Livium Secures Contract Extension, Volume Acceleration and Advanced Payment under Sell & Parker Agreement

Highlights

Engage with this announcement at: InvestorHub

- **Livium has executed a Variation with key customer Sell & Parker to accelerate volumes, extend the term by a further year, and support low-risk capacity expansion**
- **The Variation seeks to incentivise higher monthly volumes under the recycling Agreement executed with Sell & Parker in April 2025**
- **Sell & Parker will pay a deposit, structured as a series of payments, to provide cashflow certainty and downside protection**
- **The deposit will be used to fund an additional dedicated processing plant at Campbellfield to enable near-term capacity growth to service increased Sell & Parker volumes**

Livium Ltd (ASX: LIT) ("Livium" or the "Company") is pleased to announce that its wholly owned subsidiary Envirostream Australia Pty Ltd ("**Envirostream**") has entered into a variation ("**Variation**") with Sell & Parker Pty Ltd ("**Sell & Parker**") in relation to the subcontractor recycling agreement ("**Agreement**") originally announced on 24 April 2025.

The Variation extends the Agreement term by approximately one year, introduces a deposit ("**Deposit**") to support the development of dedicated processing capacity, and seeks to accelerate volumes under the Agreement. Volumes receipts are anticipated to increase immediately and will continue to be processed through Envirostream's current processing facility at Campbellfield. The additional dedicated processing line will also be located at Campbellfield and is anticipated to be delivered within 6-8 weeks. The Deposit will be repaid through future Envirostream invoices once a monthly volume threshold has been achieved until such time that the Deposit value is reduced to nil.

Volume receipts under the Agreement have been slower than anticipated and this Variation seeks to close the gap on collections. Sell & Parker remain a key customer of Envirostream, and this Variation reflects the strong relationship between the parties.

No other material terms of the Agreement are amended by this Variation.

Livium CEO and Managing Director, Simon Linge commented *"Following initial commissioning delays outside of our collective control, this Variation provides a clear and commercially aligned framework to support increased volumes under the Sell & Parker Agreement and capacity expansion to process them.*

The incentive for higher throughput allows us to invest in targeted capacity expansion with confidence, ensuring we can meet near-term demand while positioning Envirostream for continued growth.

We value our relationship with Sell & Parker and see this as an important step in realising the full potential of the original Agreement."

About Livium

Livium Ltd (ASX: LIT) is Australia's leading battery recycler through its wholly owned subsidiary Envirostream — a profitable business focused on the recovery of valuable materials from end-of-life batteries.

Building on this foundation, Livium is expanding into adjacent opportunities including recycling of rare earth elements and solar panels, and the processing of black mass — strengthening Australia's clean-energy supply chain.

Forward-looking statements

This announcement contains forward-looking statements. Forward-looking statements are subject to a variety of risks and uncertainties that it is beyond the Company's ability to control or predict, and which could cause actual events or results to differ materially from those anticipated in such forward-looking statements. Investors should be aware that past performance should not be relied upon as being indicative of future performance.

About Sell & Parker

Trading since 1966, Sell & Parker is an Australian owned and operated private company. Sell & Parker are buyers and sellers of all grades and all quantities of Ferrous and Non-Ferrous metals. They process the scrap and sell direct to end users making them independent of other scrap merchants.

Sell & Parker have over 400 employees and 8 metal recycling facilities across Australia, servicing Port Hedland in Western Australia, Darwin in the Northern Territory, plus six yards across NSW. Sell & Parker is a supplier to BlueScope Steel and is Green Star (Construction & Demolition Waste Reporting Criteria) compliant.
