Lend Lease

ASX Announcement

Lend Lease's commitment to sustainability recognised again on Dow Jones World Sustainability Index

14 October 2010

Lend Lease's sustainability leadership has once again been recognised in the latest Dow Jones Sustainability Index (DJSI).

The DJSI tracks the financial performance of the world's leading sustainability-driven companies, providing asset managers with objective benchmarks to manage sustainability portfolios.

Lend Lease achieved an overall score of 78 per cent, two per cent higher than last year, and well ahead of the average industry score of 43 per cent. The Group was recognised for its continued commitment to sustainable practices across a range of measures, including Human Resources and Diversity, Legal, Risk, Health, Safety and Environment.

Lend Lease Group Chief Executive Officer and Managing Director, Steve McCann, said the results reflected the Group's ongoing commitment to sustainable practices as well as measuring and communicating sustainability performance.

Competition to be included in the DJSI is strong with the number of companies vying for a place increasing significantly in recent years. Lend Lease was the first Australian property company to be included on DJSI in 2001.

"It's no longer enough to perform well financially, we need to also perform sustainably," added Mr McCann. "Lend Lease's latest DJSI results help us to show how important sustainability is to our business in all regions."
