but may differ materially from actual future results and performance. **Traka** and its affiliates, any of its directors, agents, officers or employees do not make any representation or warranty, express or implied, as to or endorsement of the accuracy or completeness of any information, statements or forecasts contained in this presentation, and they do not accept any liability for any statements made in, or omitted from, this presentation.

This presentation should not be relied upon as a representation of any matter that an investor should consider in evaluating the business activities of **Traka**. Investors must make and rely upon their own enquiries and due diligence in relation to the subject of this presentation and an investment in **Traka**. A potential investor must assess the merits or otherwise of an investment in **Traka** having regards to their own personal, financial and other circumstances.

The information in this presentation that relates to exploration results is based on information compiled by Mr Patrick Verbeek, a member of the Australasian Institute of Mining and Metallurgy . Mr Verbeek has sufficient experience which is relevant to the style of mineralisation under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 edition of the "Australian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves". Mr Verbeek consents to the inclusion in the presentation of the matters based on information in the form and context in which it appears.

Information included in the presentation is dated 19th October 2010.

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

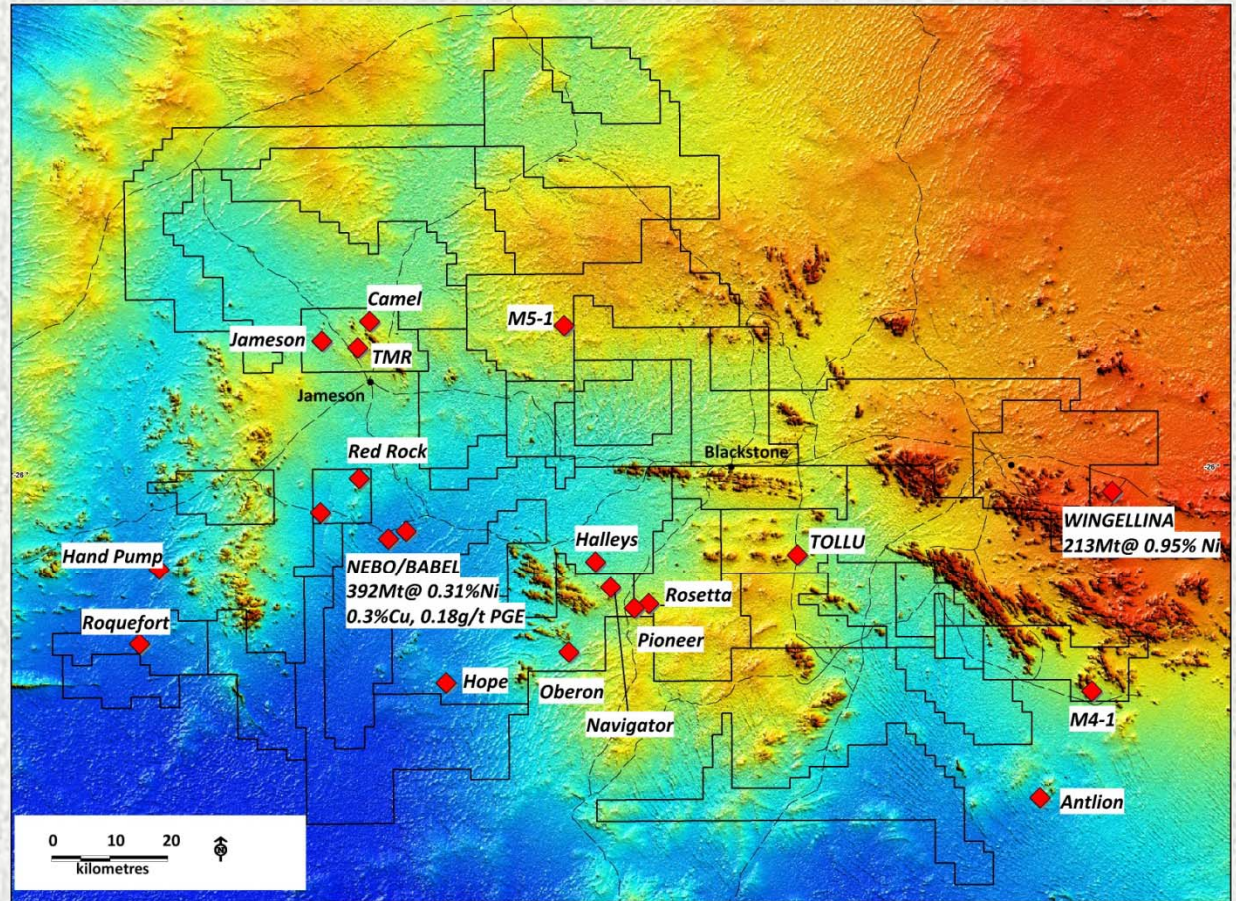

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

PROJECT OVERVIEW

- Highly prospective Proterozoic Terrain
- Minimal exploration history but world class discoveries
 - Nebo-Babel (Cu, Ni, PGE sulphide)
 - Wingellina (Laterite Ni)
- 32 tenements 10,500 sq km

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

GILES COMPLEX

- New understanding on mineralisation controls. Complex intrusive history over 60 million year period (GSWA).

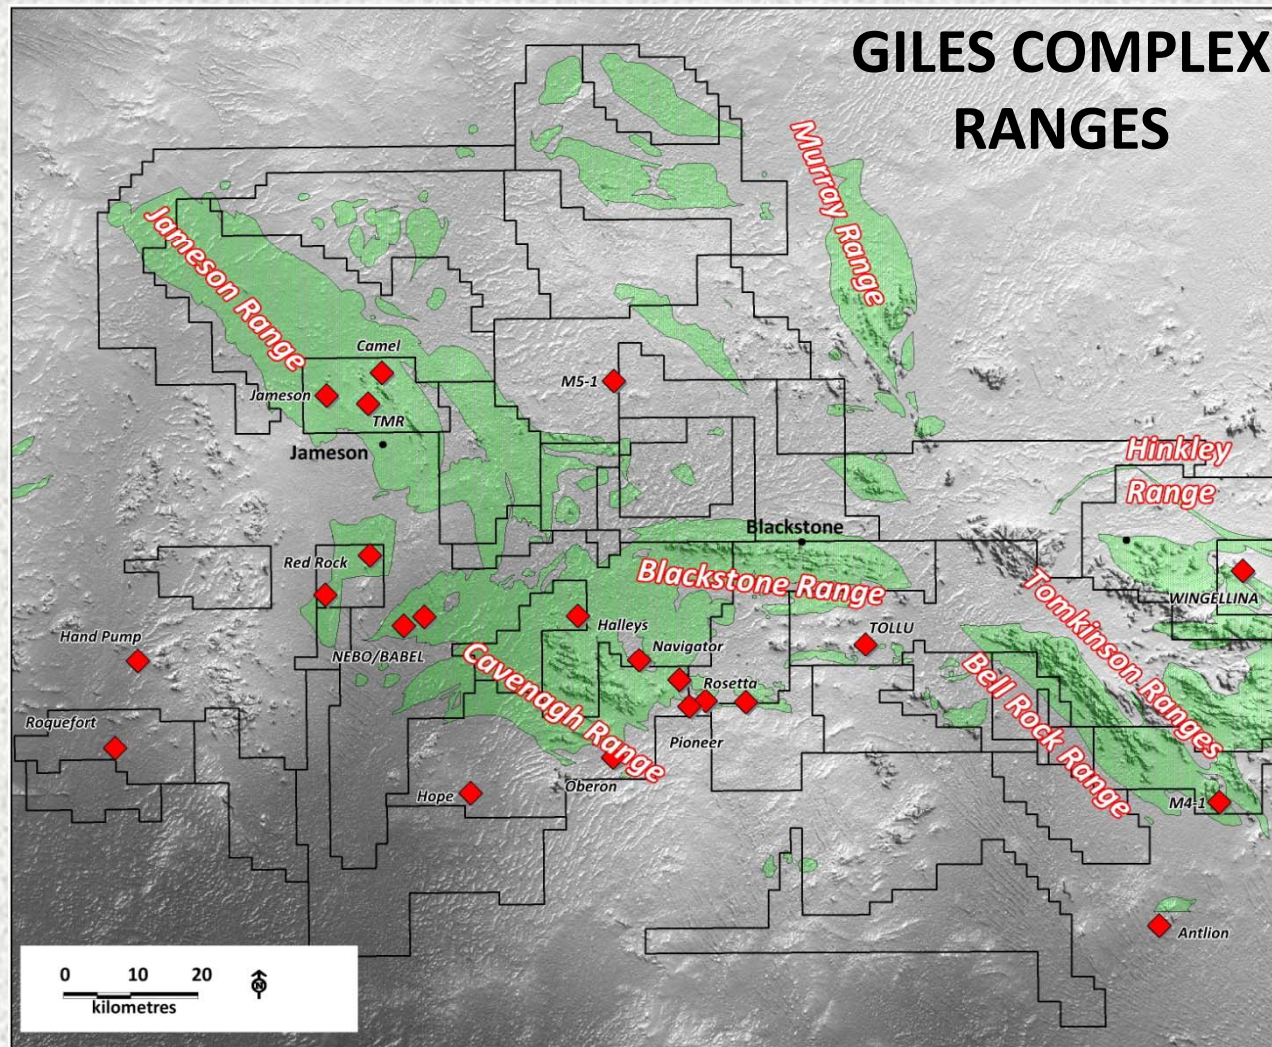

Firstly - very large layered intrusive (G1) e.g. Jameson . NW trends
Secondly - large not layered (G2) e.g. Murray. Intrude G1 on margins
Thirdly - (G3) small cross cutting. N to NE trends.

- G3 chemically and texturally distinct (1068 Ma) host to all known Cu, Ni, PGE mineralisation. Nebo Babel and Navigator has G3 signature.
- Exploration Target – Intersection of G1 and N to NE structures with G2/G3

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

TRAKA MANAGED

- 21 tenements - active on 4
- Geochemistry, geology and ground EM
- Permitting for drill programs underway
- Giles Complex Cu, Ni, PGE - Nebo-Babel style
- Giles Complex Ti, V, PGE + Au - Plat Reef style

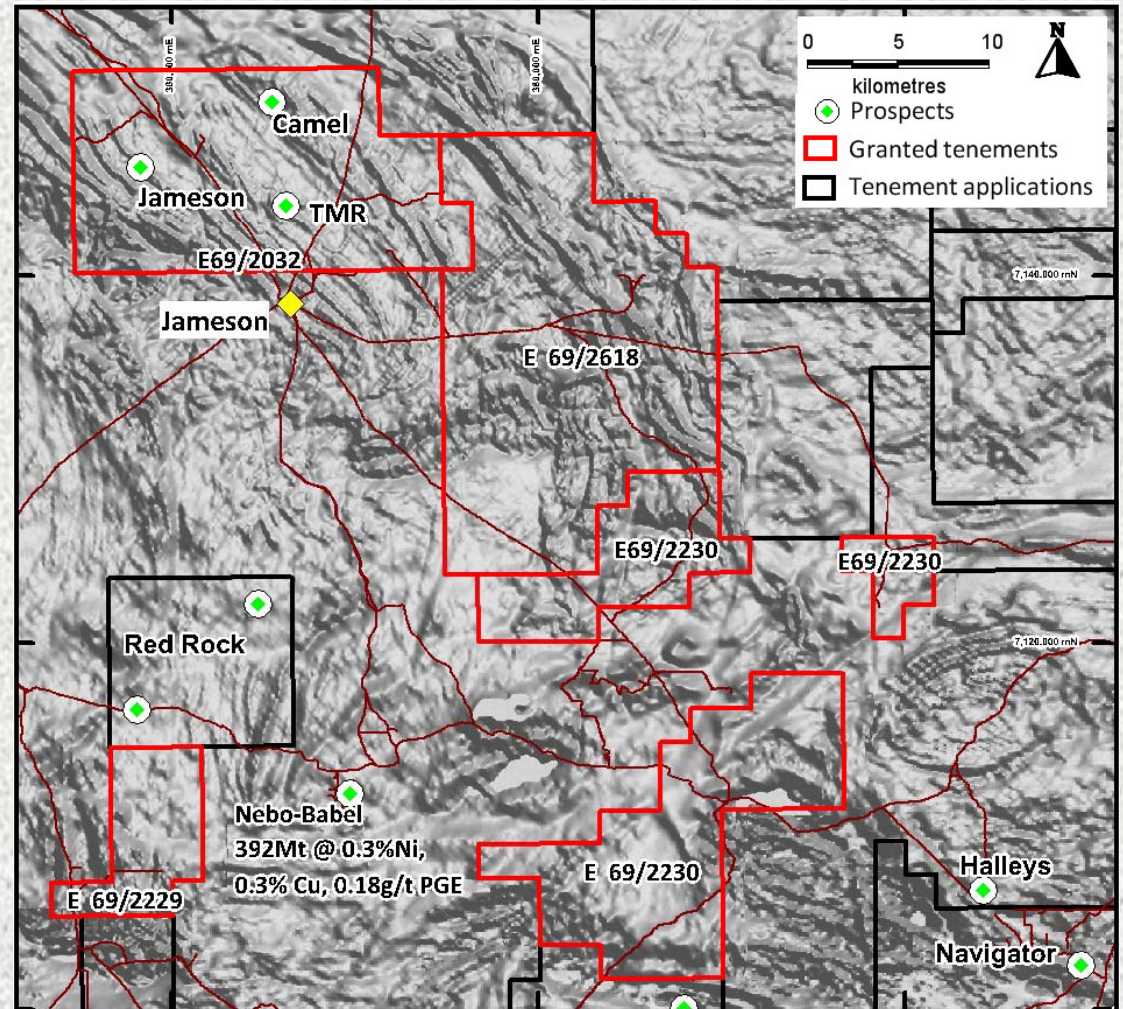

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

Jameson tenements

- Surround Nebo-Babel. BHP Billiton and Traka exploration side by side
- Complex - G1, G2 and G3 intrusives plus structural controls
- Old and new targets to follow up.
- Disseminated sulphide halo around massive/stringer zones

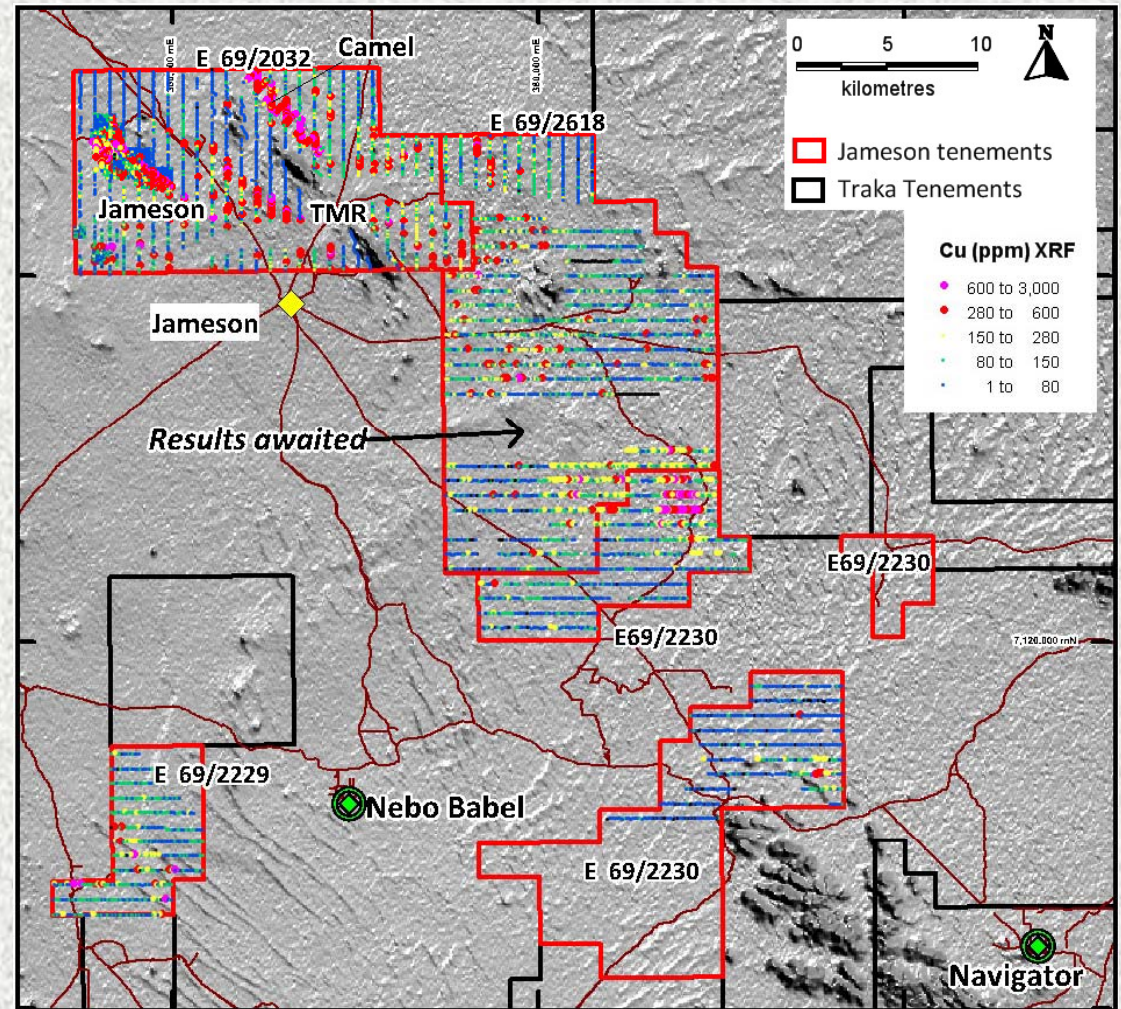

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

GEOCHEMICAL SURVEYS

- 8500 samples –program completed this week. Infill on targets underway.
- Rapid - effective - regional
- Detects disseminated mineralisation missed by EM
- Relatively shallow regolith

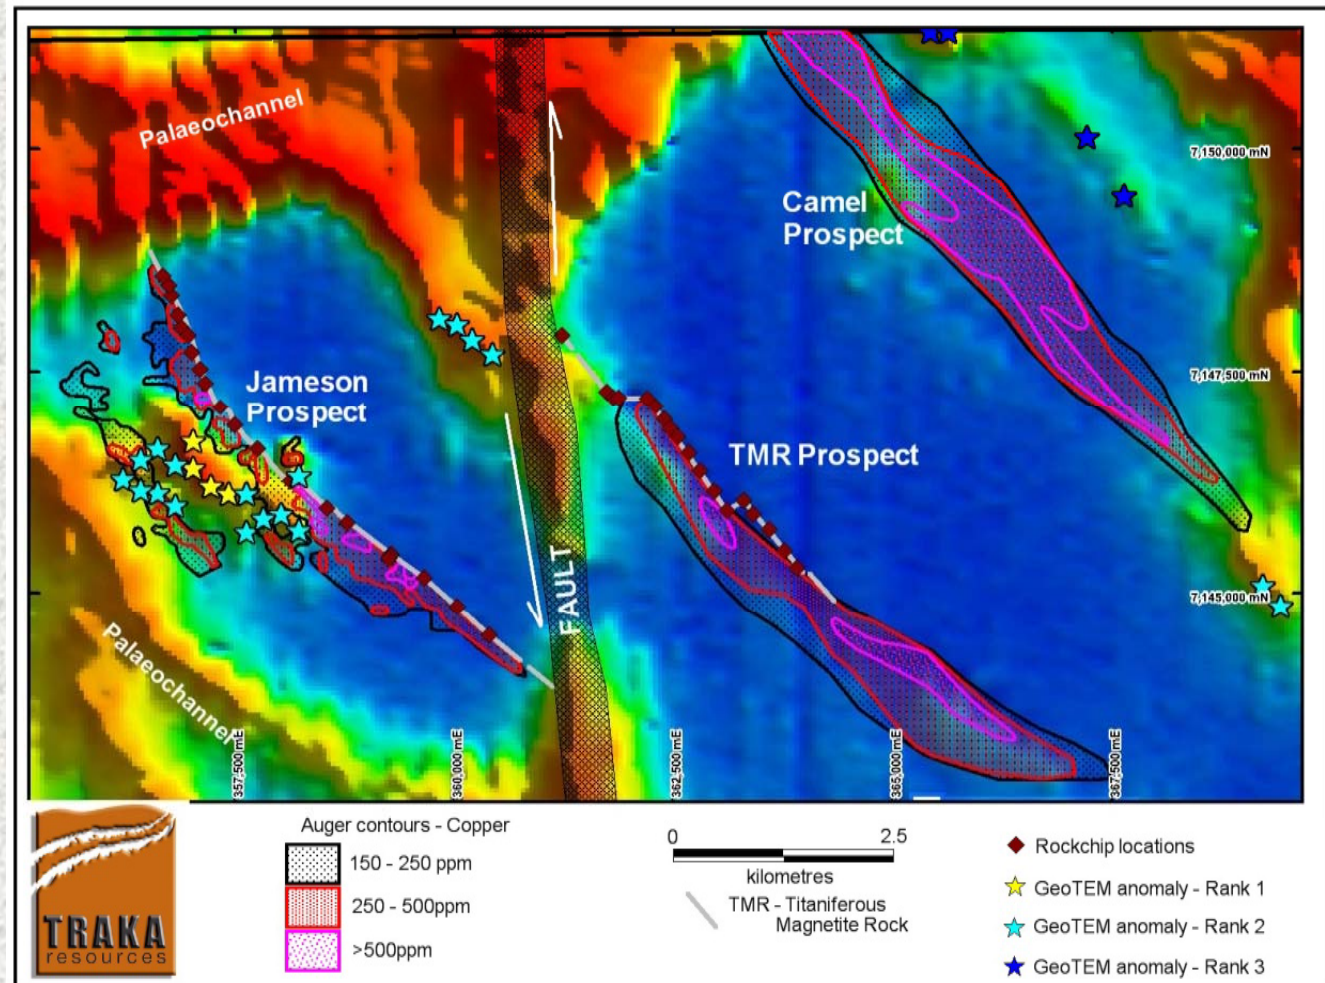

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

Airborne EM

- Rapid – regional – massive sulphide target bias – provides geology and regolith information
- Palaeochannels

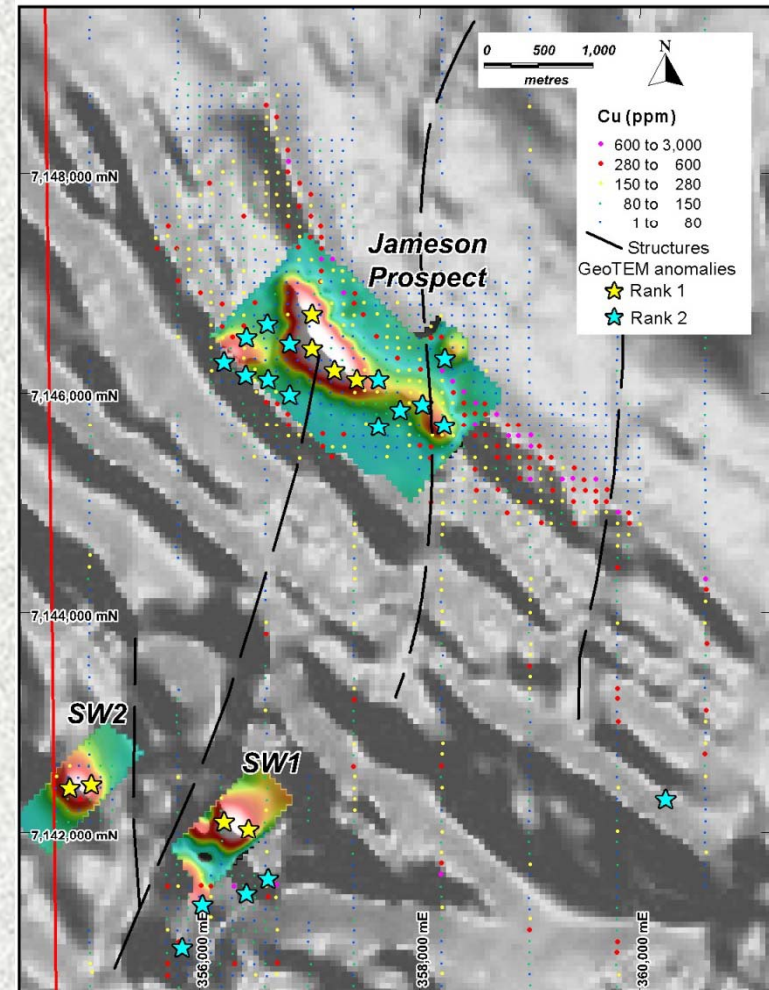

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

Jameson Prospect

- 800m EM target focus on 10 km long south dipping layer of Jameson layered intrusive
- Strong coincident Cu (0.27%), Ni (0.05%), Pt (190ppb) geochemistry in mafic/ultramafic rocks
- Titaniferous magnetite footwall rock with very strong V (1-2%), Pt+Pd+Au (1.5g/t)
- Disseminated sulphide source for geochemical and geophysical anomalism

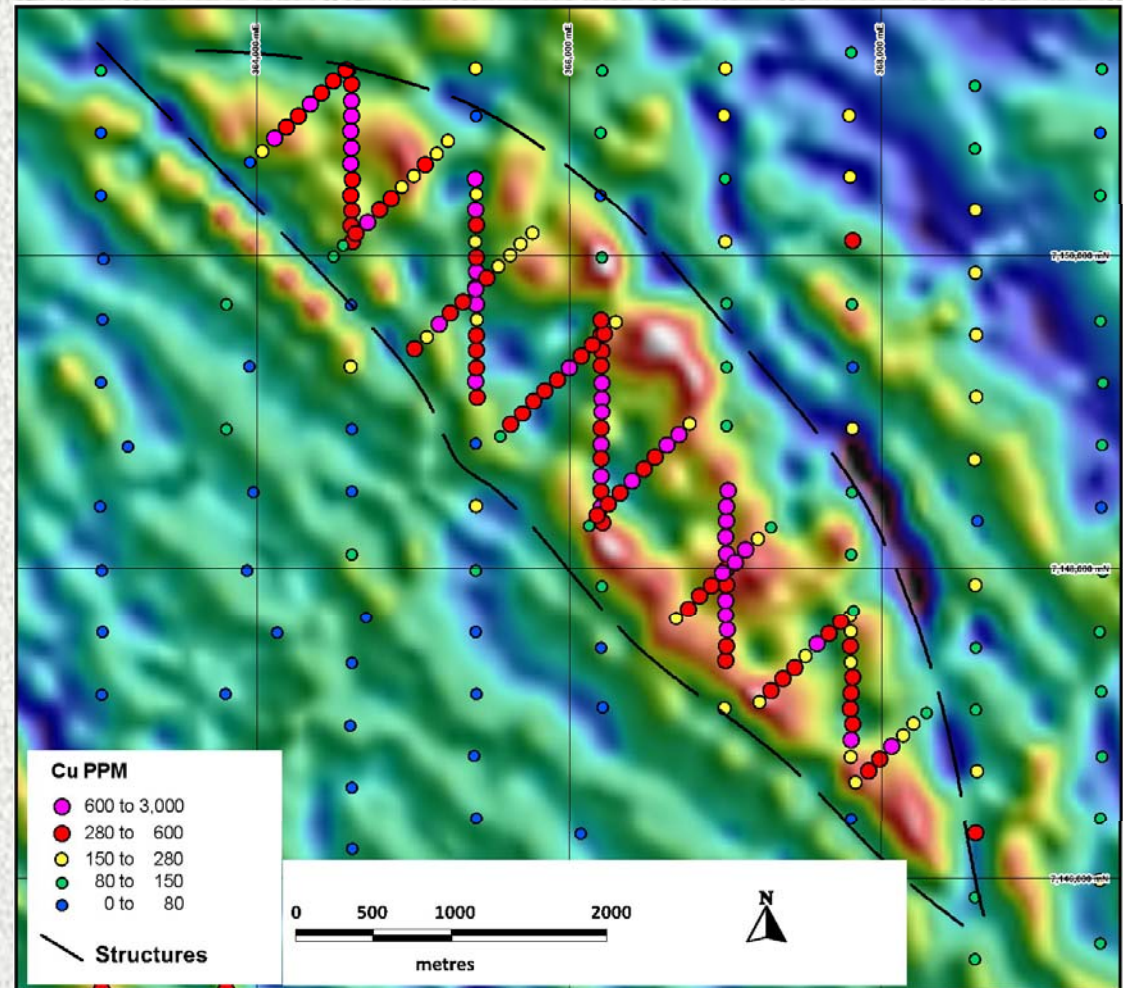

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

CAMEL PROSPECT

- Very strong 8 x 1 km geochemical target
- Peak Cu (0.2%), Ni (0.13%), Pt (17ppb) Pd (83ppb) and Au (119ppb)
- Discrete geological setting
- Drilling planned

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

ANGLO AMERICAN JOINT VENTURE

- JV covers 11 tenements - active on 5
- \$3m for 51% plus another \$6m for 75%
- Multi million dollar budget per annum

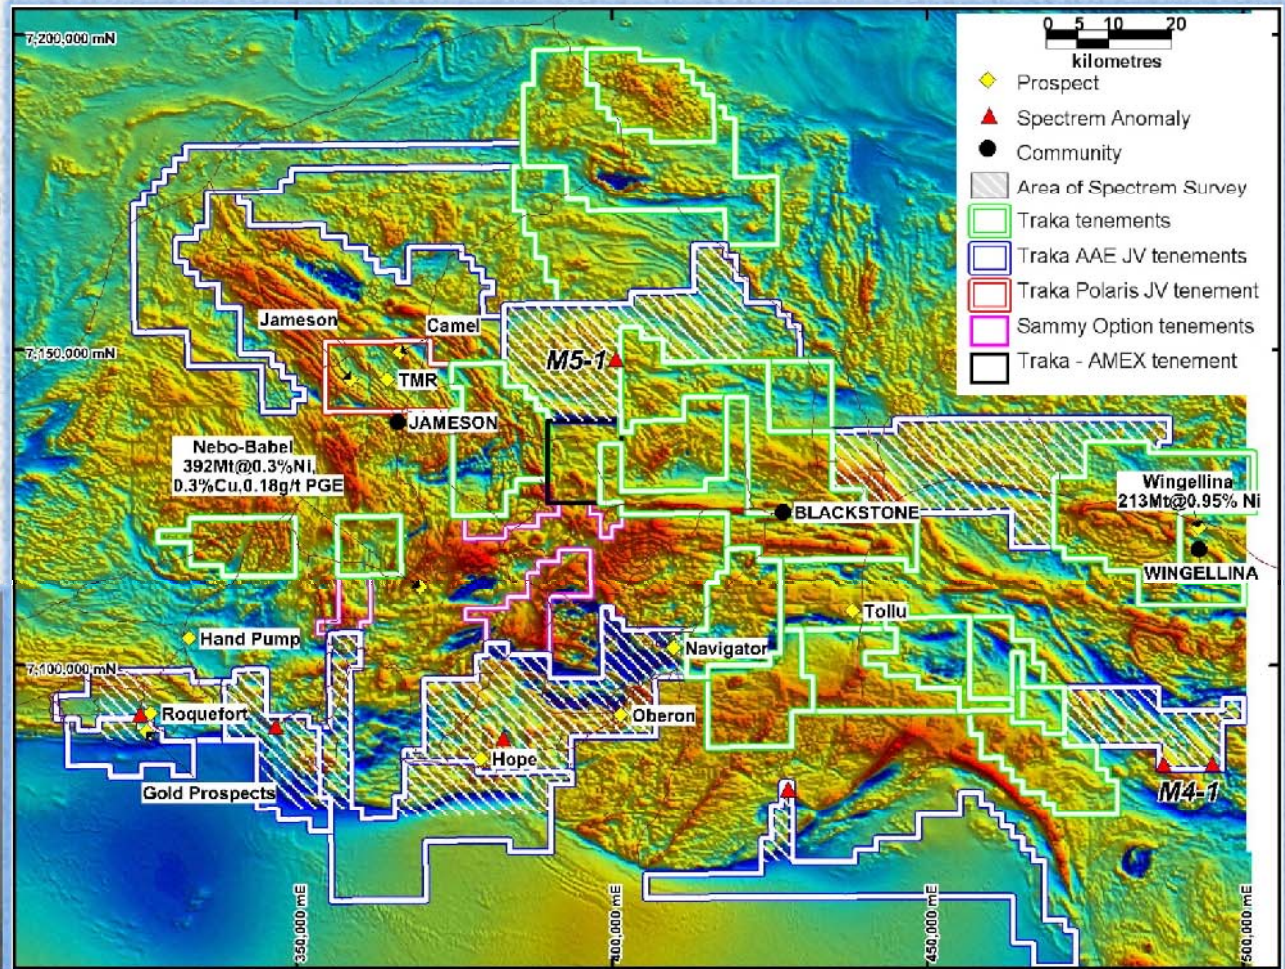

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

ANGLO AMERICAN JV

- 15,500 line/km Spectrem Survey
- Geochemical + SQUID surveys
- Drilled three targets
- Working on M4 -1

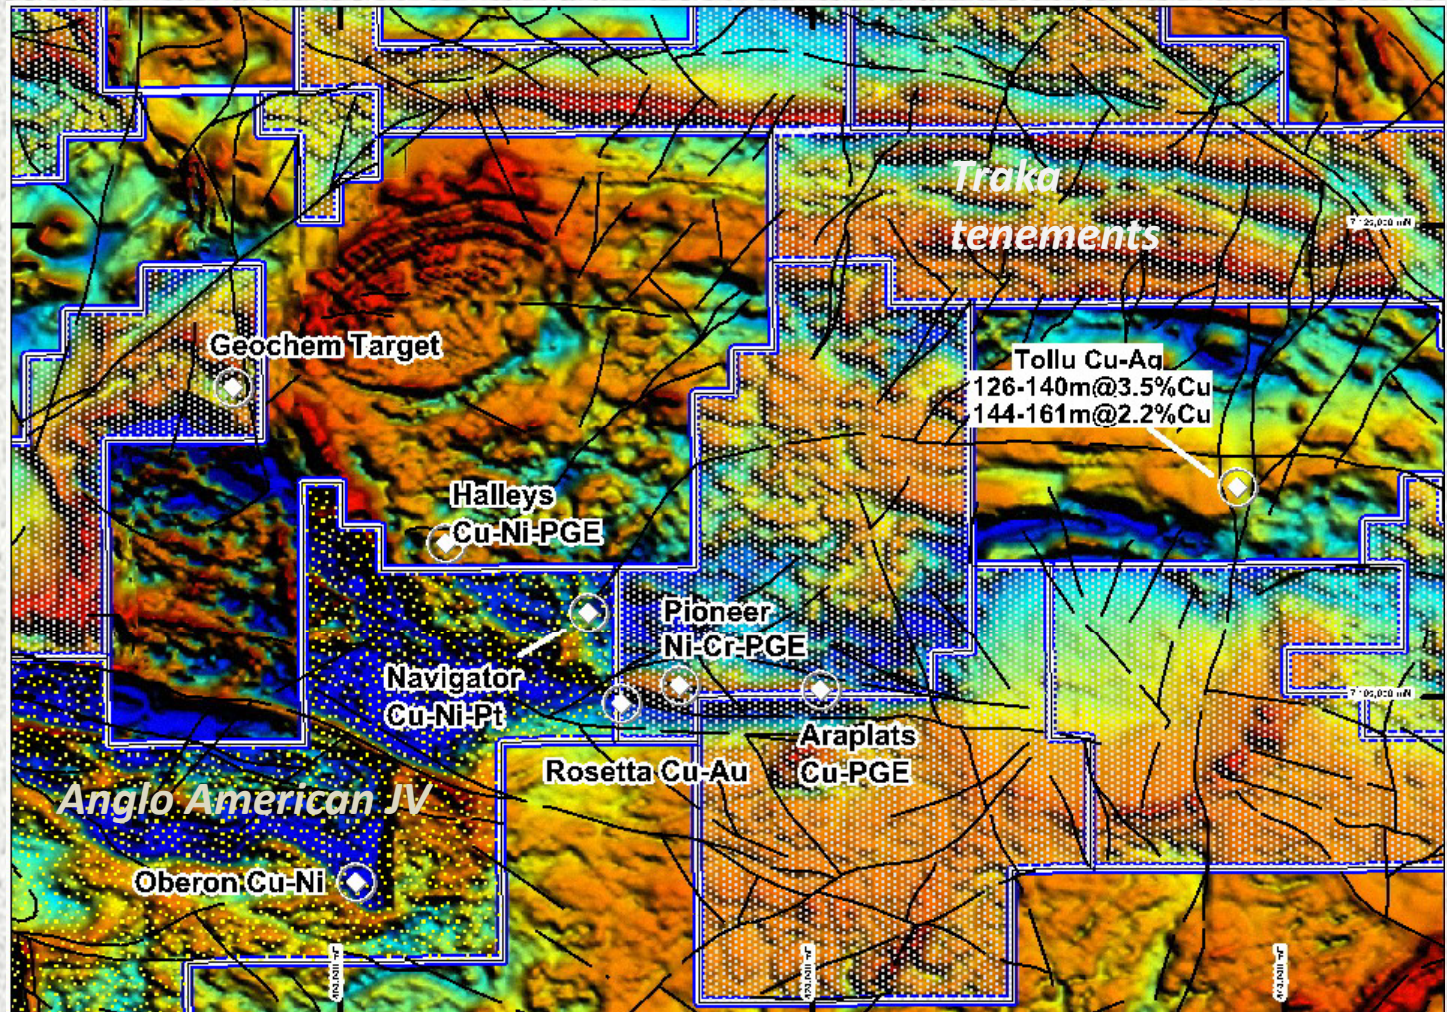

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

Navigator Prospect

- Geological setting
-between Saturn and Cavenagh Range Intrusives
- 20km long
geochemical
anomaly
- Araplats target
near Tollu Granite

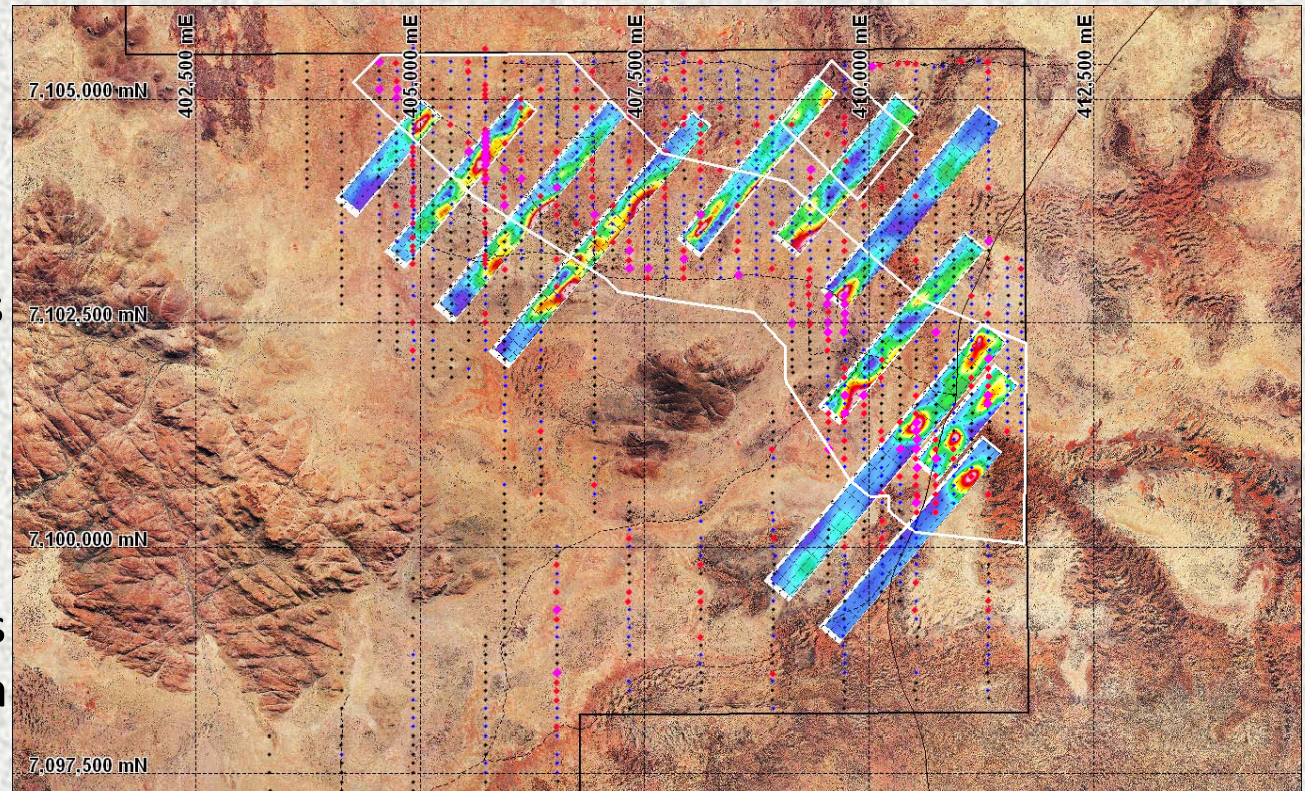

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

Navigator Prospect

- 9 holes drilled—results pending
- Disseminated sulphides
- 8 km copper, nickel, platinum anomalism
- G3 intrusive on margins of Saturn and Cavenagh

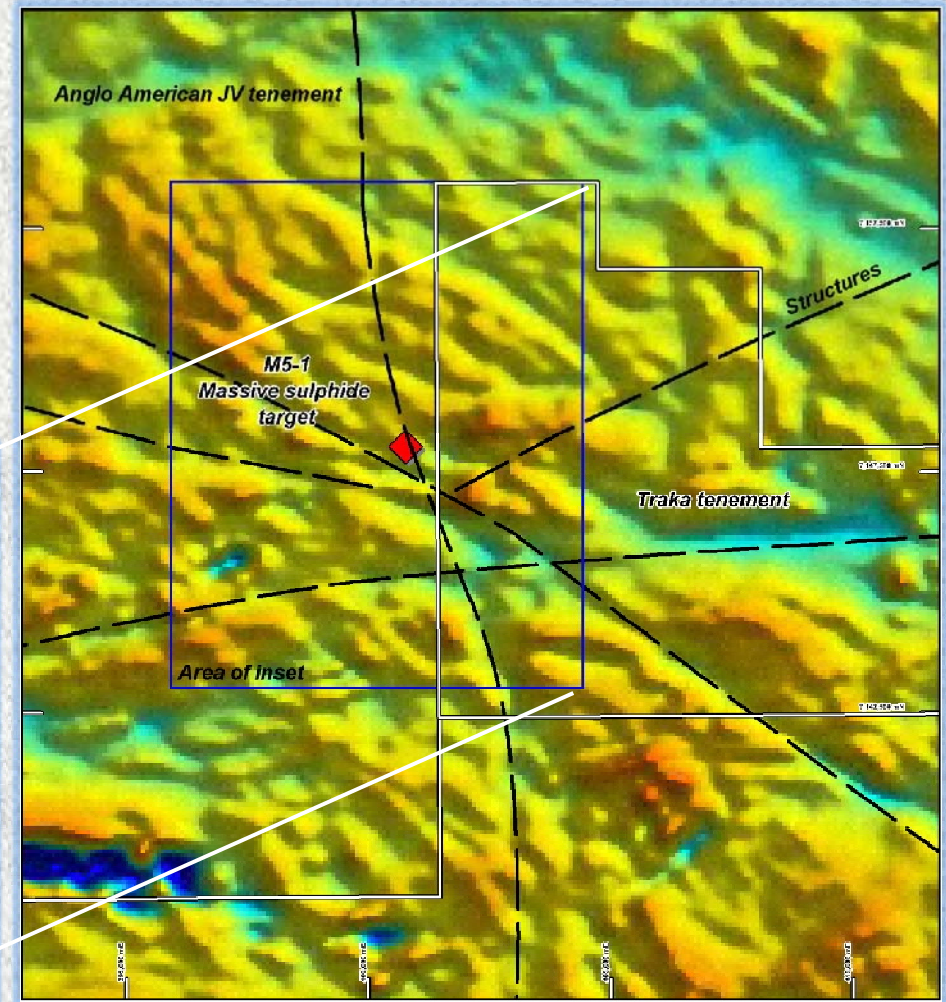

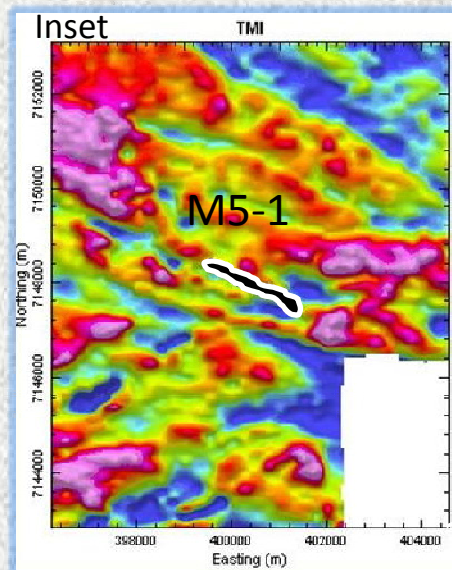

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

Prospect M5-1

- Permitting underway
- Massive sulphide target – 1km long and dipping south
- Intersecting structures
- Drilling planned for early 2011

TRAKA RESOURCES LIMITED

MUSGRAVE PROJECT

REGIONAL ACTIVITY

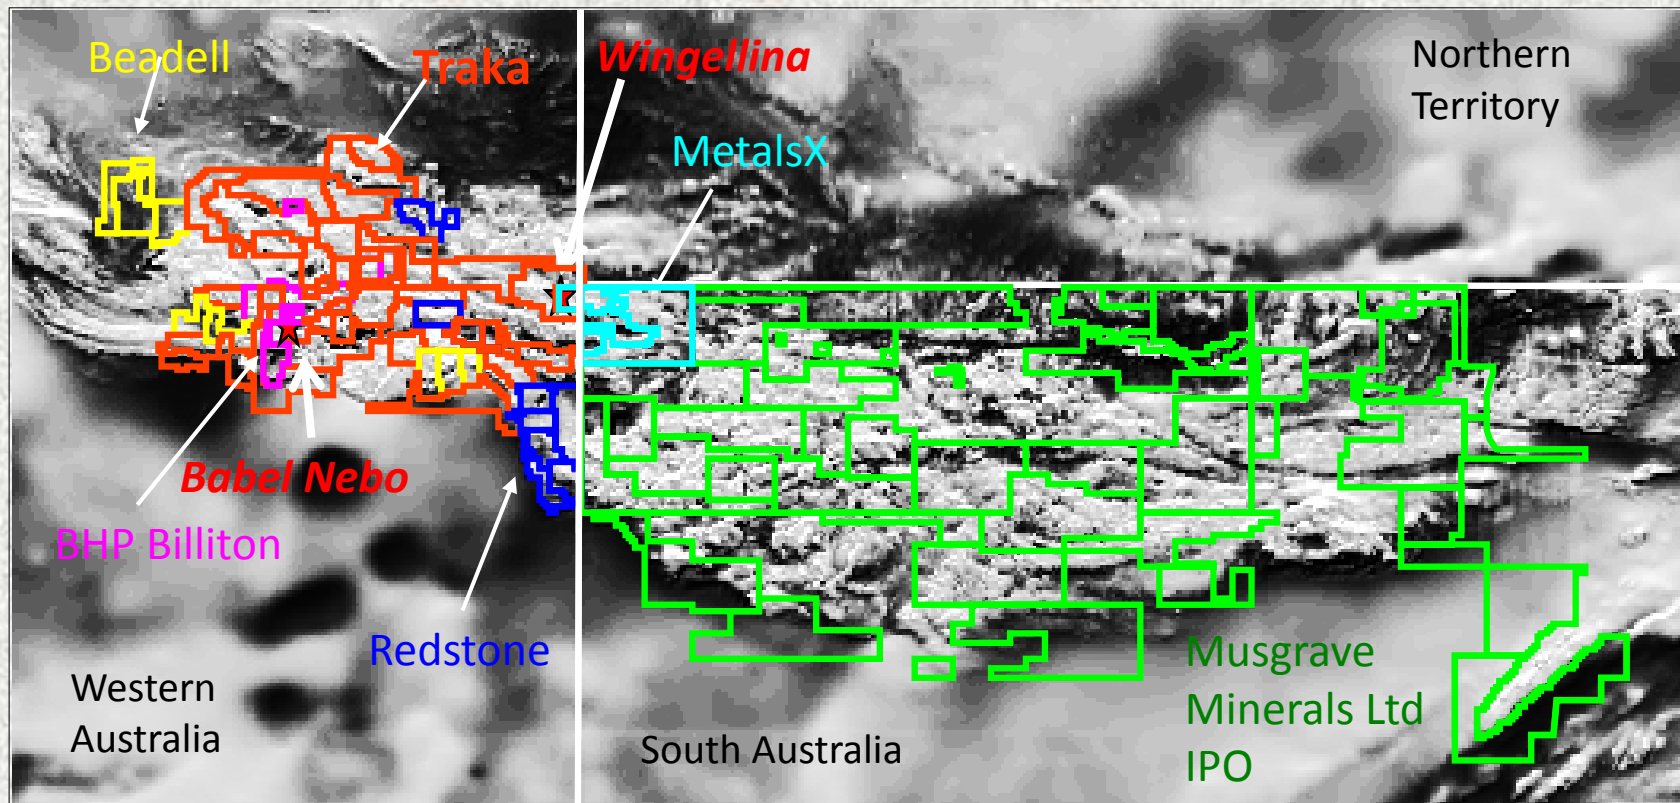

- BHP Billiton - continuous and systematic EM and deep diamond drilling programs
- Metals X - Mining Agreement in place on 180mt Limonite Laterite Nickel Resource
- Musgrave Minerals IPO - 50,000 sq km South Australian side of the Musgrave Province
- Redstone Resources Ltd – Tollu Copper (Hydrothermal Vein) and Antlion Cu PGE Prospect (IOCG)
- Beadell Resources - drilling on Handpump gold target
- Traka/ Anglo American – new targets and multi-million dollar exploration programs
