## REVENUE

## EBITDA

# Group overview

## Highlights

The highlights for Beerenberg (Beerenberg AS consolidated) in the 3<sup>rd</sup> quarter 2023 were:

- Revenue was MNOK 579, up 7% compared 3<sup>rd</sup> quarter last year.
- 10% increase in service activity in the period compared to same period last year.
- Benarx experienced lower deliveries in 3<sup>rd</sup> quarter compared to 3<sup>rd</sup> quarter 2022 due to delays in projects in Asia.
- EBITDA of MNOK 41, down from MNOK 46 in the 3<sup>rd</sup> quarter 2022. EBITDA affected by MNOK 7 in one offs in connection with the public listing process.
- Order intake in the period was MNOK 353 in the 3<sup>rd</sup> quarter 2023 compared to MNOK 93 same period last year.
- Estimated order backlog at the end of the quarter was BNOK 7 compared to BNOK 8.3 at the end of the 3<sup>rd</sup> quarter last year.
- Refinancing finalized mid-July where the Bond has been repaid and replaced by a MNOK 600 loan in SpareBank 1 SR-bank.
- Beerenberg has been listed on the Euronext Growth marketplace on the 5<sup>th</sup> of October. In connection with the public listing of the company in October the MNOK 200 in interest bearing short-term liabilities has been repaid.

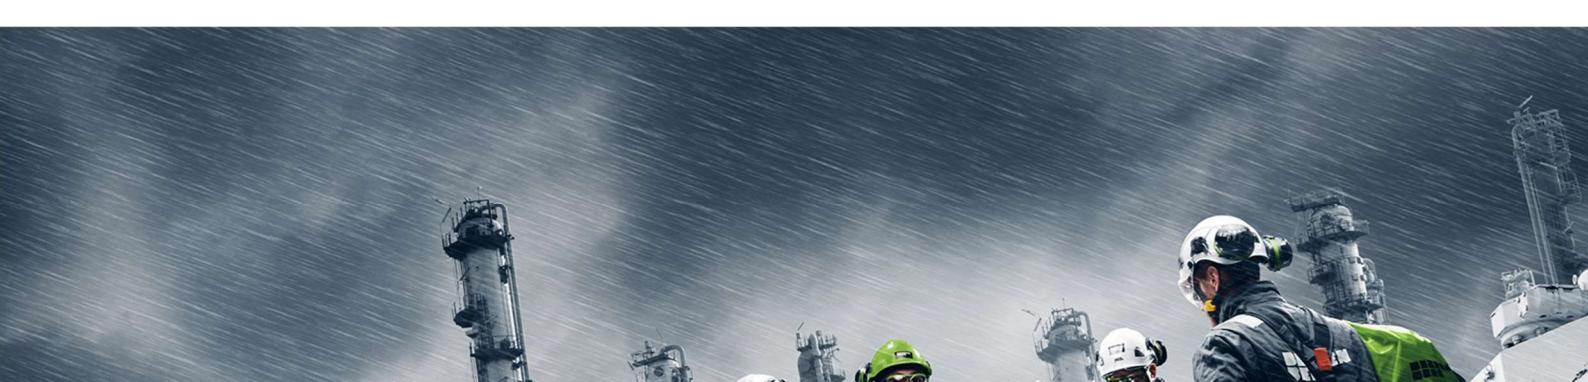

## Income Statement

Revenue in the 3<sup>rd</sup> quarter was MNOK 579 compared to MNOK 541 in 3<sup>rd</sup> quarter 2022. The Service segment had a 10% increase in activity compared to the same period last year. Benarx had a 27% drop in deliveries in the quarter compared to the corresponding period last year. Delays on projects in Asia is the main explanation to the decrease.

EBITDA in the 3<sup>rd</sup> quarter 2023 was MNOK 41, down from MNOK 46 in the corresponding quarter last year. EBITDA margin 7.0% compared to 8.6% in the 3<sup>rd</sup> quarter last year. EBITDA was influenced by one off cost in relation to listing Beerenberg at the Euronext Growth marketplace of MNOK 7. Adjusted for one offs, EBITDA in the 3<sup>rd</sup> quarter is MNOK 47 with an EBITDA margin of 8.2%. YTD the EBITDA is MNOK 139 with EBITDA margin of 8.1% compared EBITDA margin of 8.0% YTD 2022. Adjusted YTD EBITDA is MNOK 146 compared to 131 last year, with an adjusted EBITDA margin of 8.5%.

Financial cost in the 3<sup>rd</sup> quarter 2023 was MNOK 29, up from MNOK 20 in 3<sup>rd</sup> quarter 2022. Higher financial cost in the 3<sup>rd</sup> quarter 2023 compared to 2022 is mostly due to effects related to redemption of the old bond.

Net profit in the 3<sup>rd</sup> quarter 2023 was negative by MNOK 5 compared to a net profit of MNOK 6 in the 3<sup>rd</sup> quarter 2022.

## Balance Sheet

Total assets were MNOK 1761 at the end of the quarter, with an equity ratio of 33%. The group's cash position has increased from MNOK 70 in the 3<sup>rd</sup> quarter 2022 to MNOK 82 in the 3<sup>rd</sup> quarter 2023.

Total non-current assets were MNOK 1095, up from MNOK 1049 compared to the end of 3<sup>rd</sup> quarter 2022. Current assets of MNOK 666 were down from MNOK 670 in the same period last year.

Total current liabilities of MNOK 736 were up from MNOK 485 at the end of the 3<sup>rd</sup> quarter 2022 and total non-current liabilities were MNOK 445 down from MNOK 667 in the 3<sup>rd</sup> quarter 2022. The main reason for the reduction is reclassification of part of the Bank debt (MNOK 200) to current liabilities. In connection with the public listing of the company in October the MNOK 200 in interest bearing short-term liabilities has been repaid.

Net interest-bearing debt was MNOK 606 compared to MNOK 659 in the 3<sup>rd</sup> quarter 2022. After the balance date MNOK 200 has been repaid to SR Bank.

Net working capital ended at MNOK 113 in the period, compared to MNOK 229 at the end of the 3<sup>rd</sup> quarter 2022. The decrease relates mainly to lower accounts receivables.

## Cash Flow

The Groups cash position was MNOK 82 by the end of the 3<sup>rd</sup> quarter 2023 up from MNOK 70 same period last year.

Cash flow from operating activities was negative by MNOK 14 in period versus positive by MNOK 57 in corresponding period last year. The difference relates mainly to changes in net working capital which is greatly influenced by the timing of payments on invoices related to our major framework contracts. The due date of these invoices fell in October for this quarter. The development of working capital needs to be assessed over a period and not solely at the end of the quarter.

Cash flow from investing activities was negative by MNOK 12 compared to negative MNOK 7 in the 3<sup>rd</sup> quarter 2022. Investing activities were Capex related to machinery and equipment in both quarters.

Cash flow from financing activities was negative by MNOK 76 compared to negative MNOK 22 in the 3<sup>rd</sup> quarter 2022. Redemption of the bond, and the replacement of this with a bank

loan explains the difference. The total cash effect of the refinancing in the period was MNOK 61.

Total cashflow in the 3<sup>rd</sup> quarter 2023 was negative by MNOK 102 compared to positive MNOK 28 in the 3<sup>rd</sup> quarter 2022. The difference between the periods is mainly explained by changes in net working capital and effects of refinancing.

## Order Backlog & Market

The tender activity has been stable during the 3rd quarter of 2023 relating both to Benarx/Subsea deliveries and new build/modification projects (oil&gas, industry and infrastructure).

Total order intake of new contracts and increase in scope of existing contracts was approximately MNOK 353 for the period. A major part of the order intake is related to being awarded the Gina Krogh platform under the existing offshore frame agreement with Equinor (valuated at MNOK 258).

The current estimated order backlog (including frame agreements and options) is BNOK 7.

## HSEQ

At the end of 3<sup>rd</sup> quarter Beerenberg had 1442 employees, up from 1413 2<sup>nd</sup> quarter 2023.

It was one serious incident in 3<sup>rd</sup> quarter resulting in a total Serious Incident Frequency (SIF) in the period of 1,4 and 1.3 during the last 12 months.

How we achieve our results is important. Beerenberg's strong commitment to sustainability is applied to everything we do. Sustainability is embedded in our strategy – and many of our primary operations, whether maintenance or insulation products, are inherently about sustainable development.

## ESG pillar

Innovation for reduced emissions and waste

Developing people and providing safety

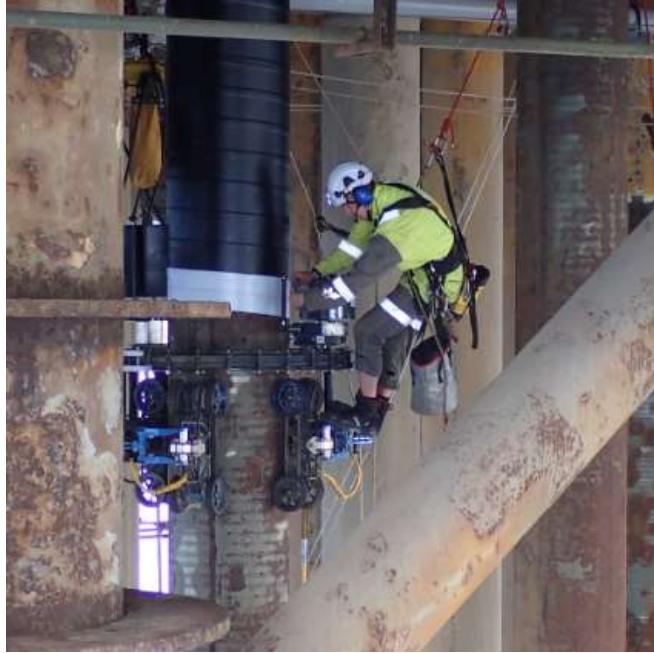

Transparency and governance

## Robotic surface treatment in Brazil

In the Campos basin just east of Rio de Janeiro, Beerenberg has now finished maintenance of 16 conductors on one of the wellhead platforms. The guide pipes underneath the platform are particularly exposed to wear and tear and maintenance here is an important part of ensuring the lifetime of the facility. Now these pipes have been completely rehabilitated in an efficient and safe manner using a robot, with reduced risk and strain for employees and a reduced environmental footprint.

### Efficiency, good HSE and a reduced footprint

The robot Icarus is particularly suitable for such operations on long pipe runs and the quality is also better than with manual work. Even with rigging, which can be complex and time-consuming (video), Icarus ensures that the efficiency of the entire mission increases by 150 percent, compared to traditional maintenance. The most important thing, however, is that the work is done with good HSE and a reduced environmental footprint.

### Specially designed technology

The entire mission is carried out with the robot Icarus, which is designed to perform maintenance on pipes. The method provides increased efficiency and safety and has already shown its value on several different assignments in the North Sea.

- Icarus was used to pre-treat conductors on the Troll B and Sleipner A platforms in 2021 and 2022. In connection with the projects, Icarus was further developed to be able to perform more tasks, says technical manager in Beerenberg, Kristian Henriksen.

Beerenberg's team of experienced access technicians, robot technicians and project management are dedicated to solving any challenges that may arise.

- Our problem solvers on site provide specific proposals for changes and contribute to improvements and further development of the robot be able to perform more maintenance tasks, along with the technology developers in Remotion. This is the main reason we are successful with this type of assignment, says Henriksen.

### Value creation through innovation

Together with Remotion, complete solutions are developed that benefit the customers. Henriksen is clear about the fact that the company does not choose robotization at any cost.

- Our experience is that it is the combination of machine and personnel that gives the optimal effect, regarding both efficiency and quality. The robots do not replace professional personnel but reduce strain and exposure for our employees. We get to do more for the customer, while at the same time getting a more exciting working day. Robots have now become a natural part of everyday life, says Henriksen. **Reference projects:**

# Business segments

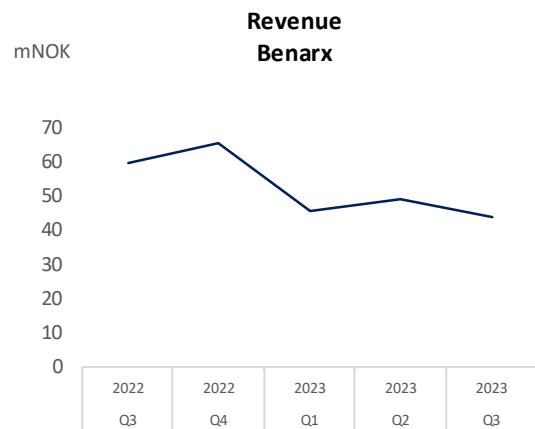

## Services

The Service segment revenue for the 3<sup>rd</sup> quarter was MNOK 547, up MNOK 49 compared to the corresponding period last year. Increased maintenance work resulted in the increased the activity. The EBITDA margin was 7.9%. Strong demand for additional services including robots. Successfully completed robotics project in Brazil and the NCS. Cost pressure still an issue in the quarter.

## Benarx

The Benarx segment reported a revenue of MNOK 44 for the quarter with a negative EBITDA margin of 5.7%. The revenue was down 27% compared to the same period last year. Low activity in Asia due to delays on projects influencing activity significantly. Activity in Europe has been steadier but with smaller orders. Subsea with stable activity with several deliveries both in Norway and internationally. Measures taken to reduce overhead in the segment.

# Notes

## Note 1 - General

Beerenberg AS is a company domiciled in Norway. The consolidated financial statements of Beerenberg AS comprise the company and its subsidiaries, together referred to as the group. The Beerenberg Group was established 01. March 2013, as a result of the Beerenberg AS acquisition of all shares in Beerenberg Holding AS.

Beerenberg is delivering products and services to its customers in complex environments implying operational risk with regards to quality, cost, time and injuries and accidents (HSE). Beerenberg works systematically to mitigate and manage risk on all levels. The annual report for 2022 provides further information on risks and uncertainties applicable to Beerenberg.

A reverse share split was carried out mid-September, merging 25 shares into one share. Shareholders in Beerenberg AS at 30.09.2023 are specified in table below. The company was listed the 5<sup>th</sup> of October.

Shareholders	Total Shares	%
Segulah IV L.P.	8 962 735	83,9 %
AlpInvest Partners Co-Investments 2011 II C.V.	1 254 298	11,8 %
Management and others	462 967	4,3 %
Total	10 680 000	100,0 %

## Note 2 – Basis for preparation

The interim financial statements for the group are prepared in accordance with International Financial Reporting Standards (IFRS) as approved by the European Union and their interpretations adopted by the International Accounting Standards Board (IASB).

The interim report does not include all the information required for full annual consolidated financial statements in an Annual Report and should be read in conjunction with the Annual Report of the group for 2022. The accounting policies applied in the interim financial statements is the same as those described in the Annual Report for 2022.

The condensed consolidated interim financial statements are prepared in accordance with IAS 34 Interim Financial Reporting. The interim financial statements are unaudited.

The Annual Report for 2022 is available at [www.Beerenberg.com](http://www.Beerenberg.com)

## Note 3 - Judgments, estimates and assumptions

In applying the accounting policies, management makes judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. The estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

In preparing this interim financial statement, the significant judgments made by management in applying the group's accounting policies and the key sources of uncertainty in the estimates were consistent with those applied to the consolidated financial statements as at and for the period ended 31. December 2022. Please refer to Note 3 in the Annual Report for 2022.

#### Note 4 – Loan and covenants

Repayment of the bond BBERG03 of MNOK 625 was finalized the 19<sup>th</sup> of July. New long-term financing of 600 is established in SpareBank 1 SR-Bank. The Financing Package consists of 3 Term loans of MNOK 200 each. Tranche 1 has 5-year maturity and quarterly amortization of MNOK 10, Tranche 2 has also 5-year maturity but with no amortization. Tranche 3 has one year maturity. The main shareholder Segulah has provided security of MNOK 150 for Tranche 3.

Interest margins in addition to 3mth Nibor are 4,25 % for Tranche 1, 4,75 % for Tranche 2 and from 6% to 8,5 % for Tranche 3. (margins are quarterly increased on Tranche 3)

Financial covenants related to the Financing Package are the following:

Minimum Equity share:		25%
Maximum Net Interest Bearing debt / 12 months rolling EBITDA	Until 31.12.2024	< 4
	Until 31.12.2025	< 3
	Until 31.12.2024	< 2,5
Minimum Current assets / Short term debt excluding loans and amortization within one year		1,15

The Group is well within these covenants.

Following the public listing in October, Tranche 3 was been fully repaid the 10<sup>th</sup> of October.

#### Note 5 – Related party transactions

Segulah, the largest Shareholder prior to the public listing, provided security of MNOK 150 covering Tranche 3 as described in Note 4. The Guarantee provision was 2%. The guarantee has been terminated in October as Tranche 3 has been repaid.

No other related party transactions were conducted in 3<sup>rd</sup> Quarter of 2023.

## Note 6 Operating segments

Beerenberg is organized in two operating segments in order to optimize and focus its business. The Services segment includes business related to the traditional ISS-activity in the group, which is mainly related to major framework agreements, and the Benarx segment which consists of advanced insulation for topside and subsea applications.

### Revenue by Segment

Amounts in NOK million	Q3	Q3	YTD	YTD	FY
	2023	2022	2023	2022	2022
Services	547,5	498,1	1 639,5	1 542,8	2 063,7
Benarx	43,6	59,8	138,0	153,9	219,2
Eliminations	-12,2	-17,1	-48,4	-43,8	-61,0
<b>Total</b>	<b>578,9</b>	<b>540,9</b>	<b>1 729,1</b>	<b>1 652,9</b>	<b>2 221,9</b>

### EBITDA by Segment

Amounts in NOK million	Q3	Q3	YTD	YTD	FY
	2023	2022	2023	2022	2022
Services	43,1	40,4	143,2	124,0	159,2
Benarx	-2,5	6,0	-3,8	7,5	20,9
<b>Total</b>	<b>40,6</b>	<b>46,4</b>	<b>139,4</b>	<b>131,4</b>	<b>180,0</b>

### Note 7 – Change in non-controlling interests

A subsidiary in Thailand is owned 51% by an entity outside the Group. However, the voting rights of the shares implies that the Group have control of the subsidiary. In addition, the shareholder agreement between the two shareholders entitles Beerenberg to any dividends or losses in this subsidiary. The other shareholder is entitled to 3% percentage of its invested capital in the subsidiary. Following a revision of the shareholder agreement, the allocation of profit and loss and the allocation of equity between Beerenberg and the non-controlling entity have been revised.

### Note 8 – Subsequent events

The Company was listed on the Oslo Stock Exchange the 5<sup>th</sup> of October. A loan of MNOK 200, Tranche 3, has been fully repaid the 10<sup>th</sup> of October. No other events have occurred after the reporting date, that are of significant impact when considering the financial position or result in the group.
