Gorge Creek Project Commencement of Drilling

A 4,000 metre Reverse Circulation drill program to test targets on the Gorge Creek Project has commenced.

This program will test copper, cobalt, lead and zinc targets highlighted by exploration programs completed last field season.

Details of the drill program, which include 5 targets on the prospective Fish River Fault Zone (FRFZ) have been provided in the Traka's March 2019 Quarterly Report ⁽¹⁾. (Figure 1)
