

ASX Announcement

Secured contract for the NorthConnex Motorway Project

2 February 2015

Lend Lease today announced that its Engineering business had secured the \$2.6 billion contract in respect of the design and construction of the NorthConnex Motorway, including the integration of the widening of the M2 motorway, in Sydney, New South Wales. Lend Lease is in a joint-venture with leading French entity Bouygues Construction to deliver the project.

Lend Lease, and its partner Bouygues Construction, were announced as the preferred tenderer in March 2014.

The project is a nine kilometre twin tunnel link from the southern end of the M1 Pacific Motorway (formerly the F3 Freeway) at Wahroonga to the Hills M2 Motorway at its existing Pennant Hills Road interchange. The project is being undertaken by Transurban Limited and its partners in the Westlink M7.
